Form No.: FCC Form 405.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions and state, local or tribal government.

Number of Respondents and Responses: 520 respondents and 520 responses.

Estimated Time per Response: 2.25 hours.

Frequency of Response: On occasion, and every two year reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in sections 4(i), 301, 302, 303(e), 303(f), and 303(r), of the Communications Act of 1934, as amended; 47 U.S.C. 154(i), 301, 302, 303(e), 303(f) and 303(r).

Total Annual Burden: 1,170 hours.

Total Annual Cost: \$179,400.

Privacy Act Impact Assessment: This information collection affects individuals or households. The Commission has a System of Records, FCC/OET-1 "Experimental Radio Station License Files" which cover the personally identifiable information (PII) that individual applicants may include in their submissions for experimental radio authorizations. The system of records notice (SORN) was published in the **Federal Register** on April 5, 2006, see 71 FR 17234, 17241. The SORN may be viewed at <https://www.fcc.gov/general/privacy-act-information>.

Needs and Uses: This collection will be submitted as an extension after this 60 day comment period in order to obtain the full three year clearance from the OMB.

FCC Form 405 is used by the Experimental Radio Service to apply for renewal of radio station licenses at the FCC. Section 307 of the Communications Act of 1934, as amended, limits the term of radio licenses to five years and requires that written applications be submitted for renewal. The regular license period for stations in the Experimental Radio Service is either two or five years.

The information submitted on FCC Form 405 is used by the Commission staff to evaluate the applicant/licensee's need for a license renewal. In performing this function, staff performs analysis of the renewal request as compared to the original license grant to

ascertain if any changes are requested. If so, additional analysis is performed to determine if such changes met the requirements of the rules of the Experimental Radio Service for interference free operation. If needed, the collected information is used to coordinate such operation with other Commission bureaus or other Federal Agencies. All applications are also analyzed on their merits regarding whether they meet the general requirements for an Experimental license. These requirements are set out in 47 CFR part 5.

Title: Section 1.21001, Participation in Competitive Bidding for Support; Section 1.21002, Prohibition of Certain Communications During the Competitive Bidding Process.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and Responses: 750 respondents and 750 responses.

Estimated Time per Response: 1.5 hours.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection 47 U.S.C. 154, 254 and 303(r).

Total Annual Burden: 1,125 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Information collected in each application for universal service support will be made available for public inspection, and the Commission is not requesting that respondents submit confidential information to the Commission as part of the pre-auction application process. Respondents seeking to have information collected on an application for universal service support withheld from public inspection may request confidential treatment of such information pursuant to section 0.459 of the Commission's rules, 47 CFR Section 0.459.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: The Commission will use the information collected to determine whether applicants are eligible to participate in auctions for Universal Service Fund support. On November 18, 2011, the Commission released an order comprehensively reforming and modernizing the universal service and intercarrier compensation systems to ensure that robust, affordable voice and broadband service, both fixed and mobile, are available to Americans throughout the nation. *Connect America Fund et al.*, Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 17663 (2011) (*USF/ICC Transformation Order*). In adopting the *USF/ICC Transformation Order*, the Commission created the Connect America Fund (CAF) to help make broadband available to homes, businesses, and community anchor institutions in areas that do not, or would not otherwise, have broadband. In addition, the Commission created the Connect America Mobility Fund (MF) to ensure the availability of mobile broadband networks in areas where a private-sector business case is lacking and a separate and complementary one-time Tribal Mobility Fund Phase I to accelerate mobile voice and broadband availability in Tribal areas. Finally, the Commission created the Remote Areas Fund (RAF) to ensure that Americans living in the most remote areas in the nation, where the cost of deploying traditional terrestrial broadband networks is extremely high, can obtain affordable access through alternative technology platforms, including satellite and unlicensed wireless services.

To implement these reforms and conduct competitive bidding for CAF, MF, and RAF support, the Commission adopted new rules containing information collection requirements that would be used to determine whether an applicant is generally qualified to bid

for universal service support. The Commission also adopted rules containing information collection requirements that would be used to determine whether an applicant is specifically qualified to bid for Phase I of the Mobility Fund and Tribal Mobility Fund.

Because support under Phase I of the Mobility Fund and Tribal Mobility Fund has been awarded, the Commission is revising the currently approved information collection to remove the information collections requirements that apply specifically to applicants seeking to participate in competitive bidding for Mobility Fund Phase I and Tribal Mobility Fund Phase I support and to retain only those information collections requirements that apply generally to applicants seeking to participate in competitive bidding for universal service support. The Commission also requests that the title of this information collection be changed to "Section 1.21001, Participation in Competitive Bidding for Support; Section 1.21002, Prohibition of Certain Communications During the Competitive Bidding Process" to reflect the revised information collection.

OMB Control Number: 3060-XXXX.

Title: Application to Participate in an Auction for Mobility Fund Phase II Support, FCC Form 184.

Form Number: FCC Form 184.

Type of Review: New collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and Responses: 250 respondents and 250 responses.

Estimated Time per Response: 1.5 hours.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection 47 U.S.C. 154, 254 and 303(r).

