ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R01-OAR-2014-0611; A-1-FRL-9963-89-Region 1]

Air Plan Approval; CT; Reasonably Available Control Technology for the 2008 Ozone Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving State Implementation Plan (SIP) revisions submitted by the State of Connecticut. These SIP revisions consist of a demonstration that Connecticut meets the requirements to implement reasonably available control technology (RACT) for the two precursors of ground-level ozone, oxides of nitrogen (NO_x) and volatile organic compounds (VOCs), set forth by the Clean Air Act (CAA) with respect to the 2008 ozone standard. Additionally, we are approving three related regulations that limit air emissions of NO_x from sources within the State. This action is being taken in accordance with the Clean Air Act.

DATES: This rule is effective on August 30, 2017.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-R01-OAR-2014-0611. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be

publicly available only in hard copy form. Publicly available docket materials are available at <http://www.regulations.gov> or at the U.S. Environmental Protection Agency, EPA New England Regional Office, Office of Ecosystem Protection, Air Quality Planning Unit, 5 Post Office Square—Suite 100, Boston, MA. EPA requests that if at all possible, you contact the contact listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office’s official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m., excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: Bob McConnell, Air Quality Planning Unit, U.S. Environmental Protection Agency, EPA New England Regional Office, 5 Post Office Square, Suite 100 (mail code: OEP05-2), Boston, MA 02109-3912, telephone number (617) 918-1046, fax number (617) 918-0046, email mcconnell.robert@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

Organization of this document. The following outline is provided to aid in locating information in this preamble.

- I. Background and Purpose
- II. Final Action
- III. Incorporation by Reference
- IV. Statutory and Executive Order Reviews

I. Background and Purpose

On April 6, 2017 (82 FR 16772), EPA published a Notice of Proposed Rulemaking (NPR) for the State of Connecticut. The NPR proposed approval of a demonstration that Connecticut meets the RACT requirements for NO_x and VOCs, set forth by the Clean Air Act with respect to the 2008 ozone standard. Additionally, Connecticut also submitted to EPA and we proposed approval of portions of a revised regulation limiting NO_x emissions from municipal waste combustors (MWCs), a

regulation limiting NO_x emissions from major sources of air emissions, and a regulation limiting emissions from non-major sources of NO_x emissions. The State submitted its RACT demonstration on July 18, 2014, the revised MWC regulation on September 16, 2016, and the regulations limiting NO_x emissions from major and non-major sources on January 24, 2017. By letter dated March 31, 2017, Connecticut withdrew a number of provisions from these submittals that do not pertain to NO_x or VOC control requirements, and therefore are not germane to this action.

The specific details of Connecticut’s RACT certification for the 2008 ozone NAAQS and its three NO_x regulations, as well as the rationale for our proposed approval are explained in the NPR and will not be restated here. We received a total of six public comments in response to the NPR. One public comment was in favor of our proposal and the others either were irrelevant to our proposed action and/or lacked sufficient specificity with respect to the SIP action being proposed, failing to articulate what the commenter believed EPA should do to change or revise its proposed approval. All of the comments received are included in the docket for today’s action.

II. Final Action

EPA is approving Connecticut’s demonstration that it meets the CAA RACT requirements for NO_x and VOCs for purposes of the 2008 ozone standard, and is also approving portions of a revised regulation limiting NO_x emissions from MWCs, and regulations limiting NO_x emissions from major and minor sources of air emissions, as revisions to the Connecticut SIP. Additionally, we are approving a number of minor edits made to existing parts of Connecticut’s air pollution control regulations that were updated to make citations correctly reference the State’s newly adopted regulations. Last, we are approving a number of negative

declarations for Control Technique Guidelines categories for which Connecticut asserts no facilities exist within its borders.

III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the sections of the State of Connecticut Regulation of Department of Energy and Environmental Protection noted in this final rulemaking. The EPA has made, and will continue to make, these documents generally available through <http://www.regulations.gov>.

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by September 29, 2017. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Nitrogen dioxide, Ozone, Reporting and recordkeeping

requirements, Volatile organic compounds.

Dated: June 5, 2017.

Deborah A. Szaro,

Acting Regional Administrator, EPA New England.

Part 52 of chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart H—Connecticut

■ 2. Section 52.370 is amended by

- a. adding paragraph (c)(90)(i)(B);
- b. adding paragraph (c)(97)(i)(B); and
- c. adding paragraph (c)(116) to read as follows:

§ 52.370 Identification of plan.

