Marine Mammals; File No. 18786–02

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit amendment.

SUMMARY: Notice is hereby given that the NMFS Office of Protected Resources, Marine Mammal Health and Stranding Response Program (Responsible Party: Teri Rowles, D.V.M., Ph.D.), 1315 East West Highway, Silver Spring, MD 20910, has applied for an amendment to Scientific Research Permit No. 18786–01.

DATES: Written, telefaxed, or email comments must be received on or before October 5, 2017.

ADDRESSES: The application and related documents are available for review by selecting “Records Open for Public Comment” from the “Features” box on the Applications and Permits for Protected Species home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 18786–02 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713–0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Shasta McClenahan or Amy Sloan, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 18786–02 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations

governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

Permit No. 18786, issued on June 30, 2015 (80 FR 44939), authorizes the permit holder to: (1) Carry out response, rescue, rehabilitation and release of threatened and endangered marine mammals under NMFS jurisdiction (Cetacea and Pinnipedia [excluding walrus]), and disentanglement of all marine mammals under NMFS jurisdiction, pursuant to sections 109(h), 112(c), and Title IV of the MMPA; and, carry out such activities as enhancement pursuant to section 10(a)(1)(A) of the ESA; (2) Conduct health-related, bona fide scientific research studies on marine mammals and marine mammal parts under NMFS jurisdiction pursuant to sections 104(c) and Title IV of the MMPA and section 10(a)(1)(A) of the ESA, including research related to emergency response that may involve compromised animals, and research on healthy animals that have not been subject to emergency response (*e.g.*, baseline health studies); (3) Conduct Level B harassment on all marine mammal species under NMFS jurisdiction incidental to MMHSRP activities in the U.S.; and (4) Collect, salvage, receive, possess, transfer, import, export, analyze, and curate marine mammal specimens under NMFS jurisdiction for purposes delineated in numbers (1) and (2) above.

The permit holder is requesting the permit be amended to include authorization to: (1) Increase the number of dolphins captured, handled, and released for research by 200 takes; (2) increase the number of research takes for non-ESA listed pinniped species by 200 takes for directed research and by 500 takes for sampling under other permitted research; (3) increase the number of research takes for non-ESA listed large whales by 400 takes; (4) add 10 dedicated research takes for the proposed ESA-listed Gulf of Mexico subspecies of Bryde’s whale (*Balaenoptera edeni*); and (5) clarify that new methods and tools may be used during emergency response.

An environmental assessment (EA) was prepared for the original permit (No. 18786) in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), to examine whether significant environmental impacts could result from issuance of the proposed scientific

research permit. Based on the analyses in the EA, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on June 29, 2017. The activities in this proposed amendment are consistent with the analyses in the original EA and no additional NEPA analysis is required for the issuance of this amendment. The original EA and FONSI are available upon request.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: August 30, 2017.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

Notice of Intent To Prepare an Environmental Assessment on the Issuance of Incidental Take Authorizations in Cook Inlet, Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The National Marine Fisheries Service announces its intent to prepare an Environmental Assessment (EA) to analyze the environmental impacts of issuing annual incidental harassment authorizations (IHAs) pursuant to the Marine Mammal Protection Act (MMPA) for the taking of marine mammals incidental to anthropogenic activities in the waters of Cook Inlet, Alaska, for the 2018 season; and its intent to continue an annual cycle for issuing MMPA IHAs in Cook Inlet such that companies planning to submit IHA applications for work to be conducted in Cook Inlet in 2018 do so by no later than October 1, 2017. We refer prospective applicants to our 2016 Technical Guidance for Assessing the Effects of Anthropogenic Sound on Marine Mammal Hearing (
