SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection:

Application for Fee or Roster Personnel (Appraisers and Inspectors) Designation and Appraisal Reports.

OMB Approval Number: 2502-0538.

Type of Request: Extension.

Form Number: HUD 92563A, HUD92563I, HUD 92564-CN, Fannie Mae Forms: 1004, 1004c, 1025, 1073, 1075, 2055 and 1004MC.

Description of the Need for the Information and Proposed Use: Accurate and thorough Appraisal reporting is critical to the accuracy of underwriting for the mortgage insurance process. The need for accuracy is increased for FHA insured mortgage since buyers tend to have more limited income and lower equity in the properties. This collection of information provides a more thorough and complete appraisal of prospective HUD-insured single-family properties ensuring that mortgages are acceptable for FHA insurance and thereby protect the interest of HUD, the taxpayers, and the FHA insurance fund. The collection allows HUD to maintain an effective appraisal program with the ability to discipline appraisers and inform potential homeowners of the benefits of purchasing an independent home inspection.

Respondents: Business or other for profit.

Estimated Number of Respondents: 21,315.

Estimated Number of Responses: 524,815.

Frequency of Response: On occasion.

Average Hours per Response: .05.

Total Estimated Burdens: 26,240.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of

information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Abstract: Various Federal and Indian mineral leasing statutes authorize the BLM to grant and manage onshore oil and gas leases on Federal and Indian (except Osage Tribe) lands. In order to fulfill its responsibilities under these statutes, the BLM needs to perform the information collection (IC) activities set forth in the regulations at 43 CFR parts 3160 and 3170, and in onshore oil and gas orders promulgated in accordance with 43 CFR 3164.1. The BLM requests renewal of this control number. The BLM also requests revision of this control number as the result of the rules and the order that are listed in the following table:

RECENT BLM ACTIONS THAT AFFECT IC ACTIVITIES IN CONTROL NO. 1004-0137

Title of order or rule	Regulatory information No.	Federal Register citation	Control No.
Onshore Oil and Gas Operations; Federal and Indian Oil and Gas Leases; Onshore Oil and Gas Order Number 1, Approval of Operations (Final Order).	RIN 1004-AE37	82 FR 2906 (Jan. 10, 2017) ...	1004-0213 (expires March 31, 2020).
Onshore Oil and Gas Operations; Federal and Indian Oil and Gas Leases; Site Security (Final Rule).	RIN 1004-AE15	81 FR 81356 (Nov. 17, 2016)	1004-0207 (expires Jan. 31, 2020).
Onshore Oil and Gas Operations; Federal and Indian Oil and Gas Leases; Measurement of Oil (Final Rule).	RIN 1004-AE16	81 FR 81462 (Nov. 17, 2016)	1004-0209 (expires Jan. 31, 2020).
Waste Prevention, Production Subject to Royalties, and Resource Conservation (Final Rule).	RIN 1004-AE14	81 FR 83008 (Nov. 18, 2016)	1004-0211 (expires Jan. 31, 2018).

We are requesting that additions be made to control number 1004-0137 as a result of the rules on approval of operations, site security, and measurement of oil. We are also requesting removal of a historic IC activity ("Gas Flaring") from control number 1004-0137 because the waste prevention rule removed the regulatory authority for that activity.

In addition to the rules and order listed above, we take note of a recent BLM rule on hydraulic fracturing and a recent federal district court ruling. On June 21, 2016, the U.S. District Court for the District of Wyoming set aside a BLM rule on hydraulic fracturing (80 FR 16128 (March 26, 2015)). See *Wyoming v. U.S. Department of the Interior*, Order on Petition for review of Final Agency Action, Case No. 2:15-CV-043-SWS (D. Wyo.). Previously, the court had issued

an order postponing the effective date of the rule. Thus, the rule never became effective, and its pre-approved control number (1004-0203) has never been activated. As a result, we are requesting continuation of the IC activity that would have been discontinued (and would have been replaced with new regulations on hydraulic fracturing) had the final rule become effective. That IC activity (i.e., collection of information on nonroutine fracturing jobs) does not at present appear on the list of IC activities authorized under 43 CFR 3162.3-2 ("Subsequent Well Operations"). However, we intend to conduct a rulemaking in the near future to correct that omission.
