## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket Nos. CP17–26–000; CP15–499–000; CP15–499–001]

#### Pomelo Connector, LLC, Texas Eastern Transmission, LP; Notice of Schedule for Environmental Review of the Pomelo Connector Pipeline and South Texas Expansion Projects

On May 22, 2015 and December 30, 2016 Texas Eastern Transmission, LP (Texas Eastern) filed an application and supplements/amendments in Docket No. CP15–499–000/CP15–499–001 and Pomelo Connector, LLC (Pomelo) filed an application on December 22, 2016 in Docket No. CP17–26–000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to abandon, construct, modify, and operate gas pipeline facilities in Texas. Pomelo's project known as the Pomelo Connector Pipeline Project (Pomelo Connector Pipeline) would provide up to 400,000 dekatherms per day (Dth/d) of firm transportation service from an interconnection with Texas Eastern at the proposed Pomelo Petronila Compressor Station in Nueces County, Texas, to the Nueces Header pipeline system. Texas Eastern's project, known as the South Texas Expansion Project (STEP), would provide approximately 396,000 Dth/d of firm natural gas transportation service to an interconnection with the Nueces Header. Collectively, the STEP and Pomelo Connector Pipeline projects are referred to as the Projects.

On June 5, 2015, and January 4, 2017 the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Applications for the Projects. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Projects. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Projects.

#### Schedule for Environmental Review

Issuance of EA—September 18, 2017  
90-day Federal Authorization Decision  
Deadline—December 17, 2017

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies

are kept informed of the Project's progress.

#### Project Description

Pomelo Connector Pipeline consists of construction and operation of approximately 14 miles of 30-inch-diameter pipeline, a new 5,000 horsepower (hp) compressor station, approximately 0.2 mile of new 30-inch-diameter pipeline, and associated aboveground facilities in Nueces County, Texas. Pomelo would engage in certain construction, operation, maintenance, and abandonment activities under blanket construction certificate authorization, and abandon all of the capacity of the Pomelo Connector Pipeline upon the in-service date by lease to Texas Eastern. STEP consists of construction and operation of a new 8,400 hp gas turbine unit in Nueces County, Texas; piping modifications at its existing Angleton Station property in Brazoria County, Texas; a new 8,400 hp gas turbine unit at its existing Blessing Compressor Station in Matagorda County, Texas; clean burn emission work and piping modifications at its existing Mont Belvieu Compressor Station in Chambers County, Texas; and piping modifications at its existing Vidor Compressor Station in Orange County, Texas.

#### Background

On April 6, 2017, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Projects and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; Federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received a total of five comment letters from the following: The Texas Parks and Wildlife Department, Union Pacific Railroad, Gary Pyraon—an adjacent landowner to the proposed Petronila Compressor Station site, John Young—an individual, and the Teamsters National Pipeline Labor Management Cooperation Trust. The comments addressed related and non-jurisdictional facilities, air quality/greenhouse gas emissions, alternatives, biological resources, migratory birds, habitat and wildlife, water resources, hazards/safety concerns, stormwater, and general support for the Projects.

#### Additional Information

In order to receive notification of the issuance of the EA and to keep track of

all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to [www.ferc.gov/docs-filing/esubscription.asp](http://www.ferc.gov/docs-filing/esubscription.asp).

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC Web site ([www.ferc.gov](http://www.ferc.gov)). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP17-26 and CP15-499), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov). The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: August 17, 2017.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2017-0430; FRL-9966-07-OAR]

### Notice of Intent To Establish Voluntary Criteria for Radon Credentialing Organizations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability; opening of a 60-day public comment period.

**SUMMARY:** Since 1988, the Environmental Protection Agency (EPA) has administered a statutorily-mandated program under the Indoor Radon Abatement Act to reduce exposure to indoor radon by promoting awareness, testing, installation of radon mitigation systems in existing homes, and use of radon-resistant new construction techniques. EPA works with state programs, industry and the public to reduce human exposure to radon and thereby reduce deaths due to lung cancer. Access to quality service providers responsible for measuring indoor radon levels and conducting mitigation when necessary is essential to this mission. Historically, EPA

operated a program, the Radon Proficiency Program (RPP), to identify qualified radon service providers, a service to assist consumers and states receiving indoor radon grants. Upon its discontinuation, two organizations qualified to be designated as responsible parties for credentialing radon service providers in the absence of a state-run process established under a state's regulatory requirements. Since that time, there has not been an ongoing and open evaluation process for organizations wanting to credential radon service providers. As the Federal agency responsible for implementing the national radon program, and in response to the needs of our state and private partners, EPA intends to establish voluntary criteria outlining a standard of competence for organizations that credential radon service providers. This notice provides interested parties with an opportunity to provide feedback on the Agency's proposed approach.

**DATES:** Comments must be received on or before October 23, 2017.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2017-0430, to the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

**FOR FURTHER INFORMATION CONTACT:** Katrin Kral, Indoor Environments Division, Office of Radiation and Indoor Air 6609T, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; 202-343-9454; [kral.katrin@epa.gov](mailto:kral.katrin@epa.gov).

## I. General Information

### A. Does this action apply to me?

This notice is directed to stakeholders working to reduce exposure to indoor radon. It may, however, be of particular interest to those involved with promoting and/or conducting testing and installation of radon mitigation systems, including, but not limited to:

- Organizations credentialing radon service providers and other building construction and/or maintenance related providers.
- Radon service providers.
- Organizations who provide third-party accreditation to the ISO/IEC 17024:2012.
- Organizations representing state health and environmental programs, green building initiatives, and the radon services industry.
- State radon programs.
- Federal agencies who own, influence or control housing.

### B. What should I consider as I prepare my comments for EPA?

1. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify the notice by docket number, subject heading, **Federal Register** date and page number.
- Follow directions—EPA may ask you to respond to specific questions or organize comments by including a specific reference.
- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow it to be reproduced.
- Illustrate your concerns with specific examples and suggest alternatives.
- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- Make sure to submit your comments by the comment period deadline identified.

### C. How can I learn more about this?

To learn more, please visit [www.epa.gov/radon](http://www.epa.gov/radon). Depending on interest and questions received, EPA may host a question and answer session via webinar during the comment period. Please visit the Web site regularly for updates.
