SUPPLEMENTARY INFORMATION:

I. Background

In the *Federal Register* of May 27, 2016 (81 FR 34166), we issued a final rule titled “Mitigation Strategies to Protect Food Against Intentional Adulteration” (the final rule) in which we require domestic and foreign food facilities that are required to register under the Federal Food, Drug, and Cosmetic Act (the FD&C Act) to address hazards that may be introduced with the intention to cause wide scale public health harm. The final rule, which is codified at part 121 (21 CFR part 121), became effective July 26, 2016, but has compliance dates staggered starting 3 years after publication of the final rule.

We examined the economic implications of the final rule as required by the Regulatory Flexibility Act (5 U.S.C. 601–612) and determined that the final rule will have a significant economic impact on a substantial number of small entities. In compliance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Pub. L. 104–121, as amended by Pub. L. 110–28), we are making available the SECG to reduce the burden of determining how to comply by further explaining and clarifying the actions

that a small entity must take to comply with the rule.

We are issuing the SECG consistent with our good guidance practices regulation (21 CFR 10.115(c)(2)). The SECG represents the current thinking of FDA on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This is not a significant regulatory action subject to Executive Order 12866 and does not impose any additional burden on regulated entities.

II. Paperwork Reduction Act of 1995

This guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in part 121 have been approved under OMB control number 0910–0812.

III. Electronic Access

Persons with access to the Internet may obtain the SECG at either <https://www.fda.gov/FoodGuidances>, or <https://www.regulations.gov>. Use the FDA Web site listed in the previous sentence to find the most current version of the guidance.

RIN 1625-AA00

Safety Zone, Delaware River; Dredging

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule; with request for comments.

SUMMARY: The Coast Guard is establishing temporary safety zones in portions of Bellevue Range, Marcus Hook Range, Anchorage 7 off Marcus Hook Range, Chester Range, and Eddystone Range, on the Delaware River, in Philadelphia, PA. The safety zone will temporarily restrict vessel

traffic from transiting or anchoring in a portion of the Delaware River while dredging operations are being conducted to facilitate the Delaware River Main Channel Deepening project for the main navigational channel of the Delaware River. This regulation is necessary to provide for the safety of life on navigable waters of the Delaware River, in the vicinity of dredging activity and is intended to protect mariners from the hazards associated with pipe-laying and dredging operations.

DATES: This rule is effective from August 30, 2017, through March 15, 2018.

ADDRESSES: You may submit comments identified by docket number USCG-2017-0811 using the Federal eRulemaking Portal at <http://www.regulations.gov>. II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are impracticable, unnecessary, or contrary to the public interest. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impractical and contrary to the public interest. Final details for the dredging operation were not received by the Coast Guard until August 10, 2017. Vessels transiting through Bellevue Range, Chester Range, Eddystone Range, and Marcus Hook Range or attempting to enter the waters of Anchorage 7 off Marcus Hook Range during dredging operations may be at risk. We are taking immediate action to help protect the safety of the project personnel, vessels, and the marine environment on the navigable waters within the safety zones while dredging is being conducted. It is important to have these regulations in effect during dredging operations and it is impracticable to delay the regulations.

We are issuing this rule and, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making it effective less than 30 days after publication in the **Federal Register** because doing so would be contrary to the public interest. Allowing this dredging operation to go forward without safety zones in place would expose mariners and the public to unnecessary dangers.
