Marine Mammal Protection Act; Stock Assessment Reports

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of draft revised marine mammal stock assessment reports for two stocks of polar bears; request for comments.

SUMMARY: In accordance with the Marine Mammal Protection Act of 1972, as amended and its implementing regulations, we, the U.S. Fish and Wildlife Service, have developed draft revised marine mammal stock assessment reports for each of the two polar bear (*Ursus maritimus*) stocks in Alaska: The Southern Beaufort Sea polar bear stock and the Chukchi/Bering Seas polar bear stock. These two draft stock assessment reports are available for public review and comment.

DATES: We must receive comments by September 20, 2017.

ADDRESSES: To obtain the draft Stock Assessment Report for either polar bear stock, and to submit comments, see

Document Availability and Public Comment, respectively, under **SUPPLEMENTARY INFORMATION.**

FOR FURTHER INFORMATION CONTACT: Patrick Lemons, Marine Mammals Management Office, (800) 362-5148 or via email r7_mmm_comment@fws.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the Marine Mammal Protection Act (16 U.S.C. 1361 *et seq.*, MMPA) and its implementing regulations in the Code of Federal Regulations (CFR) at 50 CFR part 18, the U.S. Fish and Wildlife Service (Service) regulates the taking; import; and under certain conditions, possession; transportation; purchasing; selling; and offering for sale, purchase, or export of marine mammals. One of the MMPA's goals is to ensure that stocks of marine mammals occurring in waters under U.S. jurisdiction do not experience a level of human-caused mortality and serious injury that is likely to cause the stock to be reduced below its *optimum sustainable population level* (OSP). The OSP is defined under the MMPA as "the number of animals which will result in the maximum productivity of the population or the species, keeping in mind the carrying capacity of the habitat and the health of the ecosystem of which they form a constituent element" (16 U.S.C. 1362(9)).

To help accomplish the goal of maintaining marine mammal stocks at

their OSPs, section 117 of the MMPA requires us and the National Marine Fisheries Service (NMFS) to prepare a Stock Assessment Report (SAR) for each marine mammal stock that occurs in waters under U.S. jurisdiction. A SAR must be based on the best scientific information available; therefore, we prepare it in consultation with regional scientific review groups (SRG) established under section 117(d) of the MMPA. Each SAR must include:

1. A description of the stock and its geographic range;
2. A minimum population estimate, current and maximum net productivity rates, and current population trend;
3. An estimate of the annual human-caused mortality and serious injury by source and, for a strategic stock, other factors that may be causing a decline or impeding recovery;
4. A description of commercial fishery interactions;
5. A categorization of the status of the stock; and
6. An estimate of the *potential biological removal* (PBR) level.

The MMPA defines the PBR as "the maximum number of animals, not including natural mortalities, that may be removed from a marine mammal stock while allowing that stock to reach or maintain its OSP" (16 U.S.C. 1362(20)). The PBR is the product of the minimum population estimate of the stock (N_{min}); one-half the maximum theoretical or estimated net productivity

rate of the stock at a small population size (R_{max}); and a recovery factor (F_r) of between 0.1 and 1.0, which is intended to compensate for uncertainty and unknown estimation errors. This can be written as:

$$PBR = (N_{min})^{1/2} \text{ of the } R_{max}(F_r).$$

Section 117 of the MMPA also requires the Service and NMFS to review the SARs (a) at least annually for stocks that are specified as strategic stocks, (b) at least annually for stocks for which significant new information is available, and (c) at least once every 3 years for all other stocks. If our review of the status of a stock indicates that it has changed or may be more accurately determined, then the SAR must be revised accordingly.

A *strategic stock* is defined in the MMPA as a marine mammal stock (a) for which the level of direct human-caused mortality exceeds the PBR level; (b) which, based on the best available scientific information, is declining and

is likely to be listed as a threatened species under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*; ESA), within the foreseeable future; or (c) which is listed as a threatened or endangered species under the ESA, or is designated as depleted under the MMPA (16 U.S.C. 1362(19)).

