

TABLE 1—PROPOSED LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN ITSNA'S NRTL SCOPE OF RECOGNITION—Continued

Test Standard	Test Standard Title
UL 60950–21	Information Technology Equipment—Safety—Part 21: Remote Power Feeding.

III. Preliminary Findings on the Application

ITSNA submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file, and pertinent documentation, indicate that ITSNA can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of these seven test standards for NRTL testing and certification listed above. This preliminary finding does not constitute an interim or temporary approval of ITSNA's application.

OSHA welcomes public comment as to whether ITSNA meets the requirements of 29 CFR 1910.7 for expansion of its recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N–3508, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA–2007–0039.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant ITSNA's application for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.

IV. Authority and Signature

Loren Sweatt, Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1–2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on August 22, 2017.

Loren Sweatt,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA

95) [44 U.S.C. 3506(c)(2)(A)]. This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The Voluntary Protection Programs (VPP) [47 FR 29025], adopted by OSHA, established the efficacy of cooperative action among government, industry and labor to address employee safety and health issues and to expand employee protection. To qualify, employers must meet OSHA's safety and health management criterion, which focuses on comprehensive management programs and active employee involvement to prevent or control worksite safety and health hazards. Employers who qualify generally view OSHA standards as a minimum level of safety and health performance, and set their own more stringent standards, wherever necessary, to improve employee protection. Prospective VPP worksites must submit an application that includes:

- General applicant information (*e.g.*, site, corporate, and collective bargaining contact information).
- Injury and illness rate performance information (*i.e.*, number of employees and/or applicable contractors onsite, type of work performed and products produced, North American Industry Classification System (NAICS) codes, and Recordable Injury and Illness Case Incidence Rate information).
- Safety and health management program information (*i.e.*, description of the applicant's safety and health management programs including how the programs successfully address management leadership and employee involvement, worksite analysis, hazard prevention and control, and safety and health training).

OSHA uses this information to determine whether an applicant is ready for a VPP onsite evaluation and as a verification tool during VPP onsite evaluations. Without this information,

OSHA would be unable to determine which sites are ready for VPP status.

Each current VPP applicant is also required to submit an annual self-evaluation which addresses how that applicant is continuing its adherence to programmatic requirements.

In 2008, OSHA modified procedures for VPP applicants, OSHA onsite evaluations, and annual participant self-evaluations for applicants/participants subject to OSHA's Process Safety Management (PSM) Standard. Applicants who perform work that uses or produces highly hazardous chemicals exceeding specified limits covered under the PSM standard must submit responses to the PSM application supplement along with their VPP application.

Once in the VPP, the participant is required to submit an annual self-evaluation detailing its continued adherence to programmatic requirements. Applicants covered under the PSM standard are required to submit a PSM questionnaire, a supplemental document, as part of their annual submission. OSHA needs this information to ensure that the participant remains qualified to participate in the VPP between onsite evaluations. Without this information, OSHA would be unable to determine whether applicants are maintaining excellent safety and health management programs during this interim period.

In 2009, with the publication of the **Federal Register** Notice (FRN) (74 FR 927, January 9, 2009), VPP revised its traditional focus on individual fixed worksites (site-based) by adding two new ways to participate: mobile workforce and corporate. A significant reorganization of the program helped clarify the multiple participation options now available.

Employees of VPP participants may apply to participate in the Special Government Employee (SGE) Program. The SGE Program offers private and public sector safety and health professionals and other qualified participants the opportunity to exchange ideas, gain new perspectives, and grow professionally while serving as full-fledged team members on OSHA's VPP onsite evaluations and helping OSHA with other VPP-related activities. In this capacity, SGEs may review company documents, assist with worksite walkthroughs, interview employees, assist in preparing VPP onsite evaluation reports, assist the Regional VPP Manager with the review of a site's VPP application or annual self-evaluation report, co-instruct the SGE course or VPP application workshop, and mentor potential or

current VPP sites. Potential SGEs must submit an application that includes:

- SGE Eligibility Information Sheet (*i.e.*, applicant's name, professional credentials, site/corporate contact information, qualifying activities participation, etc.);
- Current Resume;
- Confidential Financial Disclosure Report (OGE Form 450).
- Optional Application for Federal Employment (OF 612).

OSHA uses the SGE Eligibility Information Sheet to ensure that the potential SGE works at a VPP site and meets the minimum eligibility qualifications. The resume is required to provide a detailed description of their current duties and responsibilities as they relate to safety and health and the implementation of an effective safety and health management program. The OGE Form 450 is used to ensure that SGEs do not participate on onsite evaluations at VPP sites in which they have a financial interest.

OSHA Challenge is designed to reach and guide employers and companies in all major industry groups who are strongly committed to improving their safety and health management programs and possibly pursuing recognition in the VPP. The Challenge Administrator's application is used to: (1) Conduct a preliminary analysis of the applicant's knowledge of safety and health management programs; and (2) make a determination regarding the applicant's qualifications to become a Challenge Administrator. Once a Challenge Administrator is approved, the program's Administrator will review each Challenge candidate's application/annual submissions to ensure that all necessary information is provided, prior to forwarding them to OSHA's National Office for analysis and acceptance.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of the Agency's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA proposes to extend OMB's approval of the collection of information (paperwork) requirements necessitated by the Voluntary Protection Programs. The Agency is requesting an adjustment decrease in the burden hours from 134,475 hours to 90,863 hours; a total decrease of 43,612 hours. The decrease is the result of the VPP Participation Evaluation Report Site-Based Mobile Workforce Corporate in managing participants is no longer needed. The Agency will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of these information collection requirements.

Type of Review: Extension of a currently approved collection.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2011-0056). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.
