

Substantial progress has been made in addressing the domestic HIV epidemic since the Strategy was released in July 2010. Under Executive Order 13703, the National HIV/AIDS Strategy for the United States: Updated to 2020 (Updated Strategy) was released. PACHA shall contribute to the federal effort to improve HIV prevention and care.

The functions of the Council are solely advisory in nature.

The Council consists of not more than 25 members. Council members are selected from prominent community leaders with particular expertise in, or knowledge of, matters concerning HIV and AIDS, public health, global health, philanthropy, marketing or business, as well as other national leaders held in high esteem from other sectors of society. Council members are appointed by the Secretary or designee, in consultation with the White House. The agenda for the upcoming meeting will be posted on the *HIV.gov* Web site at <https://www.hiv.gov/federal-response/pacha/about-pacha>.

Public attendance at the meeting is limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify Caroline Talev at [Caroline.Talev@hhs.gov](mailto:Caroline.Talev@hhs.gov). Due to space constraints, pre-registration for public attendance is advisable and can be accomplished by contacting Caroline Talev at [Caroline.Talev@hhs.gov](mailto:Caroline.Talev@hhs.gov) by close of business on Wednesday, August 23, 2017. Members of the public will have the opportunity to provide comments during the meeting. Comments will be limited to two minutes per speaker. Any individual who wishes to participate in the public comment session must register with Caroline Talev at [Caroline.Talev@hhs.gov](mailto:Caroline.Talev@hhs.gov) by close of business on Wednesday, August 23, 2017; registration for public comment will not be accepted by telephone. Individuals are encouraged to provide a written statement of any public comment(s) for accurate minute taking purposes. Any members of the public who wish to have printed material distributed to PACHA members at the meeting are asked to submit, at a minimum, 1 copy of the material(s) to Caroline Talev, no later than close of business on Wednesday, August 23, 2017.

Dated: July 20, 2017.

**B. Kaye Hayes,**

*Executive Director, Presidential Advisory Council on HIV/AIDS.*

**BILLING CODE 4150-43-P**

**DEPARTMENT OF HOMELAND SECURITY**

**Agency Information Collection Activities: Proposed Collection; Comment Request; The Department of Homeland Security, Office of Emergency Communications, SAFECOM Nationwide Survey (SNS)**

**AGENCY:** National Protection and Programs Directorate, DHS.

**ACTION:** 30-Day notice and request for comments; New Collection: 1670-NEW.

**SUMMARY:** The Department of Homeland Security (DHS), National Protection and Programs Directorate (NPPD), Office of Cybersecurity and Communications (CS&C), Office of Emergency Communications, will submit the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995. DHS previously published this ICR in the **Federal Register** for 60 days. The notice published as 60-Day Request for Comment on Thursday, April 27, 2017. DHS received comments from two stakeholders indicating an appreciation for public outreach. As a next step in the administrative process, a second notice will be published in the **Federal Register**. Its purpose is to allow an additional 30 days for the public to provide comments about the notice.

**DATES:** Comments are encouraged and will be accepted until September 5, 2017. DHS and OMB conducts this process in accordance with *Controlling Paperwork Burdens on the Public* rules and regulations. 5 CFR 1320.1 (1995).

**ADDRESSES:** Interested persons are invited to submit written comments on the proposed ICR to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). Comments should be addressed to OMB Desk Officer, Department of Homeland Security and sent via electronic mail to [oir\\_a\\_submission@omb.eop.gov](mailto:oir_a_submission@omb.eop.gov) or faxed to (202) 395-5806.

**SUPPLEMENTARY INFORMATION:** Enactment of 6 U.S.C. 571 governs the Office of Emergency Communications (OEC) and establishes a Director with specific responsibilities. This includes assisting the DHS Secretary in developing and implementing a program to support and promote the ability of emergency response providers and relevant government officials to continue to communicate in the event of natural disasters, acts of terrorism, and other man-made disasters; and ensure, accelerate, and attain interoperable emergency communications nationwide.

In addition, 6 U.S.C. 573 authorizes the DHS Secretary acting through the OEC Director to conduct a baseline assessment of communications capabilities among emergency response providers and relevant government officials at all levels of government no less than once every five years. OEC is tasked with conducting a periodic nationwide assessment of emergency communications.

OEC's governing statute provides a framework for its periodic assessment. Accordingly, OEC, in coordination with its stakeholder partners, developed the *SAFECOM Nationwide Survey (SNS)*. The survey's purpose is to gather information to assess capabilities currently available, and identify gaps based on the needs of emergency response providers. This information will allow OEC and its stakeholders to understand critical capabilities more clearly, and to target resources more efficiently for communications during response situations of all scales and scope, from day-to-day to out-of-the-ordinary situations.

To gather baseline assessment information, OEC will deploy four versions of the *SAFECOM Nationwide Survey (SNS)* tailored to address emergency response entities at each level of government: Federal, State and territorial, tribal, and local. Each SNS version is built upon a foundation of core planning elements identified by OEC and its stakeholders as fundamental to achieve open and secure communications operability, interoperability, and continuity. These elements are interdependent critical success factors that must be addressed to plan for and implement public safety communications capabilities. These elements are recognized as *Governance, Standard Operating Procedures, Training and Exercises, Technology, Usage, Security and Equipment*.