Stock Assessment Report History for the Two Polar Bear Stocks

Both polar bears SARs were last revised in January 2010. Because the polar bear is listed as a threatened species under the ESA, both the Southern Beaufort Sea and the Chukchi/Bering Seas polar bear stocks are considered strategic. Therefore, the Service considered all available new information on these stocks in 2011, 2012, and 2013, and determined that no new information was available that indicated the status of the stocks had changed or could be more accurately determined. However, as new

information became available in 2014, the Service initiated revision of the SARs and obtained advice from the Alaska SRG. Therefore, these draft SARs incorporate the comments and suggestions provided to the Service by the Alaska SRG as appropriate.

Summary of Draft Revised Stock Assessment Reports for the Two Polar Bear Stocks in Alaska

The following table summarizes some of the information contained in the draft revised SARs for the Southern Beaufort Sea polar bear and the Chukchi/Bering Seas polar bear stocks, which includes each stock's N_{min} , R_{max} , F_r , PBR, annual estimated human-caused mortality and serious injury, and status. After consideration of any public comments we receive, we will revise and finalize these SARs, as appropriate. We will publish a notice of availability and summary of the final SARs, including responses to comments we received.

TABLE 1—SUMMARY: DRAFT REVISED STOCK ASSESSMENT REPORTS FOR THE SOUTHERN BEAUFORT SEA POLAR BEAR AND CHUKCHI/BERING SEAS POLAR BEAR STOCKS

Polar bear stock	N_{min}	R_{max}	F_r	PBR	Annual estimated human-caused mortality and serious injury, 2006–2015	Stock status
Southern Beaufort Sea	782	0.075	0.5	14	Annual estimated removals for each stock are provided in the SARs.	Strategic.
Chukchi/Bering Seas	2,000	0.0603	0.5	30		Strategic.

Document Availability

Draft Revised SARs for Southern Beaufort Sea Polar Bear and Chukchi/Bering Seas Polar Bear Stocks

You may obtain copies by any one of the following methods:

- Internet: <http://alaska.fws.gov/fisheries/mmm/polarbear/reports.htm> (for both polar bear stocks).

- Write to or call (during normal business hours from 8 a.m. to 4:30 p.m. Monday through Friday) Patrick Lemons, Chief, U.S. Fish and Wildlife Service, Marine Mammals Management Office, 1011 East Tudor Road, Anchorage, Alaska 99503; telephone: (800) 362–3800.

Public Comment

Draft Revised SARs for Southern Beaufort Sea Polar Bear and Chukchi/Bering Seas Polar Bear Stocks

You may submit a written comment by any one of the following methods:

- *Email:* r7_mmm_comment@fws.gov.
- *Mail or hand-delivery:* Chief, Marine Mammals Management Office (see address above).
- *Fax:* (907) 786–3816.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

References

In accordance with section 117(b)(1) of the MMPA, we include in this notice a list of the sources of information or published reports upon which we based the draft revised SARs. The Service consulted technical reports, conference proceedings, refereed journal publications, and scientific studies prepared or issued by federal agencies, non-governmental organizations, and individuals with expertise in the fields of marine mammal biology and ecology, population dynamics, Alaska Native subsistence use of marine mammals,

modeling, and commercial fishing technology and practices.

These agencies and organizations include: The Service, the U.S. Geological Survey, the National Oceanic and Atmospheric Administration, the National Park Service, the Arctic Institute, the North American Wildlife and Natural Resource Conference, the Marine Mammals of the Holarctic V Conference, and the Outer Continental Shelf Environmental Assessment Program. In addition, the Service consulted publications such as the *Journal of Wildlife Management*, *Conservation Biology*, *Marine Mammal Science*, *Ecological Applications*, *Biological Conservation*, *Aquatic Mammals*, *Journal of Zoology*, *Marine Mammal Science* and other refereed journal literature, technical reports, and data sources in the development of these SARs.

