

covered in the HCP. Therefore, the permit qualifies for a categorical exclusion under NEPA.

Public Comments

If you wish to comment on the permit applications, plans, and associated documents, you may submit comments by any one of the methods in

ADDRESSES.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public view, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1506.6).

Dated: August 9, 2017.

Stephen P. Henry,

Field Supervisor, Ventura Fish and Wildlife Office, Ventura, California.

BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR

Bureau of Safety and Environmental Enforcement

[Docket ID BSEE-2017-0002; 17XE1700DX EEEE500000 EX1SF0000.DAQ000; OMB Control Number 1014-0022]

Agency Information Collection

Activities: Oil and Gas and Sulfur Operations in the OCS—General

ACTION: Notice; request for comments.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Safety and Environmental Enforcement (BSEE) is notifying the public that we have submitted to OMB an information collection request (ICR) to renew approval of the paperwork requirements in BSEE's regulations concerning, *Oil and Gas and Sulfur Operations in the OCS—General*. This notice also provides the public a second opportunity to comment on the revised paperwork burden of these regulatory requirements.

DATES: You must submit comments by September 14, 2017.

ADDRESSES: Submit comments by either fax (202) 395-5806 or email (OIRA_Submission@omb.eop.gov) directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (1014-0022). Please provide a copy of your comments to BSEE by any of the means below.

- Electronically go to <http://www.regulations.gov>. In the Search box, enter BSEE-2017-0002 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- Email kye.mason@bsee.gov, fax (703) 787-1546, or mail or hand-carry comments to the Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; ATTN: Nicole Mason; 45600 Woodland Road, Sterling, VA 20166. Please reference ICR 1014-0022 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT:

Nicole Mason, Regulations and Standards Branch, (703) 787-1607, to request additional information about this ICR. To see a copy of the entire ICR submitted to OMB, go to <http://www.reginfo.gov> (select Information Collection Review, Currently Under Review).

SUPPLEMENTARY INFORMATION:

Title: 30 CFR part 250, subpart A, *Oil and Gas and Sulfur Operations in the OCS—General*.

Form(s): BSEE-0132, BSEE-0143, BSEE-1832.

OMB Control Number: 1014-0022.

Abstract: The Outer Continental Shelf (OCS) Lands Act at 43 U.S.C. 1334 authorizes the Secretary of the Interior to prescribe rules and regulations necessary for the administration of the leasing provisions of that Act related to mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease, right-of-way, or a right-of-use and easement. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

In addition to the general rulemaking authority of the OCSLA at 43 U.S.C.

1334, section 301(a) of the Federal Oil and Gas Royalty Management Act (FOGRMA), 30 U.S.C. 1751(a), grants authority to the Secretary to prescribe such rules and regulations as are reasonably necessary to carry out FOGRMA's provisions. While the majority of FOGRMA is directed to royalty collection and enforcement, some provisions apply to offshore operations. For example, section 108 of FOGRMA, 30 U.S.C. 1718, grants the Secretary broad authority to inspect lease sites for the purpose of determining whether there is compliance with the mineral leasing laws. Section 109(c)(2) and (d)(1), 30 U.S.C. 1719(c)(2) and (d)(1), impose substantial civil penalties for failure to permit lawful inspections and for knowing or willful preparation or submission of false, inaccurate, or misleading reports, records, or other information. Because the Secretary has delegated some of the authority under FOGRMA to BSEE, 30 U.S.C. 1751 is included as additional authority for these requirements.

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and OMB Circular A-25, authorize Federal agencies to recover the full cost of services that confer special benefits. Under the Department of the Interior's implementing policy, BSEE is required to charge fees for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those which accrue to the public at large. A request for approval required in 30 CFR 250.171 is subject to cost recovery, and BSEE regulations specify service fees for these requests in 30 CFR 250.125.

The Federal Water Pollution Control Act (33 U.S.C. 1331(j)(1)(C)) authorizes the President to adopt regulations that establish procedures, methods and equipment requirements to prevent oil spills and other hazardous substance discharges from offshore and other facilities. The regulatory authority for offshore facilities has been delegated to the Secretary and further delegated by the Secretary to BSEE. The regulations at 30 CFR part 250, subpart A, require compliance with all applicable BSEE regulations, including those intended to prevent or reduce discharges of oil and other hazardous substances. These authorities and responsibilities are among those delegated to BSEE. The regulations at 30 CFR part 250, subpart A, concern the general regulatory requirements of oil, gas, and sulfur operations in the OCS (including the associated forms), and are the subject of

this collection. This request also covers any related Notices to Lessees and Operators (NTLs) that BSEE issues to clarify, supplement, or provide additional guidance on some aspects of our regulations.

