## DEPARTMENT OF HOMELAND SECURITY

### U.S. Immigration and Customs Enforcement

#### Agency Information Collection Activities: Extension, Without Changes, of an Existing Information Collection; Comment Request; OMB Control No. 1653-0042

**AGENCY:** U.S. Immigration and Customs Enforcement, Department of Homeland Security.

**ACTION:** 30-Day Notice of Information collection for review; Form No. I-333, Obligor Change of Address; OMB Control No. 1653-0042.

The Department of Homeland Security, U.S. Immigration and Customs

\* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on November 25, 2008 (73 FR 71858). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.
