#### 14 CFR Part 73

[Docket No. FAA–2017–0585; Airspace Docket No. 17–ASO–13]

#### Amendment of Multiple Restricted Areas; Townsend, GA

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action updates the using agency information for restricted areas R–3007A, R–3007B, R–3007C, and R–3007D, Townsend, GA. This is an administrative change to reflect the current organization tasked with using agency responsibilities for the restricted areas. It does not affect the boundaries, designated altitudes, time of designation or activities conducted within the restricted areas.

**DATES:** *Effective date:* 0901 UTC, October 12, 2017.

#### SUPPLEMENTARY INFORMATION:

#### Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator.

Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it updates the using agency for restricted areas R–3007A, R–3007B, R–3007C, and R–3007D, Townsend, GA, to reflect the current organization responsible for the restricted areas.

#### The Rule

This rule amends title 14 Code of Federal Regulations (14 CFR) part 73 by updating the using agency name for restricted areas R–3007A, R–3007B, R–3007C, and R–3007D, Townsend, GA, by removing the words “ANG, Savannah Combat Readiness Training Center, GA” and adding the words “USMC, Marine Corps Air Station Beaufort, SC.” The name change reflects the current organization assigned using agency responsibilities for the restricted areas. This is an administrative change that does not affect the boundaries, designated altitudes, or activities conducted within the restricted areas; therefore, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

#### Regulatory Notices and Analyses

The FAA has determined that this action only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

#### Environmental Review

The FAA has determined that this action of updating the using agency information for restricted areas R–3007A, R–3007B, R–3007C, and R–3007D, Townsend, GA qualifies for categorical exclusion under the National Environmental Policy Act in accordance

with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5.d, “Modification of the technical description of special use airspace (SUA) that does not alter the dimensions, altitudes, or times of designation of the airspace (such as changes in designation of the controlling or using agency, or correction of typographical errors).” This airspace action is an administrative change to the using agency names for restricted areas R–3007A, R–3007B, R–3007C, and R–3007D to update the using agency name. It does not alter the dimensions, altitudes, time of designation, or use of the airspace. Therefore, this airspace action is not expected to result in any significant environmental impacts. In accordance with FAAO 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, this action has been reviewed for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis, and it is determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment.

**FEDERAL TRADE COMMISSION**

**16 CFR Part 305**

[3084–AB15]

**Energy Labeling Rule**

**AGENCY:** Federal Trade Commission (“FTC” or “Commission”).

**ACTION:** Final rule.

**SUMMARY:** The Commission issues amendments to the Energy Labeling Rule to eliminate certain marking requirements for plumbing products and to exempt certain ceiling fans from labeling requirements. Additionally, the amendments update the Rule to include labeling requirements for electric instantaneous water heaters. The Commission also makes non-substantive, conforming changes to the testing provisions for LED covered lamps and minor corrections to other provisions.

**DATES:** This rule is effective on December 26, 2017, except for the amendments to § 305.13, which are effective on September 17, 2018, and the amendments to § 305.16, which are effective on July 28, 2017.

**ADDRESSES:** Relevant portions of the record of this proceeding, including this document, are available at <http://www.ftc.gov>.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Commission issued the Energy Labeling Rule (“Rule”) in 1979,<sup>1</sup> pursuant to the Energy Policy and Conservation Act of 1975 (EPCA).<sup>2</sup> The Rule requires energy labeling for major home appliances and other consumer products to help consumers compare competing models. It also contains labeling requirements for refrigerators, refrigerator-freezers, freezers, dishwashers, water heaters, clothes washers, room air conditioners, furnaces, central air conditioners, heat pumps, plumbing products, lighting products, ceiling fans, and televisions.

The Rule requires manufacturers to attach yellow EnergyGuide labels to many of the covered products and prohibits retailers from removing these labels or rendering them illegible. In addition, it directs sellers, including retailers, to post label information on Web sites and in paper catalogs from which consumers can order products. EnergyGuide labels for most covered products contain three key disclosures: Estimated annual energy cost, a product’s energy consumption or energy efficiency rating as determined by DOE test procedures, and a comparability range displaying the highest and lowest energy costs or efficiency ratings for all similar models. For cost calculations, the Rule specifies national average costs for applicable energy sources (e.g., electricity, natural gas, oil) as calculated by DOE. Under the Rule, the Commission periodically updates comparability range and annual energy cost information based on manufacturer data submitted pursuant to the Rule’s reporting requirements.<sup>3</sup>

**II. Amendments to the Energy Labeling Rule**

In a September 12, 2016 Notice of Proposed Rulemaking (2016 NPRM), the Commission sought comment on several issues including portable air conditioner (portable AC or PAC) labeling, large-diameter and high-speed small-diameter (HSSD) ceiling fan labels, electric instantaneous water heater labeling, and plumbing disclosures changes. The Commission received 10 comments in response.<sup>4</sup> After reviewing responsive

<sup>2</sup> 42 U.S.C. 6294. EPCA also requires the Department of Energy (DOE) to develop test procedures that measure how much energy appliances use, and to determine the representative average cost a consumer pays for different types of energy.
