RIN 0648-XE467

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Testing and Training Activities Conducted in the Eglin Gulf Test and Training Range

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for Letter of Authorization; request for comments and information.

SUMMARY: NMFS has received a request from the United States Air Force (USAF), Eglin Air Force Base (AFB) 96th Test Wing (AFMC) for authorization to take marine mammals incidental to conducting testing and training activities in the Eglin Gulf Test and Training Range (EGTTR) in the Gulf of Mexico over the course of five years, from February 4, 2018 through February 3, 2023. Pursuant to regulations implementing the Marine Mammal Protection Act (MMPA), NMFS is announcing receipt of Eglin AFB's request for the development and implementation of regulations governing the incidental taking of marine mammals and inviting information, suggestions, and comments on Eglin AFB's application and request.

DATES: Comments and information must be received no later than September 25, 2017.

ADDRESSES: Comments on the application should be addressed to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910-3225 and electronic comments should be sent *ITP.Pauline@noaa.gov*.

Instructions: NMFS is not responsible for comments sent by any other method, to any other address or individual, or received after the end of the comment period. Comments sent via email, including all attachments, must not exceed a 25-megabyte file size.

Attachments to electronic comments will be accepted in Microsoft Word or Excel or Adobe PDF file formats only. All comments received are a part of the public record and will generally be posted to www.nmfs.noaa.gov/pr/permits/military.htm without change. All personal identifying information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Rob Pauline, Office of Protected Resources, NMFS, (301) 427-8401.

SUPPLEMENTARY INFORMATION:

Availability

An electronic copy of Eglin AFB's application may be obtained online at: www.nmfs.noaa.gov/pr/permits/incidental/military.htm. In case of problems accessing the document, please call the contact listed above.

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals of a species or population stock, by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

An authorization for incidental takings for marine mammals shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring, and reporting of such taking are set forth. NMFS has defined "negligible impact" in 50 CFR 216.103 as an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

The NDAA of 2004 (Pub. L. 108-136) removed the "small numbers" and "specified geographical region" limitations indicated earlier and amended the definition of harassment as it applies to a "military readiness

activity" to read as follows (Section 3(18)(B) of the MMPA): (i) Any act that injures or has the significant potential to injure a marine mammal or marine mammal stock in the wild (Level A Harassment); or (ii) any act that disturbs or is likely to disturb a marine mammal or marine mammal stock in the wild by causing disruption of natural behavioral patterns, including, but not limited to, migration, surfacing, nursing, breeding, feeding, or sheltering, to a point where such behavioral patterns are abandoned or significantly altered (Level B Harassment). Eglin AFB has identified these testing and training activities as military readiness activities.

On April 23, 2012, NMFS promulgated a rulemaking and issued a Letter of Authorization (LOA) for takes of marine mammals incidental to Eglin AFB's Naval Explosive Ordnance Disposal School (NEODS) training operations at Eglin AFB. This rule expired on April 24, 2017 (77 FR 16718, March 22, 2012). On March 5, 2014, NMFS promulgated rulemaking and issued a LOA for takes of marine mammals incidental to Eglin AFB's Air Force Special Operations Command (AFSOC) precision strike weapons (PSW) and air-to-surface (AS) gunnery activities in the EGTTR, which is valid through March 4, 2019 (79 FR 13568, March 11, 2014). In addition to these rules and LOAs, NMFS has issued Incidental Harassment Authorizations (IHA) for take of marine mammals incidental to Eglin AFB's Maritime Strike Operations (78 FR 52135, August 22, 2013; valid August 19, 2013 through August 18, 2014) and Maritime Weapons Systems Evaluations Program (WSEP) annually in 2015 (81 FR 7307) and 2016 (82 FR 10747). Eglin AFB complied with all conditions of the LOAs and IHAs issued, including submission of final reports. Based on these reports, NMFS has determined that impacts to marine mammals were not beyond those anticipated. On November 10, 2015, Eglin Natural Resources submitted an LOA request to consolidate all EGTTR activities into one authorization for five years. NMFS Office of Protected Resources planned to issue the EGTTR LOA by January 2017. However, it became apparent that the LOA would not be issued in time to cover February 2017 Maritime WSEP missions based on concerns associated with the acoustic model methodology and mission-day scenario versus per-detonation approach. Eglin Natural Resources requested and received a separate IHA (82 FR 10747, February 15, 2017) valid from February 4, 2017 through February 3, 2018 for those

WSEP missions that incorporated such methodology revisions, which has also served as interim coverage for a small number of other 2017 missions while the EGTTTR LOA was being revised.

Eglin AFB's current rulemaking/LOA application would also supersede the existing PSW and AS gunnery rule that is in effect until March 4, 2019, and would include all of Eglin AFB's testing and training activities, including WSEP activities, into one new rule with the exception of NEODS training activities. Eglin AFB has never conducted any NEODS training activities and is not including these activities as part of the new rulemaking.

