DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

June 30, 2017.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by August 7, 2017 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs

potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: National Veterinary Accreditation Program Application Form.

OMB Control Number: 0579–0297.

Summary of Collection: The Animal Health Protection Act, (APHA) of 2002 is the primary Federal law governing the protection of animal health. The APHA is contained in Title X, Subtitle E, Sections 10401–18 of Public Law 107–171, May 13, 2002, the Farm Security and Rural Investment Act of 2002. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Animal and Plant Health Inspection Service (APHIS) is the agency charged with carrying out this disease prevention mission. For APHIS to conduct all its disease prevention tasks, it utilizes APHIS-certified private veterinarians to work cooperatively with Federal and State animal health authorities on the Agency's behalf. Their certification is obtained through the APHIS National Veterinary Accreditation Program (NVAP) which has an application and renewal process.

Need and Use of the Information: APHIS will use VS form 1–36A, National Veterinary Accreditation Program Application Form to collect information to certify private practitioners to work cooperatively with Federal and State animal health authorities as accredited private veterinarians on various approaches for disease prevention and proactive disease surveillance. Applicants may appeal denial, revocation, or suspension of accredited status. The written appeal is prepared in letter format and signed by the denied veterinarian. If information from accredited veterinarians was collected less frequently or not collected, APHIS would lose access to professional and demographic data for more than 100,000 cooperators, and APHIS coverage of veterinary, plant, and agricultural activities would be proportionately reduced.

Description of Respondents: Business or other for-profit.

Number of Respondents: 23,800.
Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 11,901.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Craig and Thorne Bay Ranger Districts, Tongass National Forest, Alaska; Prince of Wales Landscape Level Analysis Project Environmental Impact Statement

AGENCY: Forest Service, USDA.

ACTION: Corrected Notice of Intent to prepare an Environmental Impact Statement.

SUMMARY: The U.S. Department of Agriculture, Forest Service will prepare an Environmental Impact Statement (EIS) to propose a variety of projects for multiple resource benefits at a landscape level to implement over the course of 10 to 15 years. Both the Craig and Thorne Bay Ranger Districts encompass Prince of Wales Island (POW) and surrounding islands, which serves as the project area for the Prince of Wales Landscape Level Analysis (POW LLA) Project. Our intention is that this project will be a highly collaborative process involving the public at all stages throughout the development of this analysis. A Notice of Intent (NOI) for this project was first published in the **Federal Register** (81 FR 86320) on November 30, 2016. This Corrected NOI has been prepared to provide a more detailed description of the proposed action developed using comments from the public and stakeholders.

DATES: Comments concerning the scope of the analysis must be received by August 7, 2017. The publication date of this Corrected NOI in the **Federal Register** is the exclusive means for calculating the comment period for this scoping opportunity. If the comment period ends on a Saturday, Sunday, or Federal holiday, comments will be accepted until the end of the next Federal working day (11:59 p.m.). The POW LLA Project is an activity implementing the forest plan and is subject to 36 CFR 218, Subparts A and B. Only individuals or entities who submit timely and specific written comments about this proposed project or activity during this or another public comment period established by the Responsible Official will be eligible to file an objection. Comments submitted previously will be considered in the analysis. The Draft Environmental Impact Statement is expected in January of 2018 and the Final Environmental Impact Statement is expected in July of 2018.

ADDRESSES: Send written comments to Thorne Bay Ranger District, at P.O. Box 19001, Thorne Bay, AK 99919. Comments may also be submitted electronically at <https://cara.ecosystem-management.org/Public/CommentInput?project=50337>, or via facsimile to (907) 828-3309.

FOR FURTHER INFORMATION CONTACT: Matthew Anderson, District Ranger, Craig and Thorne Bay Ranger Districts, at 504 9th Street, Craig, AK 99921, by telephone at (907) 826-3271; or Delilah Brigham, Project Leader, at 1312 Federal Way, Thorne Bay, AK 99919, by telephone at (907) 828-3232.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose of the POW LLA Project is to improve forest ecosystem health on Craig and Thorne Bay Ranger Districts, help support community resiliency, and provide economic development through an integrated approach to meet multiple resource objectives.

There is a need to provide a sustainable level of forest products to contribute to the economic viability of Prince of Wales communities. There is also a need to help maintain the expertise and infrastructure of the timber industry to integrate timber harvest with restoration opportunities in a sustainable manner that meets multiple economic, forest, and watershed objectives.

There is a need for young-growth forests to produce future desired resource values, products, services, and forest health conditions that sustain the diversity and productivity of forested ecosystems. Timber stand establishment and timber stand improvement activities (such as planting and precommercial thinning) that enhance early seral forests are necessary to achieve this.

There is a need for restoration activities in some watersheds to reestablish self-sustaining habitats that promote viable fish, wildlife, and plant populations. This would contribute to subsistence values and the continued traditional and cultural uses by residents of Prince of Wales and surrounding islands.

There is a need to maintain existing recreation opportunities on POW and surrounding islands for residents, as well as to expand opportunities for growth in the recreation and tourism business sector. A sustainable recreation program in terms of operations and maintenance is needed in order to maintain infrastructure to an acceptable level.

There is a need to support improved telecommunications in local communities.

Proposed Action

The proposed action was developed with input from an independently-formed, broadly-based collaborative group as well as from public comments. During initial scoping and through this collaborative process, the Forest Service received suggestions for a wide array of site-specific projects and management
