ACTION: Notice of Modified Privacy Act System of Records.

SUMMARY: In accordance with the Privacy Act of 1974, the Department of Homeland Security proposes to modify and reissue a current Department of Homeland Security system of records titled, “Department of Homeland Security/Federal Emergency Management Agency-002 Quality Assurance Recording System of Records.” This system of records allows the Department of Homeland Security/Federal Emergency Management Agency to collect and maintain records on the customer service performance of its employees and contractors who interact with individuals who apply for the Agency’s individual assistance and public assistance programs.

As a result of a biennial review of this system, the Department of Homeland Security/Federal Emergency Management Agency is updating this system of records notice to update the system location, remove the use of the term vendors for clarity as it is interchangeable with contractors in this instance, and replace the use of the term National Processing Service Center (NPSC) with the new term Regional Service Center (RSC). Additionally, this notice includes non-substantive changes to simplify the formatting and text of the previously published notice. This modified system will be included in the Department of Homeland Security’s inventory of record systems.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA) proposes to modify and reissue a current DHS system of records titled, “DHS/FEMA–002 Quality Assurance Recording System of Records.”

DHS/FEMA published this system of records notice because FEMA collects, uses, maintains, and retrieves personally identifiable information (PII) from its employees and contractors for internal employee performance evaluations, training, process improvement, and quality assurance purposes to improve customer service to individual assistance and public assistance applicants. FEMA collects information from individual applicants (including PII) as necessary, or uses information previously collected from them to provide customer service to these applicants.

FEMA is updating this system of records notice to provide greater transparency to the public on its migration to the Contact Center Capability Modernization Program (C3MP), a new information technology system. FEMA is updating the system location to: 1) include the C3MP IT system, which maintains these records; 2) remove the use of the term vendors for clarity as it is interchangeable with contractors in this instance; and 3) replace the use of the term National Processing Service Center (NPSC) with the new term Regional Service Center (RSC). Additionally, FEMA is making non-substantive grammatical changes throughout this notice for the purpose of clarification.

The purpose of this system of records is to enable FEMA’s Quality Control Department, Customer Satisfaction Analysis Section, Contract Oversight Management Section, and FEMA RSC Supervisory staff to better monitor, evaluate, and assess its employees and contractors so that FEMA can improve customer service to those seeking disaster assistance. The purpose is consistent with FEMA’s mission to improve its capability to respond to all hazards and support the citizens of our Nation.

FEMA is authorized to collect information in order to properly administer the programs that are

authorized and described in this system of record notice. FEMA collects, uses, and maintains the records within this system under the authority of: 5 U.S.C. 301; 5 CFR 430.102; 5 U.S.C. 4302; 5 U.S.C. 7106(a); 6 U.S.C. 795; 29 U.S.C. 204(b); Executive Order No. 13571; FEMA Directive 3100.1; FEMA Directive 3700.1; and FEMA Directive 3700.2.

Consistent with DHS's information sharing mission, information stored in the DHS/FEMA-002 Quality Assurance Recording System of Records may be shared with other DHS components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, DHS/FEMA may share information with appropriate federal, state, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in this system of records notice.

This modified system will be included in the Department of Homeland Security's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which Federal Government agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. Additionally, and similarly, the Judicial Redress Act (JRA) provides a statutory right to covered persons to make requests for access and amendment to covered records, as defined by the JRA, along with judicial review for denials of such requests. In addition, the JRA prohibits disclosures of covered records, except as otherwise permitted by the Privacy Act.

Below is the description of the DHS/FEMA-002 Quality Assurance Recording System of Records.

E. To appropriate agencies, entities, and persons when:

1. DHS determines that information from this system of records is

reasonably necessary and otherwise compatible with the purpose of collection to assist another federal recipient agency or entity in (1) responding to a suspected or confirmed breach or (2) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach; or

2. H. To the news media and the public, with the approval of the Chief Privacy Officer in consultation with counsel, when there exists a legitimate public interest in the disclosure of the information, when disclosure is necessary to preserve confidence in the integrity of DHS, or when disclosure is necessary to demonstrate the accountability of DHS's officers, employees, or individuals covered by the system, except to the extent the Chief Privacy Officer determines that release of the specific information in the

context of a particular case would constitute a clearly unwarranted invasion of personal privacy.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

DHS/FEMA stores records in this system electronically or on paper in secure facilities in a locked drawer behind a locked door. The records may be stored on magnetic disc, tape, and digital media.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

The retention period for information maintained in C3MP depends on the use of the data. Records within C3MP that are used in an evaluation of a FEMA employee or contractor are retained for six years, pursuant to FEMA Records Schedule, Series 15-1 "National Processing Service Centers Evaluated Call Recordings," NARA Authority N1-311-08-1. Records that are not used in an evaluation of a FEMA employee or contractor are purged from the secured servers within 45 days, per FEMA Records Schedule, Series 15-2 "National Processing Service Centers Unevaluated Call Recordings," also under NARA Authority N1-311-08-1.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

DHS/FEMA safeguards records in this system according to applicable rules and policies, including all applicable DHS automated systems security and access policies. RECORDS ACCESS PROCEDURES:

Individuals seeking access to and notification of any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the Chief Privacy Officer and Headquarters or FEMA Freedom of Information Act (FOIA) Officer, whose contact information can be found at <http://www.dhs.gov/foia>

under “Contacts Information.” If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to the Chief Privacy Officer and Chief Freedom of Information Act Officer, Department of Homeland Security, Washington, DC 20528–0655. Even if neither the Privacy Act nor the Judicial Redress Act provide a right of access, certain records about you may be available under the Freedom of Information Act.

When seeking records about yourself from this system of records or any other Departmental system of records, your request must conform to the Privacy Act regulations set forth in 6 CFR part 5. You must first verify your identity, meaning that you must provide your full name, current address, and date and place of birth. You must sign your request, and your signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, you may obtain forms for this purpose from the Chief Privacy Officer and Chief Freedom of Information Act Officer, <http://www.dhs.gov/foia> or 1–866–431–0486. In addition, you should:

- Explain why you believe the Department would have information on you;
- Identify which component(s) of the Department you believe may have the information about you;
- Specify when you believe the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records;

If your request is seeking records pertaining to another living individual, you must include a statement from that individual certifying his/her agreement for you to access his/her records.

Without the above information, the component(s) may not be able to conduct an effective search, and your request may be denied due to lack of specificity or lack of compliance with applicable regulations.