The SNS questions align with each of these elements. This design enables DHS to determine jurisdictional capability levels of operability, interoperability, and continuity as they collectively pertain to the use of emergency communications. For example, Governance questions will pertain to matters related to decision-making groups, agreements, funding, and strategic planning. Standard Operating Procedure questions will focus on procedures, guidelines, and content. Training and Exercise questions will focus on their nature, scope, and frequency. Technology questions will focus on infrastructure, solutions, and information-sharing. Usage questions will address frequency of use, proficiency, and resource

capacity. Security will focus on cybersecurity in the context of emergency communications. Finally, Equipment questions focuses on the types of equipment or systems used. These SNS elements and sub-elements set forth the DHS OEC assessment framework. Collectively, will enable DHS OEC to fulfill its governing authority and identify a baseline of nationwide emergency communications capabilities.

This is a new information collection. OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

#### Analysis

*Agency:* Department of Homeland Security, National Protection and Programs Directorate, Office of Cybersecurity and Communications, Office of Emergency Communications.

*OMB Number:* 1670-NEW.

*Frequency:* Once every five years.

*Affected Public:* Federal, State, local and private sector emergency response personnel.

*Number of Respondents:* 3,002 annually.

*Estimated Time Per Respondent:* 30 minutes.

*Total Burden Hours:* 1,501 annual burden hours.

Dated: July 28, 2017.

**David Epperson,**

*Chief Information Officer.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Ocean Energy Management

[Docket No. BOEM-2017-0034]

#### Final Programmatic Environmental Impact Statement for Geological and Geophysical Activities on the Gulf of Mexico Outer Continental Shelf MMAA104000

**AGENCY:** Bureau of Ocean Energy Management, Interior.

**ACTION:** Notice of availability of a Final Programmatic Environmental Impact Statement.

**SUMMARY:** The Bureau of Ocean Energy Management (BOEM) is announcing the availability of a Final Programmatic Environmental Impact Statement (EIS) for evaluating potential environmental effects of geological and geophysical (G&G) activities in OCS waters of the GOM. The Final Programmatic EIS analyzes potential impacts of the proposed action, provides an analysis of reasonable alternatives to the proposed action, and identifies BOEM's preferred alternative. The Final Programmatic EIS considers G&G activities for BOEM's three programs, i.e., Oil and Gas, Renewable Energy, and Marine Minerals. These activities include, but are not limited to, seismic surveys (deep-penetration and high-resolution geophysical), sidescan-sonar surveys, electromagnetic surveys, and geological and geochemical sampling. The Final Programmatic EIS also evaluates mitigation measures to reduce potential impacts of G&G activities on marine resources, such as sound impacts to marine species and bottom-disturbance impacts on benthic communities and cultural resources.

The Final Programmatic EIS is available on BOEM's Web sites at <http://www.boem.gov/GOM-G-G-PEIS> and <http://www.boem.gov/nepaprocess/>. BOEM will primarily distribute digital copies of the Final Programmatic EIS on compact discs. You may request a paper copy or the location of a library with a paper copy of the Final Programmatic EIS from Mr. Greg Kozlowski by telephone at (504) 736-2512 or by email at [greg.kozlowski@boem.gov](mailto:greg.kozlowski@boem.gov).

**FOR FURTHER INFORMATION CONTACT:** Jill Lewandowski, Ph.D., Chief, Division of Environmental Assessment, Office of Environmental Programs, Bureau of Ocean Energy Management, 45600 Woodland Road, VAM-OEP, Sterling, VA 20166 or by email at [gomggeis@boem.gov](mailto:gomggeis@boem.gov).

*Authority:* This Notice of Availability is published pursuant to the regulations (40 CFR part 1503 and 43 CFR part 46)

implementing the provisions of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.* (1988)).

Dated: July 31, 2017.

**Walter D. Cruickshank,**

## DEPARTMENT OF THE INTERIOR

### Bureau of Ocean Energy Management

[Docket No. BOEM-2017-0041]

#### Final Supplemental Environmental Impact Statement for the Cape Wind Energy Project MMAA104000

**AGENCY:** Bureau of Ocean Energy Management, Interior.

**ACTION:** Notice of availability of a final supplemental environmental impact statement.

**SUMMARY:** The Bureau of Ocean Energy Management (BOEM) is announcing the availability of a Final Supplemental Environmental Impact Statement (Final SEIS) for the Cape Wind Energy Project. This supplement to the 2009 Final EIS has been prepared in response to a 2016 remand order of the U.S. Court of Appeals for the District of Columbia Circuit in *Public Employees for Environmental Responsibility v. Hopper* (see **SUPPLEMENTARY INFORMATION** for details).

#### FOR FURTHER INFORMATION CONTACT:

Michelle Morin, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, Sterling, Virginia 20166, (703) 787-1722 or [michelle.morin@boem.gov](mailto:michelle.morin@boem.gov).

**SUPPLEMENTARY INFORMATION:** On July 5, 2016, the U.S. Court of Appeals for the District of Columbia Circuit vacated the 2009 Cape Wind Energy Project Final EIS and ordered that BOEM: "supplement [the EIS] with adequate geological surveys before Cape Wind may begin construction." *Public Employees for Environmental Responsibility v. Hopper*, 827 F.3d 1077, 1084 (D.C. Cir. 2016). The Court opined that: "[w]ithout adequate geological surveys, the [BOEM] cannot 'ensure that the seafloor [will be] able to support' wind turbines." *Id.* at 1083. While the Court found that: "[BOEM] therefore had violated NEPA (National Environmental Policy Act)" the Court noted that ". . . [it] does not necessarily mean that the project must be halted or that Cape Wind must redo the regulatory approval process." *Id.* at