* * * * *

(c) * * *

(90) * * *

(i) * * *

(B) Section 22a-174-38, subsections (a), (c), (d), (i), (j), (k), and (l) were revised as published in the Connecticut Law Journal, volume 78, no. 17, on October 25, 2016. Subsection (d) is removed from the SIP without replacement. See paragraph (116)(i)(A).

* * * * *

(97) * * *

(i) * * *

(B) Section 22a-174-22c, subsection (g)(3) is removed from the SIP without replacement effective December 22, 2016. See paragraph (116)(i)(B).

* * * * *

(116) Revisions to the State Implementation Plan submitted by the Connecticut Department of Energy and Environmental Protection on September 16, 2016, and January 24, 2017.

(i) *Incorporation by reference.* (A) Regulations of Connecticut State Agencies, Administrative Regulation of the Department of Energy and Environmental Protection, Municipal Waste Combustors, revisions to section 22a-174-38 as published in the Connecticut Law Journal, volume 78, no. 17, on October 25, 2016.

(1) Subsection (c), subdivision (8);

(2) Subsection (c), subdivisions (16), and (17);

(3) Subsection (d);

(4) Subsection (i), subdivisions (4)(E) and (J);

(5) Subsection (i), subdivision (5);

(6) Subsection (j), subdivision (4);

(7) Subsection (k), subdivision (9) with the exceptions of the phrase “particulate matter, opacity, cadmium, lead, mercury, dioxin/furan emissions, hydrogen chloride, fugitive ash and” and the sentence “The maximum demonstrated municipal waste combustor unit load and maximum demonstrated particulate matter control device temperature shall be recorded for the initial performance test for dioxin/furan emissions for each particulate matter control device.”; and subdivision (10), with the exceptions of the phrase “for particulate matter, cadmium, lead, mercury, dioxin/furan emissions, hydrogen chloride, fugitive ash and” and the sentence “The maximum demonstrated municipal waste combustor unit load and maximum demonstrated particulate matter control device temperature (for each particulate matter control device) shall be recorded for the initial performance test for dioxin/furan emissions.”

(8) Subsection (l), subdivision (3)(A)(i) with the exception of the phrase “particulate matter, opacity, cadmium, lead, mercury, dioxin/furan emissions, hydrogen chloride, fugitive ash and”; (3)(A)(ii), with the exceptions of the term “sulfur dioxide” and the phrase “carbon monoxide, municipal waste combustor unit load, particulate matter control device inlet temperature and”; (3)(A)(iv); (3)(A)(v), with the exceptions of the term “sulfur dioxide” the phrase “carbon monoxide, municipal waste combustor unit load, particulate matter control device temperature and” and the phrase “carbon mass feed rate and”; (3)(A)(vi), with the exceptions of the term “sulfur dioxide” the phrase “carbon monoxide, municipal waste combustor unit load, particulate matter control device temperature and” and the phrase “carbon mass feed rate and”; (B), with

the exception of the phrase “and (A)(iii)”; and (C).

(9) Subsection (l), subdivision (6), with the exceptions of the phrase “particulate matter, opacity, cadmium, lead, mercury, dioxin/furan emissions, hydrogen chloride” and the term “or fugitive ash”.

(10) Subsection (a).
(B) Regulation of the Department of Energy and Environmental Protection Concerning NO_x Emissions from Fuel-Burning Emission Units, effective December 22, 2016.

(1) Section 22a–174–22e, Control of nitrogen oxides emissions from fuel-burning equipment at major stationary sources of nitrogen oxides, with the exception of, within paragraph (l)(7), the phrase “or under procedures in RCSA section 22a–174–5(d).”; (2) Section 22a–174–22f, High daily NO_x emitting units at non-major sources of NO_x;

(3) Section 22a–174–18, revised subsection (j)(6);

(4), Section 22a–174–8(b)(2);

(5) Section 22a–174–22c, subsection (g)(3);

(6) Section 22a–174–38, revised subsections (b)(1) through (6).

■ 3. Section 52.375 is amended by adding paragraph (h) to read as follows:

§ 52.375 Certification of no sources.

