AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On December 14, 2016, the Department of Commerce (the Department) published in the **Federal Register** the preliminary results of the 2014-2015 administrative review of the antidumping duty order on seamless refined copper pipe and tube from the People's Republic of China (PRC). The period of review (POR) is November 1, 2014, through October 31, 2015. The review covers two mandatory respondents, the Hailiang Single Entity and the Golden Dragon (GD) Single Entity. We invited parties to comment on our preliminary results. Based on our analysis of the comments received, we made certain changes to the margin calculation for the Hailiang Single Entity. Interested parties did not comment on our margin calculation for the GD Single Entity, and we continue to find that the GD Single Entity did not sell subject merchandise in the United States at less than normal value during the POR. The final weighted-average dumping margins for this review are listed in the "Final Results of Administrative Review" section, below.
