

§ 403.912(a)(1) to correct the typographical error in the penalty ranges originally established in section 1128G of the Act.

III. Waiver of Proposed Rulemaking and Delay in Effective Date

In accordance with section 553(b) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)), we ordinarily publish a notice of proposed rulemaking in the **Federal Register** to provide for a period of public comment before the provisions of a rule take effect. However, we can waive this notice and comment procedure if the Secretary finds, for good cause, that the notice and comment process is impracticable, unnecessary, or contrary to the public interest, and incorporates a statement of the finding and the reasons therefore in the notice. Section 553(d) of the APA ordinarily requires a 30-day delay in effective date of final rules after the date of their publication in the **Federal Register**. This 30-day delay in effective date can be waived, however, if an agency finds for good cause that the delay is impracticable, unnecessary, or contrary to the public interest, and the agency incorporates a statement of the findings and its reasons in the rule issued.

We believe that this document does not constitute a rulemaking that would be subject to the requirement for a public comment period. Specifically, we find that undertaking further notice and comment procedures to correct the IFR in unnecessary and contrary to public interest.

First, we believe it is unnecessary to allow for public comment regarding whether to correct a misstated penalty range that is inconsistent with, and exponentially higher than, that permitted by the authorizing statute. As noted previously, this correcting amendment merely corrects a typographical error in the base penalty range to which the inflation increase implemented by the IFR would be applied. This correction is necessary to ensure that the base penalty range does not exceed the range authorized under section 1128G(b)(1)(A) of the Act, as adjusted under the Inflation Adjustment Act. Public comment on this correction amendment is unnecessary because it could never change the statutory penalty range at issue. We note that the IFR never indicated that we were increasing the base penalty range identified in this or any other civil money penalty authority. In fact, on page 61548 of the IFR, we indicated that the new inflation adjusted penalty range under § 403.912(a) would be from \$1,087 to \$10,874 per unreported

arrangement, up to a calendar year cap of \$163,117. Furthermore, we note that the erroneous base range stated on page 61561 of the IFR makes little sense in light of the statutory calendar year cap for this penalty. Under the original base penalty range, CMS could impose the minimum penalty of \$1,000 for up to 150 unreported arrangements. Under the erroneous regulations text in the IFR, CMS would be permitted to impose the minimum penalty amount of \$10,000 for only a maximum of 16 unreported arrangements. Even if we had the statutory authority to increase the base penalty range through rulemaking, the maximum penalty amount erroneously stated in the IFR is patently inconsistent with one of the stated policies of the IFR—to maintain the deterrent effect of civil money penalties. Second, we believe that providing an opportunity for public comment on this correcting amendment is contrary to the public interest. First, as noted previously, public comment in this case could never change the statutory penalty range at issue. We believe that it would not be in the public interest to offer a futile comment period. Second, the entities subject to civil money penalties authorized under section 1128G(b) of the Act should be advised, in a timely manner, of the correct amounts for which they could be liable. It is in the public interest to ensure that the regulations accurately reflect the statutory authority.

For similar reasons, we are also waiving the 30-day delay in effective date for this correcting amendment. First, we believe it is unnecessary to delay the effective date of corrections to a typographical error in regulation text that was patently inconsistent with the relevant statutory authority. Second, we believe that delaying the effective date of these corrections would be contrary to the public interest because the entities subject to civil money penalties should be advised, in a timely manner, of the correct amounts for which they could be liable. Therefore, we find good cause to waive the 30-day delay in effective date.

Finally, the corrections indicated in this correcting amendment are applicable to civil monetary penalties as if they had been included in the IFR. That is, the corrections are applicable to civil money penalties imposed under § 403.912(a)(1) beginning September 6, 2016, the date the IFR became effective. We do not believe this correcting amendment constitutes retroactive rulemaking because the erroneous base penalty range was never authorized under section 1128G(b) of the Act. In addition, we have not imposed any

penalties under § 403.912(a)(1) since the effective date of the IFR.

Under the Commission's existing rules, a noncommercial educational (NCE) broadcast station may not conduct fundraising activities to benefit any entity besides the station itself if the activities would substantially alter or suspend regular programming. The Report and Order relaxes the rules to allow NCE stations to spend up to one percent of their total annual airtime conducting on-air fundraising activities that interrupt regular programming for the benefit of third-party non-profit organizations.

The following is a description of the information collection requirements for

which the Commission received OMB approval:

Audience disclosure: Pursuant to 47 CFR 73.503(e)(1), a noncommercial educational FM broadcast station that interrupts regular programming to conduct fundraising activities on behalf of third-party non-profit organizations must air a disclosure during such activities clearly stating that the fundraiser is not for the benefit of the station itself and identifying the entity for which it is fundraising. Pursuant to 47 CFR 73.621(f)(1), a noncommercial educational TV broadcast station that interrupts regular programming to conduct fundraising activities on behalf of third-party non-profit organizations must air a disclosure during such activities clearly stating that the fundraiser is not for the benefit of the station itself and identifying the entity for which it is fundraising. The audience disclosure must be aired at the beginning and the end of each fundraising program and at least once during each hour in which the program is on the air.

Retention of information on fundraising activities in local public inspection file: Pursuant to 47 CFR 73.3527(e)(14), each noncommercial educational FM broadcast station and noncommercial educational TV broadcast station that interrupts regular programming to conduct fundraising activities on behalf of a third-party non-profit organization must place in its local public inspection file, on a quarterly basis, the following information for each third-party fundraising program or activity: The date, time, and duration of the fundraiser; the type of fundraising activity; the name of the non-profit organization benefitted by the fundraiser; a brief description of the specific cause or project, if any, supported by the fundraiser; and, to the extent that the station participated in tallying or receiving any funds for the non-profit group, an approximation, to the nearest \$10,000, of the total funds raised. The information for each calendar quarter is to be filed by the tenth day of the succeeding calendar quarter (e.g., January 10 for the quarter October-December, April 10 for the quarter January-March, etc.).
