DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG–2017–0510]

Drawbridge Operation Regulation; Sacramento River, Rio Vista, CA

AGENCY: Coast Guard, DHS.
ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Rio Vista Drawbridge across the Sacramento River, mile 12.8, at Rio Vista, CA. The

deviation is necessary to allow the bridge owner to make necessary emergency repairs to the bridge. This deviation allows the bridge to open with one hour advance notice during the deviation period.

DATES: This deviation is effective from 7 p.m. on June 16, 2017 to 4 a.m. on July 1, 2017.

ADDRESSES: The docket for this deviation [USCG–2017–0510], is available at <http://www.regulations.gov>. Type the docket number in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Carl T. Hausner, Chief, Bridge Section, Eleventh Coast Guard District; telephone 510–437–3516; email Carl.T.Hausner@uscg.mil.

SUPPLEMENTARY INFORMATION: The California Department of Transportation has requested a temporary change to the operation of the Rio Vista Drawbridge, mile 12.8, over Sacramento River, at Rio Vista, CA. The drawbridge navigation

span provides a vertical clearance of 18 feet above Mean High Water in the closed-to-navigation position. In accordance with 33 CFR 117.5, the draw opens on signal. Navigation on the waterway is commercial, search and rescue, law enforcement, and recreational.

The drawspan will require a one hour advance notice at three specified periods: (1) From 7 p.m. on June 16, 2017 to 4 a.m. on June 17, 2017; (2) from 8 p.m. on June 24, 2017 to 7 a.m. on June 25, 2017; and (3) from 7 p.m. on June 30, 2017 to 4 a.m. on July 1, 2017, to allow the bridge owner to make emergency repairs to the bridge deck. A one hour advance notice will give enough time for the contractor to clear away equipment and workers before the drawspan can safely open for transiting vessels. Scaffolding will be installed below the bridge deck from June 16, 2017 through July 1, 2017, reducing the vertical clearance by 4 feet, and will extend from the west tower 48 feet into the navigational channel. This temporary deviation has been coordinated with the waterway users.

No objections to the proposed temporary deviation were raised.

Vessels able to pass through the bridge in the closed position may do so at anytime. The bridge will be able to open for emergencies with one hour advance notice. There is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterway through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 12, 2017.

C.T. Hausner,

District Bridge Chief, Eleventh Coast Guard District.

LIBRARY OF CONGRESS

Copyright Office

37 CFR Parts 201 and 202

[Docket No. 2016-9]

Supplementary Registration

AGENCY: U.S. Copyright Office, Library of Congress.

ACTION: Final rule.

SUMMARY: The United States Copyright Office is modernizing its registration practices to increase the efficiency of the registration process for both the Office and copyright owners. To further these efforts, this final rule adopts modifications to the Office's procedures for supplementary registration. Specifically, the Office adopts a new rule that, in most cases, requires applicants to submit an online application in order to correct or amplify the information set forth in a basic registration. In addition, the Office is amending the regulation to codify and update certain practices that are set forth in the *Compendium of U.S. Copyright Office Practices, Third Edition* and to improve the readability of the regulation.

DATES: Effective July 17, 2017.

FOR FURTHER INFORMATION CONTACT: Robert J. Kasunic, Associate Register and Director of Registration Policy and Practice, by telephone at (202) 707-

8040; Erik Bertin, Deputy Director of Registration Policy and Practice, by telephone at 202-707-8040; or Emma Raviv, Barbara A. Ringer Fellow, by telephone at 202-707-3246.

SUPPLEMENTARY INFORMATION:

I. Background

On December 1, 2016, the Copyright Office (the "Office") published a Notice of Proposed Rulemaking ("NPRM") setting forth proposed regulatory amendments designed to make the procedure for supplementary registration more efficient. *See* 81 FR 86656 (Dec. 1, 2016). A supplementary registration is a special type of registration that may be used "to correct an error in a copyright registration or to amplify the information given in a registration." *Id.* Specifically, it identifies an error or omission in an existing registration (referred to herein as a "basic registration") and places the corrected information or additional information in the public record. Section 408(d) of the Copyright Act authorizes the Register of Copyrights to establish such procedures. 17 U.S.C. 408(d).

The NPRM explained in detail the rationale for one major change to the supplementary registration procedures. Previously, and since 2007, the Office allowed and encouraged applicants to register their works through the electronic registration system, *see* 72 FR 36883 (July 6, 2007), but to seek a supplementary registration, applicants had to submit a paper application using Form CA. 37 CFR 201.5(c)(1), (c)(2). Under the rule proposed in the NPRM, applicants will be required to file an online application to correct or amplify the information set forth in a basic registration for any work that is capable of being registered through the electronic system, rather than filing a paper application. The NPRM identified the types of works that will be subject to this online filing requirement when the rule goes into effect, as well as other works that will be subject to this requirement in the near future. 81 FR at 86657-58 & nn. 3-8. The NPRM stated that if the Office subsequently moves registrations for other classes of works into the electronic system, supplementary registrations for those works will also be subject to this same requirement. *Id.* at 86658. Finally, the NPRM stated that applicants will be required to submit a paper application using Form CA to correct or amplify the registration record for works that cannot be registered through the electronic system, and it identified the three types of works that remain subject to the

paper filing requirement. 81 FR at 86658 & nn. 11-13.

The NPRM also proposed modifications to certain practices relating to supplementary registration. First, it clarified that the fee for online submission of a supplementary registration will be the same as the fee for paper submission, and that applicants may be assessed an additional fee if the basic registration has not yet been digitized by the Office, and if the applicant fails to provide a copy of that registration during the examination. Second, the NPRM proposed updating the regulation to reflect examination practices described in the *Compendium of U.S. Copyright Office Practices, Third Edition* (hereinafter "*Compendium*"), the rules regarding when supplementary registration will be declined, and the practices regarding cross-references in the Office's public record. The NPRM also proposed clarifying the relationship between the basic and supplementary registrations, requiring a certification that the applicant has reviewed the basic registration, and laying out the referral procedure in the event of an Office error.

The Office received four comments in response to the NPRM, from Authors Guild ("AG"); the Motion Picture Association of America, Inc. ("MPAA"); Author Services, Inc., representing the literary, theatrical, and musical works of L. Ron Hubbard ("Author Services"); and a coalition of organizations and advocates representing visual artists including photographers, videographers, illustrators, artists, and designers, as well as their licensing representatives (the "Coalition of Visual Artists"). The Coalition of Visual Artists generally supported the modifications proposed in the NPRM, but articulated some concerns relating to the Office's separate rulemaking regarding group registration of photographs.¹ Author Services, MPAA, and AG noted some objections but overall supported the proposed modifications. Having reviewed and carefully considered the comments received, the Office now issues a final rule that closely follows the proposed rule, with some alterations in response to the comments, as discussed below.²

¹ 81 FR 86643 (Dec. 1, 2016).

² The final rule also makes some technical amendments to the proposed rule. It moves the regulation on supplementary registration to part 202 of title 37, which is the part that specifically addresses copyright registration. It also corrects spelling and punctuation discrepancies that appeared in §§ 201.3(c)(9)(ii) and 201.5(d)(4)(i) and (ii) of the proposed rule.
