

build, operate, and maintain the NPSBN.

Additionally, the Act specifies that these required consultations occur between FirstNet and the single point of contact (SPOC) that the state designated in its original SLIGP grant application.⁶ The original SLIGP award provided recipients needed funding to support their engagement in consultations as required of FirstNet under the Act.

SLIGP 2.0

With an available balance of up to \$43.4 million from the original SLIGP fund of \$116.5 million, NTIA will continue to provide funding through SLIGP 2.0 grants to assist State, regional, tribal, and local jurisdictions to engage effectively with FirstNet and provide it with information needed to continue with planning the NPSBN and the deployment of the Radio Access Network (RAN) in an effective and timely manner, as required by the Act.

To ensure effective grant oversight and management, SLIGP developed a quarterly performance progress report (PPR) form for recipients to complete as part of post-award monitoring throughout the period of performance of the SLIGP 2.0 grant. The PPRs are critical to the success of the program and provide key insights into how grant funds are being used. Recipients are asked to report on progress toward program priority areas, which include, individuals sent to broadband conferences, staff hired, contracts executed, governance meetings held, and stakeholder events convened, as well as financial expenditures by cost category. NTIA seeks Office of Management Budget (OMB) approval of this form. NTIA will use the collection of information to ensure that SLIGP 2.0 grant recipients are effectively monitored and evaluated against the core purposes of the program established by the Act.
