This notice serves as a reminder that any party submitting factual information in an AD/CVD proceeding must certify

to the accuracy and completeness of that information.² Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives in these segments.³ The formats for the revised certifications are provided at the end of the *Final Rule*. The Department intends to reject factual submissions if the submitting party does not comply with the revised certification requirements.

On April 10, 2013, the Department modified two regulations related to AD/CVD proceedings: The definition of factual information (19 CFR 351.102(b)(21)), and the time limits for the submission of factual information (19 CFR 351.301).⁴ Parties are advised to review the final rule, available at <http://enforcement.trade.gov/frn/2013/1304frn/2013-08227.txt>, prior to

The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with the Department's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, the Department will automatically revoke the order without further review.⁶

If we receive an order-specific notice of intent to participate from a domestic interested party, the Department's regulations provide that *all parties* wishing to participate in a Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. SUPPLEMENTARY INFORMATION:

I. Abstract

The President's Proclamation on Steel Safeguards mandated that the Departments of Commerce and Treasury institute an import licensing system to facilitate the monitoring of certain steel imports in 2002.

Regulations were established that implemented the Steel Import Monitoring and Analysis (SIMA) System and expanded on the licensing system in 2006 for steel that was part of those safeguards. The import license information is necessary to assess import trends of steel products.

In order to effectively monitor steel imports, Commerce must collect and

provide timely aggregated summaries about the imports. The Steel Import License is the tool used to collect the necessary information. The Census Bureau currently collects import data and disseminates aggregate information about steel imports. However, the time required to collect, process, and disseminate this information through Census can take up to 90 days after importation of the product, giving interested parties and the public far less time to respond to injurious sales.

II. Method of Collection

The license application can be submitted electronically via the Commerce Web site (<http://enforcement.trade.gov/steel/license/>) or completed electronically and emailed or faxed to the Department.
