SUPPLEMENTARY INFORMATION:

I. Background

The Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA) was enacted on October 3, 2008 and amended by the Affordable Care Act and the 21st Century Cures Act (Cures Act). Generally, MHPAEA requires that the financial requirements and treatment limitations imposed on mental health and substance use disorder (MH/SUD) benefits cannot be more restrictive than the predominant financial requirements and treatment limitations that apply to substantially all medical and surgical benefits. As discussed below, MHPAEA includes several disclosure requirements for group health plans and health insurance issuers.

The Cures Act¹ was enacted on December 13, 2016. Among its requirements, the Cures Act contains provisions that are intended to improve compliance with MHPAEA by requiring the Departments to solicit feedback from the public on how to improve the process for group health plans and issuers to disclose the information required under MHPAEA and other laws.

The statutory MHPAEA provisions and implementing regulations expressly provide that a plan or issuer must disclose the criteria for medical necessity determinations with respect to MH/SUD benefits to any current or potential participant, beneficiary, or contracting provider upon request and must disclose the reason for any denial of reimbursement or payment for services with respect to MH/SUD benefits to the participant or beneficiary.

On October 27, 2016, the Departments of Labor, Health and Human Services, and the Treasury (the Departments) issued Affordable Care Act Implementation FAQs Part 34, which, among other things, solicited feedback regarding disclosures with respect to MH/SUD benefits under MHPAEA and other laws. In the FAQs, the Departments indicated that they had received questions and suggestions regarding disclosures with respect to

Nonquantitative Treatment Limitation (NQTLs) applicable to medical/surgical and MH/SUD benefits under the plan. The feedback also included requests from various stakeholders for model forms that group health plan participants, beneficiaries, covered individuals in the individual market, or persons acting on their behalf could use to request relevant disclosures. Stakeholders also requested guidance on other ways in which disclosures, or the process for requesting disclosures, could be more uniform, streamlined, or otherwise simplified.

In addition, the Departments indicated that they had received requests to explore ways to encourage uniformity among State reviews of health insurance issuers' compliance with the NQTL standards. Various stakeholders stated that model forms to report NQTL information will help facilitate uniform implementation and enforcement of MHPAEA, and relieve some complexity that MHPAEA compliance poses for issuers operating in multiple States. Furthermore, other stakeholders highlighted that the use of such model forms may also benefit consumers, as consumers will be entitled to request the analysis performed to complete the model forms.

The Cures Act requires the Departments, by June 13, 2017, to solicit feedback from the public on how the disclosure request process for documents containing information that health plans and health insurance issuers are required under Federal or State law to disclose to participants, beneficiaries, contracting providers or authorized representatives to ensure compliance with existing mental health parity and addiction equity requirements can be improved while continuing to ensure consumers' rights to access all information required by Federal or State law to be disclosed.² The Cures Act requires the Departments to make this feedback publicly available by December 13, 2017.³

The Departments recently issued Affordable Care Act Implementation FAQs Part 38, which again solicited comments on FAQs Part 34 as required

² Cures Act section 13001(c)(1).

³ Cures Act section 13001(c)(2). The Departments must also share this feedback with the National Association of Insurance Commissioners (NAIC) to the extent the feedback includes recommendations for the development of simplified information disclosure tools to provide consistent information to consumers. Such feedback may be taken into consideration by the NAIC and other appropriate entities for the voluntary development and voluntary use of common templates and other sample standardized forms to improve consumer access to plan information. See Cures Act section 13001(c)(3).
