

by law to submit deeming applications in the specified form and manner on behalf of named individuals for review and approval, resulting in a “deeming determination” that includes associated FTCA coverage for these individuals.

Need and Proposed Use of the Information: Deeming applications must address certain specified criteria required by law in order for deeming determinations to be issued, and FTCA application forms are critical to BPHC’s deeming determination process. These forms provide BPHC with the information essential for application evaluation and determination of whether an individual meets the requirements for deemed PHS employee status for the purposes of FTCA

coverage. Because the 21st Century Cures Act extended FTCA coverage to VHPs, BPHC will add new FTCA application forms for use by health centers applying to sponsor volunteers to become volunteer health professionals with associated FTCA coverage for their activities within the scope of deemed employment on behalf of the health center.

Likely Respondents: Respondents include Health Center Program funds recipients seeking deemed PHS employee status on behalf of their sponsored individuals for purposes of FTCA coverage.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain,

disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

Total Estimated Annualized Burden Hours:

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
FTCA Health Center Volunteer Health Professional Program Application	1375	3	4125	2	8250
Total	1375	4125	8250

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Amy McNulty,
Acting Director, Division of the Executive Secretariat.
