

FERC on a final basis on January 9, 2014, for a period that ends September 30, 2017. Since the current Integrated System Rate Schedules were first placed in effect, there has been one change. A specific section (2.3.6) within Non-Federal Transmission Service (NFTS) rate schedule NFTS-13 was added to replace the stated-rate for customers taking Southwest Power Pool (SPP) Network Integration Transmission Service (NITS) with a revenue-requirement based methodology that includes determining the SPP NITS Annual Revenue Requirement (ARR) portion of Southwestern's NFTS ARR. The rate schedule was re-designated NFTS-13A to reflect the change to the initial rate schedule. This rate schedule change was placed in effect on an interim basis by the Deputy Secretary of Energy effective January 1, 2017, and confirmed and approved on a final basis by the FERC on March 9, 2017, under docket EF14-1-001. This revision had no impact on the revenue requirements for Southwestern's Integrated System. No change was made to the original expiration date, September 30, 2017.

The Administrator will review and consider all written comments and the information gathered when submitting the finalized Integrated System Rate Schedules Extension to the Deputy Secretary of Energy for confirmation and approval on an interim basis.

Dated: May 31, 2017.

SUPPLEMENTARY INFORMATION: This document reopens the public comment period established in the *Federal Register* document of January 19, 2017. In that document, EPA announced a 30-day public review period soliciting comments on the proposed settlement agreement in *Sierra Club v. EPA*, No. 16-1158 (D.C. Cir.). The proposed settlement agreement would resolve Sierra Club's lawsuit challenging EPA's final action titled "Revisions to Ambient Monitoring Quality Assurance and Other Requirements" upon EPA's issuance of two nonbinding guidance documents recommending public notification practices concerning the submission and approval of ambient air monitoring network plans. As described in paragraph 2 of the proposed settlement agreement, one guidance document would be sent to state and local monitoring agencies recommending that air agencies make proposed network plans available on a state Web site and notify interested parties of plan availability for public comment. EPA would also request that states confirm in a submitted plan the

timing and form of notice given. The guidance would explicitly be a nonbinding recommendation. As described in paragraph 3 of the proposed settlement agreement, the second guidance document would be sent to EPA regional offices, requesting that regions notify interested parties within 15 business days of EPA action on a network plan and that approved network plans be uploaded to EPA Web site within 15 business days of approval. EPA received two requests from state agencies to review and comment on the draft guidance before issuance. The draft guidance documents are now available to consider in commenting on the proposed settlement agreement and will be placed in the official docket for this action under Docket ID No. EPA-HQ-OGC-2017-0030.
