DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Parts 100, 117, 147, and 165

[USCG-2015-0242]

Quarterly Listings; Safety Zones, Security Zones, Special Local Regulations, Drawbridge Operation Regulations and Regulated Navigation Areas

AGENCY: Coast Guard, DHS.

ACTION: Notice of expired temporary rules issued.

SUMMARY: This document provides notice of substantive rules issued by the Coast Guard that were made temporarily effective but expired before they could be published in the **Federal Register**. This notice lists temporary safety zones, security zones, special local regulations, drawbridge operation regulations and regulated navigation areas, all of limited duration and for which timely

publication in the **Federal Register** was not possible.

DATES: This document lists temporary Coast Guard rules that became effective, primarily between August 2014 and September 2015, and were terminated before they could be published in the **Federal Register**.

ADDRESSES: Temporary rules listed in this document may be viewed online, under their respective docket numbers, using the Federal eRulemaking Portal at <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: For questions on this notice contact Yeoman First Class David Hager, Office of Regulations and Administrative Law, telephone (202) 372-3862.

SUPPLEMENTARY INFORMATION: Coast Guard District Commanders and Captains of the Port (COTP) must be immediately responsive to the safety and security needs within their jurisdiction; therefore, District Commanders and COTPs have been delegated the authority to issue certain local regulations. *Safety zones* may be established for safety or environmental purposes. A safety zone may be stationary and described by fixed limits or it may be described as a zone around a vessel in motion. *Security zones* limit access to prevent injury or damage to vessels, ports, or waterfront facilities. *Special local regulations* are issued to enhance the safety of participants and spectators at regattas and other marine events. *Drawbridge operation regulations* authorize changes to drawbridge schedules to accommodate bridge repairs, seasonal vessel traffic, and local public events. *Regulated Navigation Areas* are water areas within a defined boundary, for which regulations for vessels navigating within the area have been established by the

regional Coast Guard District Commander.

Timely publication of these rules in the **Federal Register** may be precluded when a rule responds to an emergency, or when an event occurs without sufficient advance notice. The affected public is, however, often informed of these rules through Local Notices to Mariners, press releases, and other means. Moreover, actual notification is provided by Coast Guard patrol vessels enforcing the restrictions imposed by the rule. Because **Federal Register** publication was not possible before the end of the effective period, mariners were personally notified of the contents of these safety zones, security zones, special local regulations, regulated navigation areas or drawbridge operation regulations by Coast Guard officials on-scene prior to any enforcement action. However, the Coast Guard, by law, must publish in the **Federal Register** notice of substantive rules adopted. To meet this obligation without imposing undue expense on the public, the Coast Guard periodically publishes a list of these temporary safety zones, security zones, special local regulations, regulated navigation areas, and drawbridge operation regulations. Permanent rules are not included in this list because they are published in their entirety in the **Federal Register**. Temporary rules are also published in their entirety if sufficient time is available to do so before they are placed in effect or terminated.

The following unpublished rules were placed in effect temporarily during the period between August 2014 and September 2015 unless otherwise indicated. To view copies of these rules, visit www.regulations.gov and search by the docket number indicated in the list below.

Coast Guard

33 CFR Part 117

[Docket No. USCG-2017-0212]

RIN 1625-AA09

Drawbridge Operation Regulation; St. Louis River (Duluth-Superior Harbor), Between the Towns of Duluth, MN and Superior, WI

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is modifying the regulations that govern the drawbridges over the St. Louis River at Duluth-Superior Harbor. This waterway borders Minnesota and Wisconsin and is listed under Minnesota as St. Louis River (Duluth-Superior Harbor) and under Wisconsin as Duluth-Superior Harbor (St. Louis River) in the CFR. This rule affects both regulations. The owner of the Burlington Northern Grassy Point Railroad Bridge at mile 5.44 requested the regulation be updated to include permanent winter operating schedule. This rule also aligns river mile numbers with the United States Coast Pilot and deletes bridges from the regulations that were removed from the waterway and makes the regulation easier to read and less confusing to the mariner.

DATES: This rule is effective August 21, 2017.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, type [USCG-2017-0212]. In the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rulemaking.

NPRM Notice of proposed rulemaking
 RFA Regulatory Flexibility Act of 1980
 SNPRM Supplemental notice of proposed rulemaking
 Pub. L. Public Law
 § Section
 U.S.C. United States Code

II. Background Information and Regulatory History

On April 19, 2017, we published a notice of proposed rulemaking (NPRM) entitled, Drawbridge Operation Regulation; St. Louis River (Duluth-Superior Harbor), between the towns of Duluth, MN and Superior, WI, in the **Federal Register** (82 FR 18407). We did not receive any comments on this proposed rule.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under the authority of 33 U.S.C. 499. The current regulations for St. Louis River drawbridges (33 CFR 117.669 and 33 CFR 117.1083) includes the operating schedules for the Burlington Northern Grassy Point Railroad Bridge at mile 5.44, the Grassy Point Bridge at mile 8.0, the Arrow Head Bridge at mile 8.7, and the Duluth, Missabe & Iron Range combined Railroad and Highway Bridge, also known as the Oliver Bridge, at mile 13.91.

IV. Discussion of Comments, Changes and the Final Rule

The Coast Guard provided a 30 day comment period in the **Federal Register** and solicited comments through the Ninth Coast Guard Local Notice to Mariners for the same 30 days and we did not receive any comments.

Title 33 of the Code of Regulations part 117 lists drawbridge regulations by state. The St. Louis River is the border between Minnesota (listed under 33 CFR 117.669) and Wisconsin (listed under 33 CFR 117.1083). The St. Louis River is listed by state separately under both sections of the CFR. This rule will revise 33 CFR 117.1083 (under Wisconsin) to direct readers to 33 CFR 117.669 (under Minnesota) to simplify the rule and make it easier to reference by mariners.

The Coast Guard is modifying the operating schedule of the The Burlington Northern Grassy Point Railroad Bridge at mile 5.44 to include authorized permanent winter hours. Mariners will still be able to request bridge openings with 12-hours advance notice during times of light traffic volume on the river due to ice formation that typically prevents most vessel navigation in the channel from December 15 through March 15 each year.

The bridges listed in the regulations as the Grassy Point Bridge at mile 8.0 and the Arrow Head Bridge at mile 8.7, respectively, have been removed from the waterway and will be removed from the regulations.

The Duluth, Missabe & Iron Range combined Railroad and Highway Bridge, also known as the Oliver Bridge, at mile 13.91, will be renamed the Canadian National Combined Railroad and Highway Bridge to reflect the current owner and use. The authorization to remain in the closed position will continue as before, but the drawbridge must return to operable condition when notified by the District Commander to do so.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive Orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive Orders, and we discuss First Amendment rights of protesters.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a "significant regulatory action," under Executive Order 12866. Accordingly, it has not been reviewed by the Office of Management and Budget (OMB) and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the ability that vessels can still transit the bridge given advanced notice during the winter when ice typically prevents vessels from transiting the waterway and vessel traffic is at its lowest. This rule will also align river mile numbers with the United States Coast Pilot and delete bridges from the regulations that have been removed from the waterway and make the regulation easier to read and less confusing to the mariner.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601-612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and