The BSEE uses the information collected under the Subpart A regulations to ensure that operations on the OCS are carried out in a safe and pollution-free manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources. Specifically, we use the information collected to:

- Review records of formal crane operator and rigger training, crane operator qualifications, crane inspections, testing, and maintenance to ensure that lessees/operators perform operations in a safe and workmanlike manner and that equipment is maintained in a safe condition. The BSEE also uses the information to make certain that all new and existing cranes installed on OCS fixed platforms must be equipped with anti-two block safety devices, and to assure that uniform methods are employed by lessees for load testing of cranes.
- Review welding plans, procedures, and records to ensure that welding is conducted in a safe and workmanlike manner by trained and experienced personnel.
- Provide lessees/operators greater flexibility to comply with regulatory requirements through approval of alternative equipment or procedures and departures to regulations if they demonstrate equal or better compliance with the appropriate performance standards.
- Ensure that injection of gas promotes conservation of natural resources and prevents waste.
- Record the agent and local agent empowered to receive notices and comply with regulatory orders issued.
- Provide for orderly development of leases through the use of information to determine the appropriateness of lessee/operator requests for suspension of operations, including production.
- Improve safety and environmental protection on the OCS through

collection and analysis of accident reports to ascertain the cause of the accidents and to determine ways to prevent recurrences.

- Ascertain when the lease ceases production or when the last well ceases production in order to determine the 180th day after the date of completion of the last production. The BSEE will use this information to efficiently maintain the lessee/operator lease status.
- Allow lessees/operators who exhibit unacceptable performance an incremental approach to improving their overall performance prior to a final decision to disqualify a lessee/operator or to pursue debarment proceedings through the execution of a performance improvement plan (PIP). The Subpart A regulations do not address the actual process that we will follow in pursuing the disqualification of operators under §§ 250.135 and 250.136; however, our internal enforcement procedures include allowing such operators to demonstrate a commitment to acceptable performance by the submission of a PIP.

The forms associated with this information collection request are as follows:

The BSEE Environmental Compliance Division has decided to discontinue use of BSEE Form-0011, *Internet Based Safety and Environmental Enforcement Reporting System (Isee)*, due to an evolving program and changes in management. The information submitted under § 250.193 instructs the public on what information and where to submit possible violations making the form obsolete.

Form BSEE-1832, *Incident(s) of Noncompliance (INCs)*, is used to determine that respondents have corrected all incident(s) of noncompliance identified during inspections. Everything on the INC form is filled out by a BSEE inspector/representative. Industry is only required to sign this form upon receipt and respond to BSEE when each INC has been corrected, no later than 14 days from the date of issuance.

Form BSEE-0132, *Hurricane and Tropical Storm Evacuation and Production Curtailment Statistics*, is used in the Gulf of Mexico OCS Region (GOMR) to obtain general information, such as company name, contact, date, time, telephone number; as well as number of platforms and drilling rigs evacuated and not evacuated, and production shut-in statistics for oil (BOPD) and gas (MMSCFD).

Form BSEE-0143, *Facility/Equipment Damage Report*, is used to assess initial damage to a structure or equipment and then be aware of changes until the damaged structure or equipment is returned to service, as well as to assess the production rate at time of shut-in (BPD and/or MMCFPD), cumulative production shut-in (BPD and/or MMCFPD), and estimated time to return to service (in days).

Most responses are mandatory, while others are required to obtain or retain benefits, or are voluntary. No questions of a sensitive nature are asked. The BSEE protects information considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and DOI's implementing regulations (43 CFR part 2), and under regulations at 30 CFR 250.197, *Data and information to be made available to the public or for limited inspection*, and 30 CFR part 252, *OCS Oil and Gas Information Program*.

Frequency: On occasion, daily, weekly, monthly, and varies by section.

Description of Respondents: Potential respondents comprise Federal OCS oil, gas, or sulfur lessees and/or operators and holders of pipeline rights-of-way.

