**FEDERAL TRADE COMMISSION**

**Agency Information Collection Activities; Proposed Collection; Comment Request**

**AGENCY:** Federal Trade Commission (“FTC” or “Commission”).

**ACTION:** Notice.

**SUMMARY:** The FTC seeks public comments on proposed information requests sent pursuant to compulsory process to a combined ten or more of the largest cigarette manufacturers and smokeless tobacco manufacturers. The information sought would include, among other things, data on manufacturer annual sales and marketing expenditures. The current FTC clearance from the Office of Management and Budget (“OMB”) to conduct such information collection expires January 31, 2018. The Commission intends to ask OMB for renewed three-year clearance to collect this information.

**DATES:** Comments on the proposed information requests must be received on or before October 10, 2017.

CC-5610 (Annex J), Washington, DC 20580, or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Constitution Center, 400 7th Street SW., 5th Floor, Suite 5610 (Annex J), Washington, DC 20024.

**FOR FURTHER INFORMATION CONTACT:**

Requests for additional information or copies of the proposed collection of information should be addressed to Michael Ostheimer, Division of Advertising Practices, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW., Mailstop CC-10507, Washington, DC 20580. Telephone: (202) 326-2699.

**SUPPLEMENTARY INFORMATION:** For fifty years, the FTC has published periodic reports containing data on domestic cigarette sales and marketing expenditures by the major U.S. cigarette manufacturers. The Commission has published comparable reports on smokeless tobacco sales and marketing expenditures for thirty years. Originally, both reports were issued pursuant to statutory mandates. After those statutory mandates were terminated, the Commission continued to collect and publish information obtained from the cigarette and smokeless tobacco industries pursuant to Section 6(b) of the FTC Act, 15 U.S.C. 46(b). As noted above, the current PRA clearance to collect this information is valid through January 31, 2018 (OMB Control No. 3084-0134).

The Commission plans to continue sending information requests annually to the ultimate parent company of several of the largest cigarette companies and smokeless tobacco companies in the United States (“industry members”). The information requests will seek data regarding, *inter alia*: (1) The tobacco sales of industry members; (2) how much industry members spend advertising and promoting their tobacco products, and the specific amounts spent in each of a number of specified expenditure categories; (3) whether industry members are involved in the appearance of their products or brand imagery in television shows, motion pictures, on the Internet, or on social media; (4) how much industry members spend on advertising intended to reduce youth tobacco usage; (5) the events, if any, during which industry members’ tobacco brands are televised; (6) how much industry members spend on public entertainment events promoting their companies but not specific tobacco products or tobacco products generally; and (7) for the cigarette industry, the “tar”, nicotine, and carbon monoxide

yields of their cigarettes. The information will again be sought using compulsory process under Section 6(b) of the FTC Act.

Under the PRA, 44 U.S.C. 3501-3521, federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. “Collection of information” means agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3), 5 CFR 1320.3(c). As required by section 3506(c)(2)(A) of the PRA, the FTC is providing this opportunity for public comment before requesting that OMB extend the existing clearance for the proposed collection of information.

The Commission invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

*Estimated hours burden:* The FTC staff’s estimate of the hours burden is based on the time required each year to respond to the Commission’s information request. Although the FTC currently anticipates sending information requests each year to the four largest cigarette companies and the five largest smokeless tobacco companies, the burden estimate is based on up to 15 information requests being issued per year to take into account any future changes in these industries. These companies vary greatly in size, in the number of products they sell, and in the extent and variety of their advertising and promotion.

The companies have not taken issue with the staff’s burden estimates in prior requests for PRA reauthorization,<sup>1</sup> suggesting that the time most companies would require to gather, organize, format, and produce their responses would range from 30 to 80 hours per information request for the smaller companies, to as much as hundreds of hours for the very largest companies.
