

marketing, rural economic development, and natural resource and consumer interest groups, among many others. The Board was first appointed by the Secretary of Agriculture in September 1996, and one-third of its members were appointed for a 1-, 2-, and 3-year term, respectively. The terms for ten members who represent specific categories will expire September 30, 2017.

Nominations for a 3-year appointment for these ten vacant categories are sought. All nominees will be carefully reviewed for their expertise, leadership, and relevance to a category.

The ten slots to be filled are:

- Category B. Farm Cooperatives
- Category D. Plant Commodity Producer
- Category E. National Aquaculture Association
- Category H. National Food Science Organization
- Category J. National Nutritional Science Society
- Category K. 1862 Land-Grant Colleges and Universities
- Category V. National Forestry Group
- Category W. National Conservation or Natural Resource Group
- Category Y. National Social Science Association
- Category X. Private Sector Organization involved in International Development

Specialty Crop Committee: The Specialty Crop Committee was created as a subcommittee of the NAREEE Advisory Board in accordance with the Specialty Crops Competitiveness Act of 2004 under Title III, Section 303 of Public Law 108-465. The committee was formulated to study the scope and effectiveness of research, extension, and economics programs affecting the specialty crop industry. The legislation defines “specialty crops” as fruits, vegetables, tree nuts, dried fruits and nursery crops (including floriculture). The Agricultural Act of 2014 further expanded the scope of the Specialty Crop Committee to provide advice to the Secretary of Agriculture on the relevancy review process of the Specialty Crop Research Initiative, a granting program of the National Institute of Food and Agriculture.

Members should represent the breadth of the specialty crop industry. Six members of the Specialty Crop Committee are also members of the NAREEE Advisory Board and six members represent various disciplines of the specialty crop industry. The terms of three members will expire on September 30, 2017. The Specialty Crop Committee is soliciting nominations to fill three vacant positions to represent the specialty crop industry. Appointed

members will serve three years with their terms expiring in September 2020.

National Genetic Resources Advisory Council: The National Genetic Resources Advisory Council was re-established in 2012 as a permanent subcommittee of the NAREEE Advisory Board to formulate recommendations on actions and policies for the collection, maintenance, and utilization of genetic resources; to make recommendations for coordination of genetic resources plans of several domestic and international organizations; and to advise the Secretary of Agriculture and the National Genetic Resources Program, part of the Agricultural Research Service, of new and innovative approaches to genetic resources conservation.

The National Genetic Resources Advisory Council membership is required to have two-thirds of the appointed members from scientific disciplines relevant to the National Genetic Resources Program, including agricultural sciences, environmental sciences, natural resource sciences, health sciences, and nutritional sciences; and one-third of the appointed members from the general public including leaders in fields of public policy, trade, international development, law, or management.

The terms of three members of the National Genetic Resources Advisory Council will expire on September 30, 2017. We are seeking nominations for a 3-year appointment effective October 1, 2017 through September 30, 2020. The three slots to be filled are to be composed of two scientific members and one general public member.

Citrus Disease Subcommittee: USDA will no longer be accepting nomination packages for the Citrus Disease Subcommittee. All positions are currently filled.

Done at Washington, DC, this day of August 21, 2017.

Ann Bartuska,

Acting Under Secretary, Research, Education, and Economics.

BILLING CODE 3410-03-P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

August 24, 2017.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are

requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by September 28, 2017 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@omb.eop.gov* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Supplemental Nutrition Assistance Program Repayment Demand and Program Disqualification

OMB Control Number: 0584-0492.

Summary of Collection: Section 13(b) of the Food and Nutrition Act of 2008, as amended (7 U.S.C. 2202(b)), and Supplemental Nutrition Assistance Program (SNAP) regulations at 7 CFR 273.18(a)(2) require State agencies to initiate collection action. State agencies must provide an affected household with written notification informing the over-issued household of the claim and demanding repayment.

Need and Use of the Information:

State agency personnel will collect the information from individuals collecting SNAP benefits. The State agencies must maintain all records associated with this collection for a period of three years so that FNS can review documentation during compliance reviews and other audits. Without the information, FNS

would not be able to correct accidental or fraudulent overpayment errors in the SNAP Program.

Description of Respondents: State, Local, or Tribal Government (SLT); Individuals/Households (I/H).

Number of Respondents: 53 SLT and 884,516 (I/H).

Frequency of Responses: Reporting, Recordkeeping; On occasion.

Total Burden Hours: 203,090.

Charlene Parker,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2017-0066]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Plants for Planting Regulations

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the plants for planting regulations.

DATES: We will consider all comments that we receive on or before October 30, 2017.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!documentDetail;D=APHIS-2017-0066>.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2017-0066, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2017-0066> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be

sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the plants for planting regulations, contact Ms. Lydia Colon, Senior Regulatory Policy Specialist, PPQ, PHP, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1231; (301) 851-2302. For copies of more detailed information on the information collection, contact Ms. Kimberly Hardy, APHIS' Information Collection Coordinator, at (301) 851-2483.

SUPPLEMENTARY INFORMATION:

Title: Plants for Planting Regulations.
OMB Control Number: 0579-0190.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture, either independently or in cooperation with States, may carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests that are new to or not widely distributed within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture.

APHIS regulations contained in "Subpart—Plants for Planting" (7 CFR 319.37 through 319.37-14) prohibit or restrict, among other things, the importation of living plants, plant parts, and seeds for propagation. In accordance with these regulations, plants for planting from certain parts of the world may be imported into the United States only under certain conditions to prevent the introduction of plant pests into the United States. Individuals who are involved in growing, exporting, and importing plants for planting must provide information to APHIS about the commodities they wish to bring into the United States. Implementing APHIS' nursery stock regulations requires APHIS to collect information from a variety of individuals who are involved in growing, exporting, and importing nursery stock. This information includes permits, foreign site certificates of inspection and/or treatment; written requests to APHIS for permission to move, propagate, or allow propagation of regulated articles; markings and identification of regulated articles; phytosanitary certificates; grower and production site registrations; inspections, lists, reinstatements/reapprovals; and trust fund agreements. The information APHIS collects serves as the supporting documentation

needed to issue required PPQ forms and documents that allow importation of nursery stock and is vital to helping APHIS ensure that plant pests are not introduced into the United States.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.516 hours per response.

Respondents: Importers, exporters, and growers of plants for planting; and the national plant protection organization of each exporting country.

Estimated annual number of respondents: 44.

Estimated annual number of responses per respondent: 245.

Estimated annual number of responses: 10,769.

Estimated total annual burden on respondents: 5,557 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 23rd day of August 2017.

Jere L. Dick,

Acting Administrator, Animal and Plant Health Inspection Service.
