

2, and facilitating more efficient regulatory compliance by its members.²⁴

Additionally, the modernization of Rule 1049 promotes just and equitable principles of trade, removes impediments to and perfects the mechanism of a free and open market and a national market system, and protects investors and the public interest, because it is designed to alert members to requirements with respect to options communications and to bring clarity to its members and the public regarding the Exchange's options communications rule. The Exchange therefore believes that the proposed rule change will help ensure that investors are protected from potentially false or misleading communications with the public distributed by Exchange members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the amendments to Rule 1049 proposed herein will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act inasmuch as the amendments conform Rule 1049 more closely to the Common Rules regarding options communications to customers under the 17d-2 Agreement.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act²⁵ and subparagraph (f)(6) of Rule 19b-4 thereunder.²⁶

²⁴ CBOE Rule 9.21 and FINRA Rules 2360(b)(18) and 2354 are designated as Common Rules under the 17d-2 Agreement.

²⁵ 15 U.S.C. 78s(b)(3)(A)(iii).

²⁶ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

Submission for OMB Review; Comment Request

Extension:

Rule 701. SEC File No. 270-306, OMB Control No. 3235-0522.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget this request for extension of the previously approved collection of information discussed below.

Rule 701(17 CFR 230.701) under the Securities Act of 1933 ("Securities Act") (15 U.S.C. 77a *et seq.*) provides an exemption for certain issuers from the registration requirements of the Securities Act for limited offerings and sales of securities issued under compensatory benefit plans or contracts. The purpose of Rule 701 is to ensure that a basic level of information is available to employees and others when substantial amounts of securities are issued in compensatory arrangements. Information provided under Rule 701 is mandatory. We estimate that approximately 300 companies annually rely on the Rule 701 exemption and that it takes 2 hours to prepare each response. We estimate that 25% of the 2 hours per response (0.5 hours) is prepared by the company for a total annual reporting burden of 150 hours (0.5 hours per response × 300 responses).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-80965; File No. SR-MRX-2017-07]

Self-Regulatory Organizations; Nasdaq MRX, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Chapter 19

June 19, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 6, 2017, Nasdaq MRX, LLC (“MRX” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Chapter 19 to notify members of a systems issue related to allocations made pursuant to Supplementary Material .02(a)–(b) to Rule 1901.

The text of the proposed rule change is available on the Exchange’s Web site at www.ise.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend Chapter 19 to notify members of a systems issue related to allocations made pursuant to Supplementary Material .02(a)–(b) to Rule 1901 (“Flash auction”). Pursuant to Supplementary Material .02 to Rule 1901, when the automatic execution of an incoming order would result in an impermissible Trade Through,³ such order is exposed at the current national best bid or offer (“NBBO”) to all members, and members are given an opportunity to enter responses up to the size of the order being exposed. Supplementary Material .02(a)–(b) to Rule 1901 provides that interest executed in the Flash auction is allocated in price priority, and, at the same price, Priority Customer orders will be executed first in time priority and then all other interest (orders, quotes, and responses) will be allocated pro-rata based on size. Currently, however, the system is erroneously providing the Primary Market Maker (“PMM”) an enhanced allocation after Priority Customer Orders on the book, and ahead of Responses, Professional Orders, and other market maker quotes. Specifically, the PMM is being erroneously given participation rights in a Flash auction pursuant to Supplementary Material .01(b)–(c) to Rule 713, which results in the PMM receiving a potentially larger share of the order to be executed. That is, if the PMM is quoting at the best price and the conditions in Supplementary Material .01(b)–(c) to Rule 713 are satisfied, the PMM is given participation rights equal

to the greater of (i) the proportion of the total size at the best price represented by the size of its quote, or (ii) sixty percent (60%) of the contracts to be allocated if there is only one (1) other Professional Order or market maker quotation at the best price, forty percent (40%) if there are two (2) other Professional Orders and/or market maker quotes at the best price, and thirty percent (30%) if there are more than two (2) other Professional Orders and/or market maker quotes at the best price. Alternatively, orders for five (5) contracts or fewer will be executed first by the PMM, if he is present at that price.

This enhanced allocation was intended for the PMM when orders are allocated in the regular market, and not for the allocation of an order exposed pursuant to Supplementary Material .02 to Rule 1901 (*i.e.*, the Flash auction). The Exchange has notified members and the Commission of this systems issue pursuant to Regulation SCI. The purpose of the proposed rule change is to provide additional notification to members by noting in Chapter 19 of the Exchange’s rulebook the discrepancy between the allocation described in the rule and the allocation currently being given by the Exchange’s trading system. The Exchange is currently migrating its trading system to the Nasdaq INET architecture, and the allocation issue will be resolved as symbols start trading on INET in Q3 2017. In the interim, the Exchange proposes to add language to Chapter 19 to notify members that until such time as symbols are migrated to INET, Flash auction allocations pursuant to Supplementary Material .02(a)–(b) to Rule 1901 will not be provided as described in that rule. Instead, PMM quotes will be given a Flash auction allocation pursuant to Supplementary Material .01(b)–(c) to Rule 713 after Priority Customer Orders on the book, and ahead of Responses, Professional Orders, and other market maker quotes, until such time as symbols are migrated to the INET trading system. The Exchange believes that this language will reduce member confusion regarding how allocations will be processed prior to the resolution of this systems issue.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b) of the Act.⁴
