Needs and Uses: On January 20, 2000, the Commission adopted a Report and Order (R&O) in MM Docket No. 99-25, In the Matter of Creation of Low Power Radio Service. With the adoption of this R&O, the Commission authorized the licensing of two new classes of FM radio stations, generally referred to as low power FM stations (LPFM): A LP100 class for stations operating at 50-100 watts effective radiated power (ERP) at an antenna height above average terrain (HAAT) of 30 meters; and a LP10 class for stations operating at 1-10 watts ERP and an antenna height of 30 meters HAAT. These stations will be operated on a noncommercial educational basis by entities that do not hold attributable interests in any other broadcast station or other media subject to the Commission's ownership rules. The LPFM service authorized in this Report and Order provides significant opportunities for new radio services. The LPFM service creates a class of

radio stations designed to serve very localized communities or underrepresented groups within communities.