A complete list of citations to the scientific literature relied on for each of the two revised SARs is available from the Service by visiting the Service's Marine Mammal Management office's species information page at: <http://alaska.fws.gov/fisheries/mmm/>

reports.htm. These citations are likewise part of each draft SAR and may be reviewed with the documents (see Document Availability).

Authority: The authority for this action is the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et al.*).

Dated: April 27, 2017.

James W. Kurth,

Acting Director, U.S. Fish and Wildlife Service.

BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket ID: BOEM-2017-0016]; [OMB Control Number 1010-0081]

Agency Information Collection Activities: Operations in the Outer Continental Shelf for Minerals Other Than Oil, Gas, and Sulphur MMAA104000

ACTION: Notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Ocean Energy Management (BOEM) is notifying the public that we have submitted an information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval. The ICR pertains to the paperwork requirements in the regulations under 30 CFR part 582, Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulphur. This notice provides the public a second opportunity to comment on the paperwork burden of this collection.

DATES: Submit written comments by July 24, 2017.

ADDRESSES: Please send your comments on this ICR to the Desk Officer for the Department of the Interior at OMB-OIRA at (202) 395-5806 (fax) or OIRA_

submission@omb.eop.gov (email). Please provide a copy of your comments to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, VAM-DIR, Sterling, Virginia 20166 (mail); or anna.atkinson@boem.gov (email). Please reference ICR 1010-0081 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT:

Anna Atkinson, Office of Policy, Regulations, and Analysis at anna.atkinson@boem.gov (email) or (703) 787-1025. You may review the ICR online at <http://www.reginfo.gov>. Follow the instructions to review Department of the Interior collections under review by OMB.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010-0081.

Title: 30 CFR 582, Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulphur.

Abstract: The Outer Continental Shelf Lands Act (43 U.S.C. 1334 and 43 U.S.C. 1337(k)(1)) authorizes the Secretary of the Interior to issue regulations to grant to qualified persons who offer the highest cash bonus on a basis of competitive bidding, leases of any mineral other than oil, gas, and sulphur in any area of the Outer Continental Shelf not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the time of offering the area for lease.

Regulations at 30 CFR part 582 carry out these statutory requirements by governing mining operations within the OCS for minerals other than oil, gas, and sulphur and establishing a comprehensive regulatory program for such minerals.

There has been no competitive leasing activity in the OCS for minerals other than oil, gas, and sulphur for many years. Accordingly, BOEM has not generally collected information under

this part of its regulations. However, since these are regulatory requirements, the potential exists for information to be collected. Therefore, we are renewing OMB approval for this information collection.

We will use the information required by 30 CFR part 582 to determine if lessees are complying with the regulations for mining minerals other than oil, gas, and sulphur. BOEM will also use the information to ensure that such operations are conducted in a manner that will result in orderly resource recovery, development, and the protection of the human, marine, and coastal environments and for technical and environmental evaluations which provide a basis for BOEM to make informed decisions to approve, disapprove, or require modification of the proposed activities.

We protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and the Department's implementing regulations (43 CFR part 2), 30 CFR 582.5 and 582.6, and applicable sections of 30 CFR parts 580 and 581. No items of a sensitive nature are collected. Responses are mandatory.

Frequency: Monthly; quarterly; on occasion.

Estimated Number and Description of Respondents: As there are no active respondents, we estimated the potential annual number of respondents to be one. Potential respondents are OCS lessees.

Estimated Reporting and Recordkeeping Hour Burden: We expect the burden estimate for the renewal will be 212 hours. The following table details the individual BOEM components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

BURDEN TABLE

Citation 30 CFR 582	Reporting or recordkeeping requirement	Hour burden	Average number of annual responses	Annual burden hours
Subpart A—General				
4; 21(b)	Governors, other Federal/State agencies, lessees, interested parties, and others review and provide comments/recommendations on all plans and environmental information.	10	1	10
4(b); 12(b)(2); 21; 22; 25; 26; 28.	Submit delineation plan, including environmental information, contingency plan, monitoring program, and various requests for approval referred to throughout; submit modifications and required information.	40	1	40
