AES Filing Compliance Date for Hazardous Waste Exports

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of announcement of compliance date.

SUMMARY: This action announces that the Automated Export System (AES) filing compliance date for export shipments of hazardous waste and certain other materials is December 31, 2017. Under the "Hazardous Waste Export-Import Revisions" final rule published on November 28, 2016, that became effective on December 31, 2016, Environmental Protection Agency (EPA) provided flexibility to the regulated community by establishing a transition period prior to the required filing of EPA information into the AES for these export shipments. EPA had stated in the final rule that during the transition period, either paper processes or electronic processes at the port could be used until a future AES filing compliance date, which would be announced in a separate **Federal Register** action. EPA is making this announcement of the AES filing compliance date of December 31, 2017 in this action. On or after this AES filing compliance date, all exporters of manifested hazardous waste, universal waste, and spent lead-acid batteries for recycling or disposal, and all exporters of cathode ray tubes for recycling will be required to file EPA information in the AES or AESDirect for each export shipment. Paper processes will no longer be allowed on or after the compliance date.

DATES: The AES filing compliance date is December 31, 2017.

ADDRESSES: The EPA established a docket for the "Hazardous Waste Export-Import Revisions" under Docket ID No. EPA-HQ-RCRA-2015-0147, which includes this announcement. All documents in the docket are listed on the <https://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically through <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Laura Coughlan, Materials Recovery and Waste Management Division, Office of Resource Conservation and Recovery (5304P), Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone number: (703) 308-0005; fax number: 703-308-0514; email address: coughlan.laura@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On November 28, 2016, EPA finalized revisions to the Resource Conservation and Recovery Act (RCRA) regulations governing imports and exports of hazardous waste and certain other materials in 40 CFR part 262 (81 FR 85696). These revisions included a stepwise conversion from a paper process for export shipments at the port to an electronic process to fulfill the direction set forth in Executive Order 13659 concerning the electronic management of international trade data by the U.S. Government as part of the International Trade Data System (ITDS).

Under Executive Order 13659, agencies were required to have capabilities, agreements, and other requirements in place by December 31, 2016, to utilize the ITDS and supporting systems, such as the Automated Export

System (AES) or its successor system, as the primary means of receiving from users the standard set of data and other relevant documentation (exclusive of applications for permits, licenses, or certifications) required for the release of imported cargo and clearance of cargo for export. The AES resides in the U.S. Customs and Border Protection's (CBP's) Automated Commercial Environment (ACE). With respect to RCRA waste exports subject to consent requirements, EPA's regulatory revisions and CBP's changes to AES were established to utilize electronic processes in AES, or its successor system, in place of existing paper processes at the port or border crossing required to clear export shipments for departure. Currently, exports of hazardous waste, including those eligible for the alternate management standards of 40 CFR part 273 (i.e., universal waste) or 40 CFR part 266 (e.g., spent lead acid batteries being shipped for recycling), and exports of cathode ray tubes for recycling are subject to RCRA consent requirements. EPA's final rule had allowed exporters to choose whether to follow the existing paper process or the new electronic procedure at the border during an initial transition period until the "AES filing compliance date" defined in 40 CFR 260.10, and to be announced in a future **Federal Register** action.

With this announcement, starting on the AES filing compliance date of December 31, 2017, exporters or their authorized agents will no longer be able to use a paper process, and will have to file certain EPA data in the AES, or its successor system. The data they must file is set forth in 40 CFR 261.39(a)(5)(v)(B) for cathode ray tube exports and in 40 CFR 262.83(a)(6)(ii) for hazardous waste exports. A detailed description of the electronic process is available in Section III.B of the "Hazardous Waste Export-Import Revisions" (81 FR 85696, November 28, 2016) final rule.

II. EPA Outreach

EPA has held three webinars for exporters on how to file the EPA

information in AES on January 18, 2017, May 8, 2017, and June 5, 2017. In the May and June webinars, EPA stated that the transition period would end no later than December 31, 2017. Materials and recordings of the May and June webinars are available at https://clu-in.org/conf/tio/AESExporters_050817/ and https://clu-in.org/conf/tio/AESExporters_060517/, respectively. EPA is also reaching out to individual exporters to ensure that all exporters with consent can successfully file the EPA information in AES for their export shipments.

Dated: August 15, 2017.

Barry N. Breen,

Acting Assistant Administrator, Office of Land and Emergency Management.

Clean Air Act Operating Permit Program; Petition for Objection To Proposed Permit for Chevron USA Inc.—7Z Steam Plant, San Joaquin Valley Unified Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: This document announces that the Environmental Protection Agency (EPA) Administrator has responded to a citizen petition asking the EPA to object to the proposed issuance of an Authority to Construct/Certificate of Conformity (Permit) issued by the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD). Specifically, the Administrator has denied the July 7, 2016 petition (Petition), submitted by the Climate Change Law Foundation, Association of Irrigated Residents, Center for Biological Diversity, and Sierra Club to object to SJVUAPCD's proposed issuance of the Permit for the Chevron USA Inc.—7Z Steam Plant in Kern County, California.

ADDRESSES: Copies of the final Order, the Petition, and other supporting information is available electronically at the following Web site: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

The EPA requests that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, Petition, and other supporting information. You may view the hard copies Monday through

Friday, from 9 a.m. to 3 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order is available electronically at: https://www.epa.gov/sites/production/files/2017-04/documents/chevron_response2016_0.pdf.

FOR FURTHER INFORMATION CONTACT:

Laura Yannayon, EPA Region IX, (415) 972-3534, yannayon.laura@epa.gov.

SUPPLEMENTARY INFORMATION:

SJVUAPCD Rule 2201 affords the EPA a 45-day period to review and object to, as appropriate, a proposed permit. Rule 2201 § 5.9.1. If the EPA does not object, Rule 2201 allows any person to petition the EPA, within 60 days, to object to the proposed permit. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period, or the grounds for the issue arose after this period.

The EPA received the Petition dated July 7, 2016, requesting that the EPA object to the proposed issuance of the Permit to Chevron USA Inc., for modifications to its 7Z Steam Plant, located in Kern County, California. In summary, the Petition claimed that certain emission reduction credits used in the permitting process were invalid.

On April 24, 2017, the Administrator issued an order denying the Petition. The EPA's rationale for denying the claims raised in the petition are described in the Order.

Dated: August 11, 2017.

Alexis Strauss,

Acting Regional Administrator, Region IX.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Engine Emission Defect Information Reports and Voluntary Emission Recall Reports (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), Engine

Emission Defect Information Reports and Voluntary Emission Recall Reports (EPA ICR Number 0282.17, OMB Control Number 2060-0048) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through August 31, 2017. Public comments were previously requested via the **Federal Register** (82 FR 29544) on June 29, 2017 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before September 28, 2017.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2013-0246, to (1) EPA online using www.regulations.gov (our preferred method), by email to a-and-r-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Nydia Reyes-Morales, Office of Transportation and Air Quality, Mail Code 6405J, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: 202-343-9264; fax number: 202-343-2804; email address: reyes-morales.nydia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744.
