BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52, 60, and 61

[Region 4; FRL–9964–36–Region 4]

Address and Agency Name Changes for Region 4 State and Local Agencies; Technical Correction

AGENCY: Environmental Protection Agency.

ACTION: Final rule; technical amendment.

SUMMARY: The Environmental Protection Agency (EPA) is correcting the addresses and agencies names for EPA Region 4 State and local agencies in EPA regulations. The jurisdiction of EPA Region 4 includes the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee. Certain EPA air pollution control regulations require submittal of notifications, reports and other documents to the appropriate authorized State or local agency. This technical amendment updates and corrects agency names and the addresses for submitting such

information to the EPA Region 4 State and local agency offices.

DATES: This rule is effective July 17, 2017.

FOR FURTHER INFORMATION CONTACT:

Kelly Sheckler, Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960. Ms. Sheckler’s telephone number is 404–562–9992. She can also be reached via electronic mail at *Sheckler.Kelly@epa.gov*.

SUPPLEMENTARY INFORMATION:

I. Background

EPA is amending its regulations in 40 CFR parts 52, 60 and 61 to reflect changes in the addresses for the Kentucky Division for Air Quality, and the Louisville Metro Air Pollution Control District in Kentucky; the Mecklenburg County Air Quality Land Use and Environmental Services Agency, and Western North Carolina Regional Air Quality Agency in North Carolina; and, the Tennessee Department of Environment and Conservation and the Nashville Metro Public Health Department Pollution Control Division in Tennessee. EPA is

also revising the agency name for North Carolina Department of Natural Resources to the North Carolina Department of Environmental Quality. This technical amendment merely updates and corrects the addresses for the state and local agencies, and a name change for one of the state agencies.

EPA has determined that this rule falls under the “good cause” exemption in section 553(b)(3)(B) of the Administrative Procedure Act (APA) which, upon finding “good cause,” authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). Under section 553 of the APA, an agency may find good cause where such procedures are “impracticable, unnecessary, or contrary to the public interest.” Public comment is “unnecessary” and “contrary to the public interest” since the addresses for the state and local agencies have changed and immediate notice in the CFR benefits the public by updating citations.¹

¹ EPA’s finding that providing notice and an opportunity for comment before promulgation of the amendments in this final action is impracticable, unnecessary, or contrary to the public interest also applies for purposes of section

II. Statutory and Executive Order Reviews

This final rule implements technical amendments to 40 CFR parts 52, 60 and 61 to reflect a change in the address for the state and local agencies, and a name change for one of the state agencies. It does not otherwise impose or amend any requirements. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
 - does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
 - does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - is not subject to the requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
 - does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the States of Kentucky, North Carolina, and Tennessee, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act (CRA), 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement

Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 of the CRA allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA, if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary, or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated earlier, EPA has made such a good cause finding, including the reasons therefore, and established an effective date of July 17, 2017. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).
