

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: This filing is the application for a Cable Television Relay Service (CARS) microwave radio license. Franchised cable systems and other eligible services use the 2, 7, 12 and 18 GHz CARS bands for microwave relays pursuant to part 78 of the Commission's Rules. CARS is principally a video transmission service used for intermediate links in a distribution network. CARS stations relay signals for and supply program material to cable television systems and other eligible entities using point-to-point and point-to-multipoint transmissions. These relay stations enable cable systems and other CARS licensees to transmit television broadcast and low power television and related audio signals, AM and FM broadcast stations, and cablecasting from one point (e.g., on one side of a river or mountain) to another point (e.g., the other side of the river or mountain) or many points ("multipoint") via microwave. The filing is done for an initial license, for modification of an existing license, for transfer or assignment of an existing license, and for renewal of a license after five years from initial issuance or from renewal of a license. Filing is done in accordance with Sections 78.11 to 78.40 of the Commission's Rules. The form consists of multiple schedules and exhibits, depending on the specific action for which it is filed. Initial applications are the most complete, and renewal applications are the most brief. The data collected is used by Commission staff to determine whether grant of a license is in accordance with Commission requirements on eligibility, permissible use, efficient use of spectrum, and prevention of interference to existing stations.

I. Program Description

The Administration on Aging, an agency of the U.S. Administration for Community Living, has been funding the Eldercare Locator (the Locator) since 1991. The Eldercare Locator links older persons and their caregivers to resources through a nationally recognized toll-free number, 1-800-677-1116 and Web site (www.eldercare.gov). The goal is to provide users with the information and resources they need that will help older persons live independently and safely in their homes and communities for as long as possible.

The Eldercare Locator call center utilizes live agents to help callers find their way through the maze of services for older adults by linking to a trustworthy network of national, State,

Tribal and community organizations and services. In 2011, an additional feature was added to assist older adults and caregivers who require more in depth support the opportunity to speak with highly trained eldercare consultants who can better triage the situation.

II. Justification for the Supplemental Funding

Over the past several years there has been a steady increase in the number of callers to the Eldercare Locator growing from 180,000 calls in 2011 to over 308,000 in 2016. The calls are becoming more complex and requiring additional time to resolve. There is a need to increase the number of staff available to handle complex issues and increase call volumes.
