

serious injuries and fatalities per vehicle mile traveled; and the number of serious injuries and fatalities, for the purposes of carrying out the HSIP under 23 U.S.C. 148. The HSIP is applicable to all public roads and therefore requires crash reporting by law enforcement agencies that have jurisdiction over them. In defining performance measures for serious injuries, FHWA requires national reporting by States using a uniform definition for national reporting in this performance area, as required by MAP-21. An established standard for defining serious injuries as a result of motor vehicle related crashes has been developed in the 4th edition of the Model Minimum Uniform Crash Criteria (MMUCC). MMUCC represents a voluntary and collaborative effort to generate uniform crash data that are accurate, reliable and credible for data-driven highway safety decisions within a State, between States, and at the national level. The MMUCC defines a serious injury resulting from traffic crashes as “Suspected Serious Injury (A)” whose attributes are: Any injury, other than fatal, which results in one or more of the following: Severe laceration resulting in exposure of underlying tissues, muscle, organs, or resulting in significant loss of blood; broken or distorted extremity (arm or leg); crush injuries; suspected skull, chest, or abdominal injury other than bruises or minor lacerations; significant burns (second and third degree burns over 10 percent or more of the body); unconsciousness when taken from the crash scene; or paralysis.

As part of the national requirement to report serious injuries using the MMUCC 4th Edition definition, the FHWA seeks to determine if States have adopted the MMUCC 4th edition definition, attribute and coding convention by the required April 15, 2019 date. Specifically, States will be considered compliant with the serious injury definition requirement if it: Maintains a statewide crash database capable of accurately aggregating the MMUCC 4th Edition injury status attribute for “Suspected Serious Injury (A); Ensures the State crash database, data dictionary and crash report user manual employs the verbatim terminology and definitions for the MMUCC 4th Edition injury status attribute Suspected Serious Injury (A); Ensures the police crash form employs the verbatim MMUCC 4th Edition injury status attribute for Suspected Serious Injury (A); Ensures that the seven serious injury types specified in the Suspected Serious Injury (A) attribute are not included in any of the other

attributes listed in the States’ injury status data elements are MMUCC compliant.

The purpose of the information collection is to assess each States’ ability to report serious injuries using the new Federal definition. This assessment will require consultation with the State database owner, State law enforcement agency and possibly county and municipal law enforcement agencies that don’t use the State form.

Respondents: State, the District of Columbia, Puerto Rico, tribal and local traffic records management agencies and law enforcement. (75 total).

Frequency: One time collection
Estimated Average Burden per Response: It will take approximately 30 minutes per participant.

Estimated Total Annual Burden Hours: Approximately 37 hours for a one-time collection.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT’s performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT’s estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: June 8, 2017.

Michael Howell,

Information Collection Officer.

Federal Highway Administration

[Docket No. FHWA-2014-0015]

Agency Information Collection Activities: Request for Comments for a New Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA invites public comments about our intention to request

the Office of Management and Budget’s (OMB) approval for a new information collection, which is summarized below under **SUPPLEMENTARY INFORMATION**. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by August 18, 2017.

ADDRESSES: You may submit comments identified by DOT Docket ID 2017-0015 by any of the following methods:

Web site: For access to the docket to read background documents or comments received go to the Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Fax: 1-202-493-2251.

Mail: Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590-0001.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Bruce Bradley, 202-493-0564, Department of Transportation, Federal Highway Administration, Office of Real Estate Services, 1200 New Jersey Avenue SE., Washington, DC 20590. Office hours are from 8 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: FHWA Excellence in Right-of-Way Awards and Utility Relocation and Accommodation Awards.

Background: In 1995, the Federal Highway Administration established the biennial Excellence in Right-of-Way Awards Program to recognize partners, projects, and processes that use FHWA funding sources to go beyond regulatory compliance and achieve right-of-way excellence. Excellence in Right-of-Way awardees have contributed to outstanding innovations that enhance the right-of-way professional’s ability to meet the challenges associated with acquiring real property for Federal-aid projects. Similarly, FHWA established the Excellence in Utility Relocation and Accommodation Awards Program to honor the use of innovative practices and outstanding achievements in reducing the cost or shortening the time required to accommodate or relocate utilities associated with highway improvement projects. The goal of the program is to showcase exemplary and innovative projects, programs,

initiatives, and practices that successfully integrate the consideration of utilities in the planning, design, construction, and maintenance of transportation facilities.

Award: Anyone can nominate a project, process, person or group that has used Federal Highway Administration funding sources to make an outstanding contribution to transportation and the right-of-way or utility fields. The nominator is responsible for submitting via email, fax, or mail an application form that summarizes the outstanding accomplishments of the entry. FHWA will use the collected information to evaluate, showcase, and enhance the public's knowledge on addressing right-of-way challenges on transportation projects and on relocating and accommodating utilities associated with highway improvement projects. Nominations will be reviewed by an independent panel of judges from varying backgrounds. It is anticipated that awards will be given every two years. The winners are presented plaques at an awards ceremony.

Respondents: Anyone who has used Federal Highway funding sources in the fifty states, the District of Columbia and Puerto Rico.

Frequency: The information will be collected biennially.

Estimated Average Burden per Response: 6 hours per respondent per application.

Estimated Total Annual Burden Hours: It is expected that the respondents will complete approximately 50 applications for an estimated total of 600 annual burden hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: June 13, 2017.

SUPPLEMENTARY INFORMATION:

Title: Certification of Enforcement of the Heavy Vehicle Use Tax.

OMB Control #: 2125-0541.

Background: Title 23 United States Code, Section 141(c), provides that a State's apportionment of funds under 23 U.S.C. 104(b)(1) shall be reduced in an amount up to 8 percent of the amount to be apportioned during any fiscal year beginning after September 30, 1984, if vehicles subject to the Federal heavy vehicle use tax are lawfully registered in the State without having presented proof of payment of the tax. The annual certification by the State Governor or designated official regarding the collection of the heavy vehicle use tax serves as the FHWA's primary means of determining State compliance. The FHWA has determined that an annual certification of compliance by each State is the least obtrusive means of administering the provisions of the legislative mandate. In addition, States are required to retain for 1 year a Schedule 1, IRS Form 2290, Heavy Vehicle Use Tax Return (or other suitable alternative provided by regulation). The FHWA conducts compliance reviews at least once every 3 years to determine if the annual certification is adequate to ensure effective administration of 23 U.S.C. 141(c).

The estimated annual reporting burden is 102 hours; the estimated recordkeeping burden is 510 hours for a total of 612 hours. The 50 States and the District of Columbia share this burden. Preparing and processing the annual certification is estimated to require 2 hours per State. Recordkeeping is estimated to require an average of 10 hours per State.

Respondents: 50 State Transportation Departments, and the District of Columbia for a total of 51 respondents.

Frequency: Annually.

Estimated Average Annual Burden per Response: The average burden to submit the certification and to retain required records is 12 hours per respondent.

Estimated Total Annual Burden Hours: Total estimated average annual burden is 612 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be
