

(RD/RA) work at operable unit 2 ("OU2"). Crediting the \$73,538 Sunoco (R&M), LLC previously paid to the group of parties performing work at the Site, it will have paid \$158,791.85, its fair share of cleanup costs incurred and anticipated to be incurred in the future at the Site, plus a "premium" that accounts for, among other things, uncertainties associated with the costs of future work at the Site. The payment also factors in an orphan share based on 25% of the estimated RD/RA costs at OU2. The settlement includes a covenant not to sue pursuant to Sections 106 and 107 of CERCLA, relating to the Site, subject to limited reservations, and protection from contribution actions or claims as provided by Sections 113(f)(2) and 122(g)(5) of CERCLA. For thirty (30) days following the date of publication of this notice, EPA will receive written comments relating to the settlement. EPA will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations that indicate that the proposed settlement is inappropriate, improper, or inadequate. EPA's response to any comments received will be available for public inspection at EPA Region 5, 77 West Jackson Blvd., Chicago, IL 60604.

DATES: Comments must be submitted on or before July 28, 2017.

SUPPLEMENTARY INFORMATION: EPA executed a Consent Decree with Sixteen major parties, the owner, twenty-one *de minimis* parties, and two Federal agencies that was entered on April 22, 2014, after public comment (the Consent Decree). The Consent Decree addressed the remedial design and remedial action at OU1 of the Site as well as *de minimis*

settlement. EPA previously issued an administrative order on consent for a remedial investigation and feasibility study (RI/FS) in 2002, and amended it in 2008, to add more parties. The group is conducting the RD/RA at OU2 and continues the RI/FS at OU1. EPA brought a cost recovery action against two other parties Sunoco, Inc. and Dayton Industrial Drums, Inc. in 2016. The proposed settlement does not cover those parties.

Dated: April 21, 2017.

Needs and Uses: This filing is the application for a Cable Television Relay Service (CARS) microwave radio license. Franchised cable systems and other eligible services use the 2, 7, 12 and 18 GHz CARS bands for microwave relays pursuant to part 78 of the Commission's Rules. CARS is principally a video transmission service used for intermediate links in a distribution network. CARS stations relay signals for and supply program material to cable television systems and other eligible entities using point-to-point and point-to-multipoint transmissions. These relay stations enable cable systems and other CARS licensees to transmit television broadcast and low power television and related audio signals, AM and FM broadcast stations, and cablecasting from one point (e.g., on one side of a river or mountain) to another point (e.g., the other side of the river or mountain) or many points ("multipoint") via microwave. The filing is done for an initial license, for modification of an existing license, for transfer or assignment of an existing license, and for renewal of a license after five years from initial issuance or from renewal of a license. Filing is done in accordance with Sections 78.11 to 78.40 of the Commission's Rules. The form consists of multiple schedules and exhibits, depending on the specific action for which it is filed. Initial applications are the most complete, and renewal applications are the most brief. The data collected is used by Commission staff to determine whether grant of a license is in accordance with Commission requirements on eligibility, permissible use, efficient use of spectrum, and prevention of interference to existing stations.
