¹ A COD Processing Year is a period of time in which institutions are permitted to submit Direct Loan records to the COD System that are related to a given award year. For a Direct Loan, the period of time includes loans that have a loan period covering any day in the 2017–2018 award year.

² Transmissions must be completed and accepted before the designated processing time on the deadline submission date. The designated processing time is published annually via an electronic announcement posted to the Information for Financial Aid Professionals website (www.ifap.ed.gov). If transmissions are started at the designated time, but are not completed until after the designated time, those transmissions will not meet the deadline. In addition, any transmission submitted on or just prior to the deadline date that is rejected may not be reprocessed because the deadline will have passed by the time the user gets the information notifying him or her of the rejection.

³ Applies only to students enrolled in clock-hour and nonterm credit-hour educational programs.

NOTE: The COD System must accept origination data for a student from an institution before it accepts disbursement information from the institution for that student. Institutions may submit origination and disbursement data for a student in the same transmission. However, if the origination data is rejected, the disbursement data is rejected.

SUPPLEMENTARY INFORMATION: Section 455(b) of the Higher Education Act of 1965, as amended (HEA) (20 U.S.C. 1087e(b)), provides formulas for determining the interest rates charged to borrowers for loans made under the

Direct Loan Program including: Federal Direct Subsidized Stafford Loans (Direct Subsidized Loans); Federal Direct Unsubsidized Stafford Loans (Direct Unsubsidized Loans); Federal Direct PLUS Loans (Direct PLUS Loans); and Federal Direct Consolidation Loans (Direct Consolidation Loans).

Direct Subsidized Loans, Direct Unsubsidized Loans, and Direct PLUS Loans (collectively, Direct Loans) first disbursed on or after July 1, 2013, have a fixed interest rate that is calculated based on the high yield of the 10-year Treasury notes auctioned at the final auction held before June 1 of each year, plus a statutory add-on percentage (a “margin”). While the interest rate determination for new loans will be different from year to year, each of these loans will have a fixed interest rate for

the life of the loan. In each case the calculated rate is capped at a maximum interest rate. On Wednesday, May 10, 2017, the United States Treasury Department held a 10-year Treasury

note auction that resulted in a high yield of 2.400%.

The following chart contains specific information on the calculation of the interest rates for Direct Loans first

disbursed on or after July 1, 2017, but before July 1, 2018. We will publish a separate notice containing the interest rates for Direct Loans that were made in prior years.

FIXED-RATE DIRECT SUBSIDIZED LOANS, DIRECT UNSUBSIDIZED LOANS, AND DIRECT PLUS LOANS FIRST DISBURSED ON OR AFTER 7/1/2017 BUT BEFORE 7/1/2018

Loan type	Student grade level	Cohort		Index rate 10-Year treasury note (%)	Margin (%)	Fixed rate (%)	Max. rate (%)
		First disbursed on/after	First disbursed before				
Subsidized	Undergraduates	7/1/2017	7/1/2018	2.400	2.05	4.45	8.25
Unsubsidized	Undergraduates	7/1/2017	7/1/2018	2.400	2.05	4.45	8.25
Unsubsidized	Graduate and Professional Students	7/1/2017	7/1/2018	2.400	3.60	6.00	9.50
PLUS	Parents of Dependent Undergraduates	7/1/2017	7/1/2018	2.400	4.60	7.00	10.50
PLUS	Graduate and Professional Students	7/1/2017	7/1/2018	2.400	4.60	7.00	10.50

For an application for a Direct Consolidation Loan that was received by the Department on or after July 1, 2013, the interest rate on that loan is the weighted average of the loans being consolidated, rounded to the nearest higher 1/8 of 1 percent. These Direct Consolidation Loans do not have an interest rate cap.

AGENCY: Department of Energy.

ACTION: Notice of changes to the public notification procedures for consultation under the National Historic Preservation Act for the Northern Pass Transmission Line Project.

SUMMARY: The U.S. Department of Energy (DOE) is notifying the public of changes to the public notification procedures for consultation under the National Historic Preservation Act for the Northern Pass Transmission Line Project, including implementation of the Programmatic Agreement developed for the Project.

DATES: DOE is changing the public notification procedures for consultation under the National Historic Preservation Act for the Northern Pass Transmission Line Project effective June 14, 2017.

ADDRESSES: Requests for information about the proposed project and DOE's Section 106 review should be addressed to: Brian Mills, Office of Electricity Delivery and Energy Reliability (OE-20), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585; or by email to Brian.Mills@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: For information on DOE's review of the Presidential permit application, contact Brian Mills by one of the methods listed in **ADDRESSES** above, or at 202-586-8267.

SUPPLEMENTARY INFORMATION:

Background

Executive Order (E.O.) 10485, as amended by E.O. 12038, requires that before an electric transmission facility may be constructed, operated, maintained, or connected at the U.S. international border, a Presidential permit must be issued by DOE. E.O. 10485 provides that DOE may issue a Presidential permit upon finding issuance of the permit to be consistent with the public interest and after obtaining favorable recommendations from the U.S. Departments of State and Defense. In determining whether issuance of a Presidential permit would be consistent with the public interest, DOE takes into account the potential effects of the issuance of a Presidential permit for the proposed project's international border crossing on historic properties listed in or eligible for listing in the National Register of Historic Places (NRHP) and gives the Advisory Council on Historic Preservation (ACHP) and state historic preservation offices (SHPOs) an opportunity to comment, in accordance with Section 106 of the National Historic Preservation Act (NHPA) of 1966 (54 United States Code (U.S.C.) 306108) (Section 106), as amended, and the Section 106 implementing regulations (36 CFR part 800).

On October 14, 2010, NPT applied to DOE for a Presidential permit to construct, operate, maintain, and connect a high-voltage direct current (HVDC) transmission line across the U.S.-Canada border (the proposed Project). On July 1, 2013, NPT submitted an amended Presidential permit application to DOE (see 78 FR 50405 (Aug. 19, 2013)). On August 31, 2015, NPT further amended its Presidential permit application to DOE (see 80 FR
