**International Trade Administration**  
 [C–469–818]

**Ripe Olives From Spain: Postponement of Preliminary Determination in the Countervailing Duty Investigation**

**AGENCY:** Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce.

**DATES:** August 30, 2017.

**FOR FURTHER INFORMATION CONTACT:** Mary Kolberg at (202) 482–1785, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230.

**SUPPLEMENTARY INFORMATION:**

**Background**

On July 12, 2017, the Department of Commerce (Department) initiated a countervailing duty investigation on ripe olives from Spain.<sup>1</sup> Currently, the preliminary determination is due no later than September 15, 2017.

**Postponement of the Preliminary Determination**

Section 703(b)(1) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the preliminary determination in a countervailing duty investigation within 65 days after the date on which the Department initiated the investigation. However, section 703(c)(1) of the Act permits the Department to postpone the preliminary determination until no later than 130 days after the date on which the Department initiated the investigation

if: (A) The petitioner<sup>2</sup> makes a timely request for a postponement; or (B) the Department concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. The Department will grant the request unless it finds compelling reasons to deny the request.

On August 7, 2017, the petitioner submitted a timely request that we postpone the preliminary CVD determination.<sup>3</sup> The petitioner stated that it requests postponement because the Department continues to gather “questionnaire responses from the Government of Spain, the European Union, and the mandatory respondents in this investigation. Thus, extra time is needed to permit the Department . . . to analyze fully the questionnaire responses, request any necessary clarifications, and determine the extent to which countervailable subsidies have been bestowed on the respondents.”<sup>4</sup> In accordance with 19 CFR 351.205(e), the petitioner has stated the reasons for requesting a postponement of the preliminary determination, and the Department finds no compelling reason to deny the request. Therefore, pursuant to section 703(c)(1)(A) of the Act, we are extending the due date for the preliminary determination to no later than 130 days after the date on which this investigation was initiated, *i.e.*, to

<sup>2</sup> In this investigation, the petitioner is the Coalition for Fair Trade in Ripe Olives and its individual members, Bell-Carter Foods, Inc. and Musco Family Olive Co.

<sup>3</sup> See Letter from the petitioner, “Ripe Olives from Spain—Request for Postponement of Preliminary Determination” (August 7, 2017).

<sup>4</sup> *Id.*

November 20, 2017.<sup>5</sup> Pursuant to section 705(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determination will continue to be 75 days after the date of the preliminary determination.

This notice is issued and published pursuant to section 703(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: August 24, 2017.

**Gary Taverman,**

*Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.*

**National Institute of Standards and Technology**

**Federated Cloud Public Working Group**

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice; announcement of working group teleconference.

**SUMMARY:** The NIST Cloud Computing Program (NCCP) announces the reconstitution of its Federated Cloud Public Working Group. The Working Group’s activities will resume and initiate work to develop a vocabulary of terms to support federated cloud and federated cloud environments, as well as a conceptual architecture for federated cloud. Participation in the

<sup>5</sup> The 130th day falls on Sunday, November 19, 2017. The Department’s practice dictates that where a deadline falls on a weekend or federal holiday, the appropriate deadline is the next business day. See *Notice of Clarification: Application of “Next Business Day” Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005). Therefore, the deadline for the preliminary determination is November 20, 2017.

<sup>1</sup> See *Ripe Olives from Spain: Initiation of Countervailing Duty Investigation*, 82 FR 33050 (July 19, 2017).

Working Group is open to all interested parties.

**DATES:** An initial teleconference will take place on Thursday, August 31, 2017, at 10:00 a.m. Eastern Time. The goal for completion of the work is June 30, 2018.

**FOR FURTHER INFORMATION CONTACT:** Robert Bohn, National Institute of Standards and Technology, 100 Bureau Drive, Gaithersburg, Maryland 20899–4800, telephone number 301–975–4731, email: [robert.bohn@nist.gov](mailto:robert.bohn@nist.gov).

**SUPPLEMENTARY INFORMATION:** The NCCP announces the reconstitution of its Federated Cloud Public Working Group (Working Group). The Working Group was formed to address Requirement #5 of NIST’s US Government Cloud Computing Technology Roadmap (NIST SP 500–293) (Cloud Computing Roadmap), “Frameworks to Support Federated Community Clouds.” This requirement calls for “frameworks to support seamless implementation of federated community cloud environments.” The Working Group’s activities will resume and initiate work to try and fully understand and describe the elements of federated cloud computing. Assorted topics include developing and gaining consensus on a common federated cloud computing vocabulary, as well as developing an underlying conceptual model of what federated cloud computing is, its major components, and users/stakeholders.

