The proposed sale of these missiles will not alter the basic military balance in the region.

The prime contractor for the PAC-3 Missile is Lockheed-Martin in Dallas, Texas. The prime contractor for the GEM-T missile is Raytheon Company in Andover, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require additional contractor representatives to the UAE. It is not expected additional U.S. Government personnel will be required in country for an extended period of time. U.S. Army Aviation and Missile Life Cycle Management Command (AMCOM) currently maintains a field office in UAE in support of UAE Patriot systems.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapons systems effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that the Government of the UAE can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government.
