Petition for Exemption

Docket No.: FAA-2015-0226.

Petitioner: Mr. Edward Silva.

Section(s) of 14 CFR Affected: §§ 61.39, 61.153 and 61.156.

Description of Relief Sought: Mr. Edward John Silva is a Captain in the U.S. Air Force flying the Boeing C-17 Globemaster III. Captain Silva holds a FAA commercial pilot certificate in the airplane category with single-engine and multiengine class ratings and an instrument rating and would like to obtain an airline transport pilot (ATP) certificate with an airplane category and multiengine class rating. After July 31, 2014, all applicants for the ATP certificate with an airplane category and multiengine class rating are required to complete the training identified in § 61.156 from an FAA-approved provider prior to completing the FAA knowledge and practical tests for this certificate. Prior to August 1, 2014, the training requirement did not exist, therefore a pilot only needed to complete the knowledge test prior to taking the practical test. The previous ATP knowledge test results were good for 24 calendar months; therefore, had Captain Silva taken the ATP knowledge test prior to August 1, 2014, he could have used those results to demonstrate eligibility for the ATP practical test for the duration of the validity period. Captain Silva stated he intended to complete the ATP knowledge test prior to August 1, 2014, but was placed on a short notice deployment and he was unable to complete it while overseas. Captain Silva seeks relief from the requirement to complete the airline transport pilot certification training program required by §§ 61.39, 61.153, and 61.156 prior to taking the practical test based on his military experience and deployment.

Title: Reporting and Recordkeeping Requirements Associated with Liquidity Coverage Ratio: Liquidity Risk Measurement, Standards, and Monitoring.

OMB Control No.: 1557-0223.

Affected Public: Business or other for-profit.

Type of Review: Regular review.

Abstract: The quantitative liquidity requirement (12 CFR part 50) is designed to promote improvements in the measurement and management of liquidity risk.

The rule applies to large and internationally active banking organizations—generally, bank holding companies, certain savings and loan holding companies, and depository institutions with \$250 billion or more in total assets or \$10 billion or more in on-balance sheet foreign exposure—and to their consolidated subsidiaries that are depository institutions with \$10 billion or more in total consolidated assets.

Section 50.22 requires that, with respect to each asset eligible for inclusion in a national bank or federal savings association's high-quality liquid assets (HQLA) amount, the national bank or federal savings association must implement policies that require eligible HQLA to be under the control of the management function in the national bank or federal savings association responsible for managing liquidity risk. The management function must evidence its control over the HQLA by segregating the HQLA from other assets, with the sole intent to use the HQLA as a source of liquidity, or demonstrating the ability to monetize the assets and making the proceeds available to the liquidity management function without conflicting with a business or risk management strategy of the national bank or federal savings association. In addition, § 50.22 requires that a national bank or federal savings association have a documented methodology that results in a consistent treatment for determining that the national bank or federal savings association's eligible HQLA meet the requirements of § 50.22.

Section 50.40 requires that a national bank or federal savings association

notify its appropriate federal banking agency on any day when its liquidity coverage ratio is calculated to be less than the minimum requirement in § 50.10. If a national bank or federal savings association's liquidity coverage ratio is below the minimum requirement in § 50.10 for three consecutive days, or if the OCC has determined that the institution is otherwise materially noncompliant, the national bank or federal savings association must promptly provide a plan for achieving compliance with the minimum liquidity requirement in § 50.10 and all other requirements of § 50.40 to the OCC.

The liquidity plan must include, as applicable: (1) An assessment of the national bank or federal savings association's liquidity position; (2) the actions the national bank or federal savings association has taken and will take to achieve full compliance, including a plan for adjusting the national bank or federal savings association's risk profile, risk management, and funding sources in order to achieve full compliance and a plan for remediating any operational or management issues that contributed to noncompliance; (3) an estimated time frame for achieving full compliance; and (4) a commitment to provide a progress report to the OCC at least weekly until full compliance is achieved.

Frequency of Response: Annual and event generated.

Affected Public: Covered national banks and federal savings associations.

Estimated Number of Respondents: 19.

Estimated Total Annual Burden: 2,361 hours.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the information collection burden;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Dated: July 13, 2017.

Karen Solomon,

*Deputy Chief Counsel, Office of the
Comptroller of the Currency.*

Current 2016 program grantees are the only eligible entities that are eligible to apply for a renewal grant. Interested eligible entities must submit a complete renewal grant application package to be considered for a grant renewal.
