

independent legal counsel.⁸ We estimate that each of these 1,036 funds would be required to spend, on average, 0.75 hours annually to comply with the recordkeeping requirement associated with this determination, for a total annual burden of approximately 777 hours. Based on this estimate, the total annual cost for all funds' compliance with this rule is approximately \$168,350. To calculate this total annual cost, the Commission staff assumed that approximately two-thirds of the total annual hour burden (518 hours) would be incurred by a compliance manager with an average hourly wage rate of \$292 per hour,⁹ and one-third of the annual hour burden (259 hours) would be incurred by compliance clerk with an average hourly wage rate of \$66 per hour.¹⁰

These burden hour estimates are based upon the Commission staff's experience and discussions with the fund industry. The estimates of average burden hours are made solely for the purposes of the Paperwork Reduction Act. These estimates are not derived from a comprehensive or even a representative survey or study of the costs of Commission rules.

Written comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information has practical utility; (b) the accuracy of the Commission's estimate of the burdens of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burdens of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in

⁸ We assume that the independent directors of the remaining two-thirds of those funds will choose not to have counsel, or will rely on counsel who has not recently represented the fund's management organizations or control persons. In both circumstances, it would not be necessary for the fund's independent directors to make a determination about their counsel's independence.

⁹ The estimated hourly wages used in this PRA analysis were derived from the Securities Industry and Financial Markets Association's Reports on Management and Professional Earnings in the Securities Industry (2013) (modified to account for an 1800-hour work year and multiplied by 5.35 to account for bonuses, firm size, employee benefits and overhead) (adjusted for inflation), and Office Salaries in the Securities Industry (2013) (modified to account for an 1800-hour work year and multiplied by 2.93 to account for bonuses, firm size, employee benefits and overhead) (adjusted for inflation).

¹⁰ $(518 \times \$292/\text{hour}) + (259 \times \$66/\text{hour}) = \$168,350.$
