

push production sample of 80,000 is broken out into two non-monetary incentive groups: The majority, 70,000 RNs, will receive a lanyard and pen; a small group, 10,000 RNs, will receive no incentive so that the effectiveness of the non-monetary incentive can be evaluated. No additional incentives are planned for subsequent follow-up reminders or paper questionnaire mailings.

#### Mixed-Mode

The remaining 20% of the sampled RNs will be mailed an initial invite with instructions on how to complete the questionnaire via the web, in addition to a paper questionnaire in the packet. This group of 20,000 RNs is broken out so that 10,000 receive a lanyard and pen, and a smaller group, 10,000 RNs, receive no incentive so that the effectiveness of the non-monetary incentive can be evaluated.

### Bureau of Economic Analysis

**RIN 0691-XC068**

#### Request for Comment; Notice of Development of Outdoor Recreation Satellite Account (To Define and Measure the Economic Impact of Outdoor Recreation)

**AGENCY:** Bureau of Economic Analysis, Department of Commerce.

**ACTION:** Advance notice of development of satellite account to define and measure the outdoor recreation economy; request for comments.

**SUMMARY:** The Bureau of Economic Analysis (BEA) and Federal Recreation Council (FRC) are soliciting comments from the public on the development of a new set of national statistics that would provide information on the economic activity generated by outdoor recreation in the United States as authorized by the Outdoor Recreation Jobs and Impact Act of 2016, Public Law 114-249.

**DATES:** Comments must be received no later than 30 days after publication of this notice.

**ADDRESSES:** You may submit comments via email to [OutdoorRecreation@bea.gov](mailto:OutdoorRecreation@bea.gov). Comments sent by any other method or after the comment period may not be considered. All comments are a part of the public record.

**FOR FURTHER INFORMATION CONTACT:**

Thomas Howells, Chief, Industry Analysis Division (BE-53), Bureau of Economic Analysis, Department of Commerce, 4600 Silver Hill Road, Washington, DC 20233; phone: (301) 278-9586 or via email at [thomas.howells@bea.gov](mailto:thomas.howells@bea.gov).

**SUPPLEMENTARY INFORMATION:** In September 2016, the Bureau of Economic Analysis (BEA) entered an interagency agreement with agencies of the Federal Recreation Council (FRC). The FRC is composed of the National Park Service, U.S. Forest Service, U.S.

Fish and Wildlife Service, Bureau of Land Management, Bureau of Reclamation, National Oceanic and Atmospheric Administration, and U.S. Army Corps of Engineers. The interagency agreement seeks to develop an Outdoor Recreation Satellite Account (ORSA). The seven agencies that make up the FRC are prominent stewards of federal public lands and waters for outdoor recreation, and BEA is one of the U.S. government's premier producers of official economic statistics.

The ORSA will provide a first-of-its-kind look at the outdoor recreation economy. While BEA's current gross domestic product (GDP) statistics already embed economic activity associated with outdoor recreation, the new satellite account will allow these activities to be separately identified and highlighted in a way not possible with current statistics. Ultimately, creation of the ORSA will provide detailed data that will deepen the public's understanding of the economic impact of outdoor recreation. This will inform decision making and improve governance and long-term management of public lands and waters. The first major step in this effort is to define the range of activities encompassed by the outdoor recreation economy. In evaluating potential definitions, BEA and FRC will consider public comment as well as input from subject matter experts in the field of outdoor economics. The ORSA research team will then develop two or three potential definitions ranging in scope from narrow to broad. The range of activities in each definition will determine which industries and detailed goods and services measured by BEA will be classified as in scope, out of scope, or partially in scope for the outdoor recreation economy.

Once these initial definitions have been established, the second major step will be to review the list of partially-in-scope goods and services, and identify data sources and methodologies by which the in-scope share of these "partial" items can be estimated. Finally, using the information collected in the first two steps, prototype national-level estimates of economic activity will be developed that could include measures of output, value added, compensation of employees, and employment in the outdoor recreation economy. BEA invites email comments from the general public, private industry, state and local governments, non-profit organizations, and other interested parties. In particular, we are interested in feedback regarding the following:

1. What recreation-related activities should be considered as in scope for the ORSA;

2. What types of statistics that potential users of the ORSA would like to see presented in the account in addition to output, value added, employment, and compensation;

3. What datasets could supplement BEA's core statistics in estimating shares for partially in-scope goods and services; and,

4. What datasets could be used for possible future regionalization of the account.

### Foreign-Trade Zones Board

[Order No. 2034]

#### Reorganization of Foreign-Trade Zone 229 Under Alternative Site Framework; Charleston, West Virginia

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Board adopted the alternative site framework (ASF) (15 CFR Sec. 400.2(c)) as an option for the establishment or reorganization of zones;

Whereas, the West Virginia Economic Development Authority, grantee of Foreign-Trade Zone 229, submitted an application to the Board (FTZ Docket B-23-2016, docketed on April 22, 2016 and amended on September 27, 2016 and January 18, 2017) for authority to reorganize under the ASF with a service area of the Counties of Boone, Cabell, Calhoun, Clay, Fayette, Jackson, Kanawha, Lincoln, Logan, Mason, Mingo, Putnam, Raleigh, Roane, Wayne, Wirt, Wood and Wyoming, within and adjacent to the Charleston Customs and Border Protection port of entry, and FTZ 229's existing Site 1 would be categorized as a magnet site;

Whereas, notice inviting public comment was given in the **Federal Register** (81 FR 25374, April 28, 2016) and the application, as amended, has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the

requirements of the FTZ Act and the Board's regulations are satisfied (except with regard to the request to exempt Site 1 from sunset limits);

Now, therefore, the Board hereby orders:

The application, as amended, to reorganize FTZ 229 under the ASF is approved, subject to the FTZ Act and the Board's regulations, including Section 400.13, to the Board's standard 2,000-acre activation limit for the zone, and to an ASF sunset provision for magnet sites that would terminate authority for Site 1 if not activated within five years from the month of approval.

Dated: June 14, 2017.
