Certain banks and savings associations must include: A copy of their approved strategic plan and a description of the current efforts to improve their performance in helping to meet the credit needs of its entire community. Certain large banks and savings associations must include in their public files (for prior two years): Consumer loan data; CRA Disclosure Statements; and Home Mortgage Disclosure Act (HMDA) Disclosure Statements. The OCC issued a notice for 60 days of comment regarding this collection on June 5, 2017, 82 FR 25911. One comment was received from an institution.

The commenter focused its comments on 12 CFR 25.43 and 195.43, which require that all banks and savings associations maintain a public file. The commenter believed that removing the requirements for a copy of the public section of the most recent CRA evaluation and CRA and Home Mortgage Disclosure Act (HMDA) Disclosure Statements would enhance the quality, utility, and clarity of the information to be collected and

minimize the burden of the collection on respondents. The commenter stated that CRA Performance Evaluations are readily available through the Web sites of the respective regulators completing the evaluations and CRA and HMDA Disclosure Statements (often thousands of pages) are available to both regulators and consumers through the Federal Financial Institutions Examination Council's (FFIEC) Web site. The commenter supported the remaining Public File requirements.

In response to these comments, the OCC notes that the Federal banking agencies have opined that a bank or savings association may keep all or a part of CRA public file information, including the public section of its CRA evaluation and CRA and HMDA Disclosure Statements, on an intranet or the Internet provided that all of the required information set forth in 12 CFR 25.43 is made available in either in paper or electronic form. *See* Community Reinvestment Act; Interagency Questions and Answers Regarding Community Reinvestment; Guidance § .43(c)—2 (81 FR 48555, July 25, 2016). By making CRA public file items available via an intranet or the Internet, a bank or savings association can decrease the volume of paper maintained in a public file, which should help increase the clarity of information that a bank or savings association elects to maintain in a paper-based public file and decrease information collection burden.

Comments continue to be invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the burden of the information collection;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
