Approval and Promulgation of State Plans for Designated Facilities and Pollutants: Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming; Negative Declarations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is withdrawing a direct final rule published on June 5, 2017, because one adverse comment was received during the public comment period. The withdrawn rule pertained to the EPA's receipt and approval of 20

negative declaration letters from EPA Region 8 states. These letters of negative declaration are statements by the state certifying the absence of designated facilities of a certain solid waste incinerator category or class within its jurisdiction, which obviates the statutory requirement for the state to develop a Clean Air Act (CAA) section 111(d)/129 State plan for the regulation of designated facilities of that particular category or class.

DATES: Effective August 3, 2017, the direct final rule published at 82 FR 25734, June 5, 2017 is withdrawn.

FOR FURTHER INFORMATION CONTACT: Gregory Lohrke, (303) 312–6396, lohrke.gregory@epa.gov.

SUPPLEMENTARY INFORMATION: On June 5, 2017, the EPA published a direct final rule (82 FR 25734) approving several negative declarations submitted by Region 8 states, certifying the absence of designated facilities regulated under various Emissions Guidelines found in 40 CFR part 60. The promulgation of each negative declaration was to serve in lieu of a CAA section 111(d)/129 State plan, given the declared absence of facilities that would require such a State plan. The direct final rule was published without prior proposal because the EPA anticipated no adverse comments on a noncontroversial action. The direct final rule stated that if the action received adverse comment on or before July 5, 2017, the EPA would publish a timely withdrawal in the **Federal Register**. The EPA received one adverse comment and is accordingly withdrawing the direct final rule. In a separate, subsequent final rulemaking action, the EPA will address the comment received.

Beta Cyclodextrin, Methyl Ethers; Exemption From the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes an exemption from the requirement of a tolerance for residues of beta cyclodextrin, methyl ethers (CAS Reg. No. 128446–36–6) when used as an inert ingredient (stabilizer and solvent) in pesticide formulations applied to growing crops pre-harvest limited to a maximum concentration of 40% by weight in the pesticide formulation. Lewis and Harrison, LLC, on behalf of Wacker Chemie AG submitted a petition to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA), requesting establishment of an exemption from the requirement of a tolerance. This regulation eliminates the need to establish a maximum permissible level for residues of beta cyclodextrin, methyl ethers that result from applications of pesticides consistent with the conditions in EPA regulations.

DATES: This regulation is effective August 4, 2017. Objections and requests for hearings must be received on or before October 3, 2017, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).