Summary of Request

On May 3, 2017, NMFS received an adequate and complete application from Eglin AFB requesting authorization for the take of marine mammals incidental to testing and training activities in the EGTTTR (defined as the area and airspace over the Gulf of Mexico controlled by Eglin AFB, beginning at a point three nautical miles (nmi) off the coast of Florida) for a period of five years. These testing and training activities have the potential to result in take of marine mammals in the waters of the EGTTTR. Therefore, Eglin AFB requests authorization to take two species of marine mammals that may occur in this area, Atlantic bottlenose dolphins (*Tursiops truncatus*) and Atlantic spotted dolphins (*Stenella frontalis*).

Specified Activities

Eglin AFB proposes the following actions in the EGTTTR: (1) 86th Fighter Weapons Squadron (FWS) Maritime WSEP test missions that involve the use of multiple types of live and inert munitions (bombs and missiles) detonated above, at, or slightly below the water surface; (2) Advanced Systems Employment Project actions that involve deployment of a variety of pods, air-to-air missiles, bombs, and other munitions (all inert ordnances in relation to EGTTTR); (3) AFSOC training, including air-to-surface gunnery missions involving firing live gunnery rounds at targets on the water surface in EGTTTR, small diameter bomb (SDB) and Griffin/Hellfire missile training involving the use of live missiles and SDBs in the EGTTTR against small towed boats, and CV-22 training involving the firing of 0.50 caliber (cal.)/7.62 mm ammunition at flares floating on the EGTTTR water surface; (4) 413th Flight Test Squadron (FLTS) Precision Strike Program (PSP) activities involving firing munitions at flare targets on the EGTTTR water surface and Stand-Off Precision Guided Munitions (SOPGM) testing involving captive-carry, store separation, and weapon employment tests; (5) 780th Test Squadron (TS) activities involving PSW test missions (launch of munitions against targets in the EGTTTR) and Longbow Littoral Testing (data collection on tracking and

impact ability of the Longbow missile on small boats); (6) 96th Test Wing Inert Missions (developmental testing and evaluation for wide variety of air-delivered weapons and other systems using inert bombs); and (7) 96 Operations Group (OG) missions, which involve the support of air-to-surface missions for several user groups within EGTTTR.

During these activities, ordnances may be delivered by multiple types of aircraft, including bombers and fighter aircraft. The actions include air-to-ground missiles (AGM); air intercept missiles (AIM); bomb dummy units (BDU); guided bomb units (GBU); projectile gun units (PGU); cluster bomb units (CBU); wind-corrected munitions dispensers (WCMD); (SDB) and laser small diameter bombs (LSDB); high explosive incendiary units (HEI); joint direct attack munitions (JDAM) and laser joint direct attack munitions (LJDAM); research department explosives (RDX); joint air-to-surface stand-off missiles (JASSM); high altitude anti-submarine warfare weapons (inert); high-speed maneuverable surface targets; and gunnery rounds. Net explosive weight (NEW) of the live munitions ranges from 0.1 to 945 pounds (lb).

Eglin AFB testing and training activities involving live munitions are summarized in Table 1.

TABLE 1—LIVE MUNITIONS PLANNED FOR TESTING AND TRAINING ACTIVITIES IN THE EGTTTR

Information Solicited

Interested persons may submit information, suggestions, and comments concerning Eglin AFB's request (see ADDRESSES). Comments should be supported by data or literature citations as appropriate. We will consider all relevant information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental taking of marine mammals by Eglin AFB, if appropriate.

Dated: August 21, 2017.

Cathryn E. Tortorici,

Acting Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XF624

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting (conference call).

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Coastal Pelagic Species Advisory Subpanel (CPSAS) will hold a meeting via conference call that is open to the public.

DATES: The conference call will be held Wednesday, September 6, 2017, from 2 p.m. to 4 p.m. or until business for the day has been completed.

ADDRESSES: The meeting will be held via conference call. To attend the conference call, dial this toll free number: (866) 692-4538; enter participant code 2366028. A public listening station is available at the Pacific Council office (address below).

Council Address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Kerry Griffin, Pacific Council; telephone: (503) 820-2409.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to discuss items on the Pacific Council's September 2017 meeting agenda. Major topics include, but are not limited to, (1) a draft Terms of Reference for the 2018 review of the National Oceanic and Atmospheric Administration's *Acoustic-Trawl Survey Methodology Review*

Terms of Reference for coastal pelagic species stocks; and (2) the Ecosystem Workgroup Report on *Fishery Ecosystem Plan Initiatives: Scoping and Selection*. Both topics are to be considered at the September Council meeting, and the CPSAS may develop supplemental reports on these topics. The CPSAS may also address one or more of the Pacific Council's scheduled Administrative Matters including future meeting planning. Public comment may be taken at the discretion of the CPSAS Co-Chairs.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt at (503) 820-2411 at least 10 days prior to the meeting date.