Estimated Reporting and Recordkeeping Hour Burden: The estimated annual hour burden for this information collection is a total of 99,866 hours and \$222,915 non-hour costs. The following chart details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

BURDEN BREAKDOWN

| Citation 30 CFR 250 Subpart A; related forms/ NTLs | Reporting or recordkeeping requirement* | Non-Hour cost burdens | | |
|--|--|--------------------------------------|------------------------------------|-------------------------------|
| | | Hour burden | Average number of annual responses | Annual burden hours (rounded) |
| 104; Form BSEE-1832 | Appeal orders or decisions; appeal INCs | Exempt under 5 CFR 1320.4(a)(2), (c) | | 0 |
| 107(c) | Request waiver by demonstrating the use for BAST would not be practicable. | 8 | 2 justifications | 16 |

BURDEN BREAKDOWN—Continued

| Citation 30 CFR 250 Subpart A; related forms/ NTLs | Reporting or recordkeeping requirement* | Non-Hour cost burdens | | |
|--|--|--|------------------------------------|-------------------------------|
| | | Hour burden | Average number of annual responses | Annual burden hours (rounded) |
| 108(e) | Retain records of design and construction for life of crane, including installation records for any anti-two block safety devices; all inspection, testing, and maintenance for at least 4 years; crane operator and all rigger personnel qualifications for at least 4 years; all records must be kept at the OCS fixed platform. | 7 | 2,011 record-keepers | 14,077 |
| 109(a); 110 | Submit welding, burning, and hot tapping plans | 9 | 51 plans | 459 |
| 109(b); 113(c) | Retain welding plan & approval letter, and drawings of safe-welding areas at site; designated person advises in writing that it is safe to weld. | 3 | 948 operations | 2,844 |
| 118; 121; 124 | Apply for injection of gas; use BSEE-approved formula to determine original gas from injected. | 10 | 6 applications | 60 |
| 125; 126 | Cost Recovery Fees, confirmation receipt, etc.; verbal approvals pertaining to fees. | Cost Recovery Fees and related items are covered individually throughout Subpart A | | 0 |
| 130–133 (Form BSEE–1832). | Submit “green” response copy of Form BSEE–1832, INC(s), indicating date violations corrected; or submit same info via electronic reporting. | 3 | 2,802 forms | 8,406 |
| 130–133 | Request reconsideration from issuance of an INC | 7 | 274 requests | 1,918 |
| | Request waiver of 14-day response time | 1 | 1,572 waivers | 1,572 |
| | Notify BSEE before returning to operations if shut-in | 1 | 1,356 notices | 1,356 |
| 132(b)(3) | During inspections, make records available as requested by inspectors. | 4 | 4,554 requests | 18,216 |
| 133, NTL | Request reimbursement within 90 days of inspection for food, quarters, and transportation, provided to BSEE representatives. Submit supporting verifications of the meals, such as a meal log w/inspectors signature. | 2 | 2 requests | 4 |
| 135 | Submit PIP under BSEE implementing procedures for enforcement actions. | 40 | 4 plans | 160 |
| 140 | Request various oral approvals not specifically covered elsewhere in regulatory requirements. | 2 | 346 requests | 692 |
| 140(c) | Submit letter when stopping approved flaring with required information. | Burden covered under 30 CFR Part 250, Subpart K (1014–0019) | | 0 |
| 141; 198 | Request approval to use new or alternative procedures, along with supporting documentation if applicable, including BAST not specifically covered elsewhere in regulatory requirements. | 22 | 1,430 requests | 31,460 |
| 142; 198 | Request approval of departure from operating requirements not specifically covered elsewhere in regulatory requirements, along with supporting documentation if applicable. | 4 | 405 requests | 1,620 |
| 145 | Submit designation of agent and local agent for Regional Supervisor’s and/or Regional Director’s approval. | 1 | 9 submittals | 9 |
| 150; 151; 152; 154(a) | Name and identify facilities, artificial islands, MODUs, helo landing facilities etc., with signs. | 4 | 597 new/replacement signs. | 2,388 |
| 150; 154(b) | Name and identify wells with signs | 2 | 286 new wells | 572 |

BURDEN BREAKDOWN—Continued

| | | | \$222,915 Non-Hour Cost Burden. | |

* In the future, BSEE may require electronic filing of some submissions.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified one non-hour cost burden. Requests for a Suspension of Operation or a Suspension of Production (§ 250.171) require a cost recovery fee of \$2,123. We have not identified any other non-hour cost burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .” Agencies must specifically solicit comments to:

(a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

To comply with the public consultation process, on March 15, 2017, we published a **Federal Register** notice (82 FR 13846) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 250.199 provides the OMB Control Number for the information collection requirements imposed by the 30 CFR 250, Subpart A regulations and forms. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. Between the last collection submitted and this

collection, we received eight comments from private citizens. None of the comments received were germane to this collection of information.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BSEE Information Collection Clearance Officer: Nicole Mason, (703) 787–1607.
