### Information Collection Request

*Title:* Alternative Compliance for International and Inland Navigation Rules—33 CFR parts 81 through 89.

*OMB Control Number:* 1625–0019.

*Summary:* The information collected provides an opportunity for an owner, operator, builder, or agent of a unique vessel to present their reasons why the vessel cannot comply with existing International/Inland Navigation Rules and how alternative compliance can be achieved. If appropriate, a Certificate of Alternative Compliance is issued.

*Need:* Certain vessels cannot comply with the International Navigation Rules (see 33 U.S.C. 1601 through 1608; 28 U.S.T. 3459, and T.I.A.S. 8587) and Inland Navigation Rules (33 U.S.C. 2001 through 2073). The Coast Guard thus provides an opportunity for alternative compliance. However, it is not possible to determine whether alternative compliance is appropriate, or what kind of alternative procedures might be necessary, without this collection.

*Forms:* Not applicable.

*Respondents:* Vessel owners, operators, builders and agents.

*Frequency:* One-time application.

*Hour Burden Estimate:* The estimated burden has decreased from 230 hours to 207 hours a year due to a decrease in the estimated annual number of responses.

*Authority:* The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: August 3, 2017.

### SUPPLEMENTARY INFORMATION:

#### Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, [USCG–2016–1093], and must be received by September 11, 2017.

For more about privacy and the docket, you may review a Privacy Act notice regarding the Federal Docket Management System in the March 24, 2005, issue of the **Federal Register** (70 FR 15086).

OIRA posts its decisions on ICRs online at <http://www.reginfo.gov/public/do/PRAMain> after the comment period for each ICR. An OMB Notice of Action on each ICR will become available via a hyperlink in the OMB Control Number: 1625–0102.

### Previous Request for Comments

This request provides a 30-day comment period required by OIRA. The

Coast Guard has published the 60-day notice (82 FR 10375, February 10, 2017) required by 44 U.S.C. 3506(c)(2). That Notice elicited no comments. Accordingly, no changes have been made to the Collections.

#### Information Collection Request

*Title:* National Response Resource Inventory.

*OMB Control Number:* 1625-0102.

*Summary:* The information is needed to improve the effectiveness of deploying response equipment in the event of an oil spill. It may also be used in the development of contingency plans.

*Need:* Section 4202 of the Oil Pollution Act of 1990 (Pub. L. 101-380) requires the Coast Guard to compile and maintain a comprehensive list of spill removal equipment in a response resource inventory (RRI). This collection helps fulfill that requirement.

*Forms:* None.

*Respondents:* Oil spill removal organizations.

*Frequency:* On occasion.

*Hour Burden Estimate:* The estimated burden has decreased from 1,752 hours to 1,378 hours a year. The change in burden is due to a change in the methodology for calculating burden. In past ICRs we did not differentiate between the industry hour burden for inputting a new RRI submission or updating an existing RRI submission. In this ICR, we estimate that it takes fewer hours (*i.e.*, 50 percent fewer hours) to review/update an existing RRI submission than to input a new submission.

*Authority:* The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: August 4, 2017.

Commission has issued a limited exclusion order against certain intravascular administration sets and components thereof of Yangzhou WeiDeLi Trade Co., Ltd. The investigation is terminated.

Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its Internet server at <https://www.usitc.gov>.

The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

**SUPPLEMENTARY INFORMATION:** The Commission instituted this investigation under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337 ("section 337"), on April 12, 2017, based on a complaint filed by Curlin Medical Inc. of East Aurora, New York; ZEVEX, Inc. of Salt Lake City, Utah; and Moog Inc. of East Aurora, New York (collectively, "Complainants") (82 FR 17690, April 12, 2017). The complaint alleges a violation of section 337 by reason of infringement of certain claims of U.S. Patent Nos. 6,164,921 ("the '921 patent") and 6,371,732 ("the '732 patent"). The complainant named Yangzhou WeiDeLi Trade Co., Ltd. of Yangzhou, China ("Yangzhou" or "Respondent") as the only respondent in this investigation. The Commission's Office of Unfair Import Investigations was named as a party.

On May 23, 2017, the ALJ ordered Yangzhou to show cause why it should not be found in default. *See* Order No. 5. No response to Order No. 5 was filed. On June 13, 2017, the ALJ issued an initial determination finding Yangzhou in default under Commission Rule 210.16(a)(1) (19 CFR 210.16(a)(1)). *See* Order No. 6.

The Commission requested briefing from the parties and the public on the issues of remedy, the public interest, and bonding. The Commission received timely responsive and reply

submissions from Complainants and the Commission Investigative Attorney. The submissions agreed that the appropriate remedy is the entry of a limited exclusion order ("LEO") against Yangzhou, that the public interest factors do not weigh against granting such a remedy, and that bonding should be set at 100 percent of the entered value of the infringing products.

The Commission has determined that the appropriate form of relief in this investigation is a LEO prohibiting the unlicensed entry of intravascular administration sets and components thereof that are covered by one or more of claims 1-3 of the '732 patent and claims 1-34 of the '921 patent and that are manufactured abroad by or on behalf of, or imported by or on behalf of, Respondent Yangzhou. The Commission has further determined that the public interest factors enumerated in section 337(g)(1) (19 U.S.C. 1337(g)(1)) do not preclude the issuance of the LEO. Finally, the Commission has determined that the bond for importation during the period of Presidential review shall be in the amount of 100 percent of the entered value of the imported subject articles of Respondent Yangzhou. The Commission's order was delivered to the President and the United States Trade Representative on the day of its issuance.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in part 210 of the Commission's Rules of Practice and Procedure, 19 CFR part 210.

By order of the Commission.

Issued: August 4, 2017.