* * * * *

(h) In its July 18, 2014 submittal to EPA pertaining to reasonably available control technology requirements for the 2008 8-hour ozone standard, the State of Connecticut certified to the satisfaction of EPA that no sources are located in the state that are covered by the following Control Technique Guidelines:

- (1) Automobile coatings;
- (2) Large petroleum dry cleaners;
- (3) Fiberglass boat manufacturing;
- (4) Equipment leaks from natural gas and gasoline processing plants;
- (5) Petroleum refineries;
- (6) Control of refinery vacuum producing systems;

(7) Wastewater separators and process unit turnarounds; and

(8) Flatwood paneling coatings.

■ 4. Section 52.377 is amended by adding paragraph (q) to read as follows:

§ 52.377 Control strategy: Ozone.

* * * * *

(q) Approval—Revisions to the Connecticut State Implementation Plan (SIP) submitted on July 18, 2014. The SIP revision satisfies the requirement to implement reasonably available control technology (RACT) for sources of volatile organic compounds (VOC) and oxides of nitrogen (NO_x) for purposes of the 2008 ozone standard. Specifically, the following sections of the Regulations of Connecticut State Agencies are approved for this purpose: For VOC RACT, 22a–174–20, Control of Organic Compound Emissions, 22a–174–30, Dispensing of Gasoline/Stage I and Stage II Vapor Recovery, and 22a–174–32, RACT for Organic Compounds; for NO_x RACT, 22a–174–22, Control of nitrogen oxide emissions, 22a–174–22e, Control of nitrogen oxide emissions from fuel burning equipment at major sources, 22a–174–22f, High daily NO_x emitting units at non-major sources of nitrogen oxides, and 22a–174–38, Municipal Waste Combustors.

■ 5. In § 52.385, Table 52.385 is amended by adding new entries for state citations for 22a–174–22e, Control of nitrogen oxides emissions from fuel-burning equipment at major stationary sources of nitrogen oxides, and for 22a–174–22f, High daily NO_x emitting units at non-major sources of NO_x, and by adding rows to the existing entries of state citations 22a–174–8, 22a–174–18, 22a–174–22c, and 22a–174–38 in numerical order to read as follows:

§ 52.385 EPA-approved Connecticut regulations.

* * * * *

BILLING CODE 6560-50-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 161220999-7682-02]

RIN 0648-BG52

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Northeast Groundfish Fishery; Fishing Year 2017; Recreational Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This action sets the recreational management measures for Gulf of Maine cod and haddock for the remainder of the 2017 fishing year. This action prohibits recreational possession of cod, reduces the haddock bag limit, and implements a new closed season for

haddock in the fall. The intended effect of this action is to reduce catch of cod and haddock in order to ensure that fishing year 2017 recreational catch limits are not exceeded.

DATES: Effective July 27, 2017.

ADDRESSES: Copies of a supplemental environmental assessment (EA) to Framework Adjustment 55 to the Northeast Multispecies Fishery Management Plan prepared by the Greater Atlantic Regional Fisheries Office and Northeast Fisheries Science Center; and the Framework 55 EA prepared by the New England Fishery Management Council for this rulemaking are available from: John K. Bullard, Regional Administrator, National Marine Fisheries Service, 55 Great Republic Drive, Gloucester, MA 01930. The Framework 55 EA and supplement are also accessible via the Internet at: <https://www.greateratlantic.fisheries.noaa.gov/regs/2016/March/16mulfw55ea.pdf> and https://www.greateratlantic.fisheries.noaa.gov/regs/2016/March/160212_rec_measures_draft_ea.pdf. These documents are also accessible via the Federal eRulemaking Portal: <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Emily Keiley, Fishery Management Specialist, phone: 978-281-9116; email: Emily.Keiley@noaa.gov.

SUPPLEMENTARY INFORMATION:

Table of Contents

1. Fishing Year 2017 Recreational Management Measures
2. Regulatory Corrections Under Regional Administrator Authority

1. Fishing Year 2017 Recreational Management Measures

Background

Statutory Authority

Under the Northeast Multispecies Fishery Management Plan (FMP), sub-annual catch limits (sub-ACL) for the recreational fishery are established for each fishing year for Gulf of Maine (GOM) cod and haddock. The regulations at 50 CFR 648.89(f)(3) authorize the Regional Administrator, in consultation with the New England Fishery Management Council (NEFMC), to modify the recreational management measures for the upcoming fishing year to ensure that the recreational fishery achieves, but does not exceed, the recreational fishery sub-ACLs. The proposed rule for this action (82 FR 24086; May 25, 2017) provides details
