FOR FURTHER INFORMATION CONTACT:

Douglas Godesky, Senior Grants Officer, 202-606-6967 or by email at dgodesky@cns.gov.

SUPPLEMENTARY INFORMATION: CNCS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Current Action

Title of Collection: Financial Management Survey.

OMB Control Number: 3045-0102.

Type of Review: Renewal.

Respondents/Affected Public:

Organizations that are first time grant recipients to the CNCS.

Total Estimated Number of Respondents: 20.

Total Estimated Frequency: Once.

Total Estimated Average Time per Response: Averages 1.75 hours.

Total Estimated Number of Annual Burden Hours: 35 hours.

Total Burden Cost (capital/startup): None.

Total Burden Cost (operating/maintenance): None.

Abstract

Organizations that are receiving CNCS grant funds for the first time complete

the form. It can be completed and submitted via email. The survey requests some existing organizational documents, such as an IRS Form 990 and audited financial statements. Organizations can provide those documents electronically or submit them on paper. CNCS seeks to renew the current information collection. The renewed information collection includes the correction of minor administrative and typographical errors and simplifies the submission instructions. The information collection will otherwise be used in the same manner as the existing application. CNCS also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on September 30, 2017.

Dated: July 13, 2017.

Douglas Godesky,

Senior Grants Officer, Office of Grants Management, Corporation for National and Community Service.

POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office (TECRO) in the United States—AGM-154C Joint Standoff Weapon (JSOW) Missiles

TECRO requested a possible sale of fifty-six (56) AGM-154C JSOW Air-to-Ground Missiles. This request also includes: JSOW integration, captive flight vehicles, dummy training missiles, missile containers, spare and repair parts, support and test equipment, Joint Mission Planning System updates, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The total estimated program cost is \$185.5 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's capability in current and future defensive efforts. The recipient will use the enhanced capability as a deterrent to regional threats and to strengthen homeland defense. The recipient will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Currently, market research is being conducted to determine the viability of a qualified contractor in accordance with Federal Acquisition Regulations. The purchaser typically requests offsets, but any offsets will be determined between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives outside the United States.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 16-73

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*
1. The AGM-154C Joint Standoff Weapon (JSOW) is a low observable, 1,000 lb. class, inertial navigation and global positioning satellite guided family of air-to-ground glide weapons. JSOW consists of a common airframe and avionics that provides for a modular payload assembly to attack stationary and moving massed flight-armored and armored vehicle columns, surface-to-air, soft to hard, relocatable, and fixed targets. JSOW provides combat forces with an all-weather, day/night/multiple kills per pass, launch and leave, and standoff capability.

2. The highest classification of the hardware to be exported is SECRET. The highest classification of the technical documentation to be exported is SECRET, but no radar cross section and

infrared signature data nor U.S.-only tactics or tactical doctrine will be disclosed. The highest classification of the software to be exported is SECRET; however, no software source code will be disclosed. All reprogramming of missile microprocessor memories must be accomplished by U.S. Government personnel or U.S. Government approved contractors.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification. Moreover, the benefits to be derived from this sale, as outlined in the Policy Justification, outweigh the potential damage that could result if the sensitive technology were revealed to unauthorized persons.

5. All defense articles and services listed in this transmittal are authorized for release and export to the Taipei Economic and Cultural Representative Office (TECRO) in the United States.
