DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP17-464-000]

Rover Pipeline LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Majorsville Compressor Station Amendment and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Amendment to the Rover Pipeline Project involving construction and operation of facilities by Rover Pipeline, LLC (Rover) in Marshall County, West Virginia. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in

Washington, DC on or before September 4, 2017.

If you sent comments on this amendment to the Commission before the opening of this docket on May 17, 2017, you will need to file those comments in Docket No. CP17-464-000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

Public Participation

For your convenience, there are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the *eComment* feature on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. This is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the *eFiling* feature on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on *eRegister*. If you are filing a comment on a particular project, please select "Comment on a Filing" as the filing type; or

(3) You can file a paper copy of your comments by mailing them to the following address. Be sure to reference the project docket number (CP17-464-000 with your submission: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Summary of the Proposed Project

Rover proposes to install a third 3,550 horsepower natural gas compressor unit at the Majorsville Compressor Station¹ and a new equipment run at the Majorsville Meter Station in Marshall County, West Virginia. The new unit

¹ The Majorsville Compressor Station was approved by the Commission on February 2, 2017 in docket no. CP15-93-000 as a component of the Rover Pipeline Project and is currently under construction.

would bring the Majorsville Compressor Station to a total of 10,650 horsepower. The proposal would increase the point capacity of the Majorsville Compressor Station and the Majorsville Meter Station from 300 million cubic feet per day (MMcf/d) to 400 MMcf/d. Rover would house the new unit (and the previously approved units) in a larger compressor building. Rover has not proposed to expand the station boundary beyond the previously approved limits. The general location of the project facilities is shown in appendix 1.²

Land Requirements for Construction

Construction of the proposed facilities would occur at Rover's previously approved and under construction Majorsville Compressor Station. Following construction, Rover would maintain about the project's facilities as part of operations associated with the Rover Pipeline Project.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us³ to discover and address concerns the public may have about proposals. This process is referred to as scoping. The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the EA. We will consider all filed comments during the preparation of the EA.

In the EA we will discuss the environmental impacts that could occur as a result of the construction and operation of the proposed project. We will also evaluate reasonable alternatives to the proposed project or portions of the project, and make recommendations on how to lessen or avoid impacts on the various resource areas.

The EA will present our independent analysis of the issues. The EA will be available in the public record through eLibrary. Depending on the comments

² The appendices referenced in this notice will not appear in the **Federal Register**. Copies of appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov using the link called eLibrary or from the Commission's Public Reference Room, 888 First Street NE., Washington, DC 20426, or call (202) 502-8371. For instructions on connecting to eLibrary, refer to the last page of this notice.

³ We, us, and our refer to the environmental staff of the Commission's Office of Energy Projects.