Total Annual Burden: 375 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Information collected on FCC Form 184 is made available for public inspection, and the Commission is not requesting that respondents submit confidential information on FCC Form 184. Respondents seeking to have information collected on FCC Form 184 withheld from public inspection may request confidential treatment of such information pursuant to section 0.459 of the Commission's rules, 47 CFR Section 0.459.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: The Commission will use the information collected to determine whether applicants are eligible to participate in the Mobility Fund Phase II auction. On November 18, 2011, the Commission released an order comprehensively reforming and modernizing the universal service and intercarrier compensation systems to ensure that robust, affordable voice and broadband service, both fixed and mobile, are available to Americans throughout the nation. *Connect America Fund et al., Order and Further Notice of Proposed Rulemaking*, 26 FCC Rcd 17663 (2011) (*USF/ICC Transformation Order*). In adopting the *USF/ICC Transformation Order*, the Commission created the Connect America Mobility Fund (MF) to ensure the availability of mobile broadband networks in areas where a private-sector business case is lacking a separate and complementary one-time Tribal Mobility Fund accelerate mobile voice and broadband availability in Tribal areas.

On February 23, 2017, the Commission adopted the framework for moving forward with Phase II of the Mobility Fund and Tribal Mobility Fund, which will allocate up to \$4.53 billion over the next decade to advance the deployment of 4G LTE service to areas that are so costly that the private sector has not yet deployed there and to preserve such service where it might not otherwise exist. *Connect America Fund; Universal Service Reform—Mobility Fund*, WC Docket No. 10–90 and WT Docket No. 10–208, Report and Order, FCC 17–11. To implement the reform and conduct the MF–II auction, the Commission adopted new rules for the MF–II auction which include new information collections. The Commission will utilize a reverse auction to distribute high-cost support for mobile services to areas that lack unsubsidized 4G LTE service, while completing the phase-down of legacy support going to mobile competitive eligible telecommunications carriers. The Commission will use a two-stage application process for the MF–II auction similar to that used in spectrum license auctions. Based on the Commission’s experience with auctions and consistent with the record, this two-stage collection of information balances the need to collect information essential to conduct a successful auction with administrative efficiency.

Under this information collection, the Commission will collect information that will be used to determine whether an applicant is legally qualified to participate an auction for Mobility Fund Phase II and Tribal Mobility Fund Phase II support. To aid in collecting this

information, the Commission has created FCC Form 184, which the public will use to provide the necessary information and certifications. Commission staff will review the information collected on FCC Form 184 as part of the pre-auction process, prior to the start of the auction, and determine whether each applicant satisfies the Commission’s requirements to participate in an auction for Mobility Fund Phase II and Tribal Mobility Fund Phase II support. Without the information collected on FCC Form 184, the Commission will not be able to determine if an applicant is legally qualified to participate in the auction and has complied with the various applicable regulatory and statutory auction requirements for such participation. This approach provides an appropriate screen to ensure serious participation without being unduly burdensome.

OMB Control Number: 3060–XXXX.

Title: Application to Participate in Connect America Fund Phase II Auction, FCC Form 183.

Form Number: FCC Form 183.

Type of Review: New collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and Responses: 500 respondents and 500 responses.

Estimated Time per Response: 7 hours.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection 47 U.S.C. 154, 254 and 303(r).

Total Annual Burden: 3,500 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Information collected on FCC Form 183 is made available for public inspection, and the Commission is not requesting that respondents submit confidential information on FCC Form 183. Respondents seeking to have information collected on FCC Form 183 withheld from public inspection may request confidential treatment of such information pursuant to section 0.459 of the Commission’s rules, 47 CFR Section 0.459.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: The Commission will use the information collected to determine whether applicants are eligible to participate in the Connect America Fund Phase II auction (CAF–II auction). On November 18, 2011, the Commission released the *USF/ICC*

Transformation Order and Further Notice of Proposed Rulemaking, WC Docket No. 10–90 et al., FCC 11–161, which comprehensively reformed and modernized the high-cost program within the universal service fund to focus support on networks capable of providing voice and broadband services. The Commission created the Connect America Fund (CAF) and concluded that support in price cap areas would be provided through a combination of “a new forward-looking model of the cost of constructing modern multi-purpose networks” and a competitive bidding process (the CAF–II auction). The Commission also sought comment on proposed rules governing the CAF–II auction, including options regarding basic auction design and the application process.

In the CAF–II auction, service providers will compete to receive support of up to \$1.98 billion to offer voice and broadband service in unserved high-cost areas. To implement reform and conduct the CAF–II auction, the Commission adopted new rules for the CAF–II auction which include new information collections. In the *April 2014 Connect America Order*, WC Docket No. 10–90 et al., FCC 14–54, the Commission adopted certain rules regarding participation in the CAF–II auction, the term of support, and the ETC designation process. In the *Phase II Auction Order*, WC Docket No. 10–90 et al., FCC 16–64, the Commission adopted rules to implement the CAF–II auction, including the adoption of a two-stage application process. Based on the Commission’s experience with auctions and consistent with the record, this two-stage collection of information balances the need to collect information essential to conduct a successful auction with administrative efficiency.

Under this information collection, the Commission will collect information that will be used to determine whether an applicant is legally qualified to participate in an auction for Connect America Fund Phase II support (CAF–II support). To aid in collecting this information, the Commission has created FCC Form 183, which the public will use to provide the necessary information and certifications. Commission staff will review the information collected on FCC Form 183 as part of the pre-auction process, prior to the start of the auction, and determine whether each applicant satisfies the Commission’s requirements to participate in an auction for CAF–II support. Without the information collected on FCC Form 183, the Commission will not be able to determine if an applicant is legally

qualified to participate in the auction and has complied with the various applicable regulatory and statutory auction requirements for such participation. This approach provides an appropriate screen to ensure serious participation without being unduly burdensome.