An initial teleconference will take place on Thursday, August 31, 2017, at 10:00 a.m. Eastern Time. The dial-in number is 1–877–953–0273, and the passcode is 456–4979. Members of the public who wish to participate in the teleconference should provide their name and email address to [fedcloud@nist.gov](mailto:fedcloud@nist.gov), no later than 5:00 p.m. Eastern Time on Thursday, August 24, 2017. Responses received after the deadline will also be added to the group’s mailing list, but they may not receive initial documentation prior to the first meeting. Members of the public who provide their email addresses but who cannot participate in the initial teleconference will still be notified about subsequent meetings. It is anticipated that there will be subsequent monthly meetings by teleconference on the fourth Thursday of every month from either 11:00 a.m. to 1:00 p.m. Eastern Time or 1:30 p.m. to 3:00 p.m. Eastern Time. A schedule of meeting times will be provided to all participants who submit their name and email address as provided above. Participation in the Working Group is open to all interested parties; there is no fee to participate. Standing Rules

Documents explaining how the group will be run will be made available at the first meeting to all Working Group members. Final technical recommendations from the Working Group will be made publicly accessible on the NIST Cloud Computing Portal, and NIST may make the results of this Working Group available to Standards Developing Organizations and other interested parties.

#### Background

The Cloud Computing Roadmap is being used industry-wide to advance the rapid adoption of cloud computing. Two of the 10 requirements (numbers 5 and 8) in the Cloud Computing Roadmap point to the next generation of cloud computing which will be focused on the concept of federated clouds. Federated clouds represent a future where there is seamless integration between multiple cloud service providers. Fulfilling this vision of the future of cloud computing will require a foundational effort to understand all the technological and standards-based obstacles that will need to be addressed to build the necessary underlying architecture.

#### Scope

The scope of the project is to fully understand and describe the elements of federated cloud computing. This will involve developing and gaining consensus on a common federated cloud computing vocabulary, as well as developing an underlying conceptual model of what federated cloud computing is, its major components, and users/stakeholders. The Working Group will then use that conceptual model to map out an implementation strategy including a gap analysis to identify the missing technologies and standards needed to cultivate a seamless system of systems. The anticipated results are:

- Federated Cloud Computing Vocabulary;
- Conceptual Model of Federated Clouds; and
- Technology Gap Analysis.

The Working Group will also investigate and identify the needed technologies, tools, and standards to enable these environments. They will use material from NIST’s Cloud Computing Reference Architecture (NIST SP 500–292) and materials located at the group’s public twiki site: [http://collaborate.nist.gov/twiki-cloud-computing/bin/view/CloudComputing/RATax\\_FedCommunity](http://collaborate.nist.gov/twiki-cloud-computing/bin/view/CloudComputing/RATax_FedCommunity).

The Working Group will work in a coordinated effort with the IEEE ICWG/2302 WG—Intercloud Working Group to

produce an implementation of this reference material and create a compliant technical standard. A list of NIST’s Cloud Computing Working Groups can be found at [http://collaborate.nist.gov/twiki-cloud-computing/bin/view/CloudComputing/WebHome#Working\\_Groups\\_of\\_NIST\\_Cloud\\_Com](http://collaborate.nist.gov/twiki-cloud-computing/bin/view/CloudComputing/WebHome#Working_Groups_of_NIST_Cloud_Com). The work of the NIST Cloud Computing Working Groups is interrelated, and this Working Group will also liaise with other working groups as needed.

**Authority:** 15 U.S.C. 272(b)(3) & (c)(12).

[Docket No.: 170717677–7677–01]

#### Request for Information on the Development of the Organization of Scientific Area Committees (OSAC) for Forensic Science 2.0

**AGENCY:** National Institute of Standards and Technology, Department of Commerce.

**ACTION:** Notice; request for information.

**SUMMARY:** The National Institute of Standards and Technology (NIST) and the Department of Justice (DOJ) established the Organization of Scientific Area Committees (OSAC) for Forensic Science in 2013 as part of a larger effort to strengthen forensic science in the United States. NIST has primary responsibility to support the OSAC and has publicly announced its intention to transition the administration of the OSAC to another host within five to ten years. NIST made a commitment to the forensic science community (community) that OSAC 2.0 will ensure the continued scientific integrity and stability of the organization. NIST publishes this notice to request information for consideration in the development of a comprehensive transition plan for the OSAC that meets the needs of the community and ensures that transition is conducted in a manner that safeguards the efficiency and effectiveness of the OSAC.

**DATES:** NIST will accept written responses to this request for information until 11:59 p.m. Eastern Time on October 30, 2017.

**ADDRESSES:** Responses to this request for information must be made electronically through the *Federal*
