

II. Background

In accordance with the Government Performance and Results (GPRA) Modernization Act of 2010, agencies are required to submit their strategic plans to Congress the year following the start of a Presidential term. The Commission has approved a draft Strategic Plan and is now seeking comments from the public so that the agency may benefit from a wide range of stakeholder input to help shape the NRC's strategic direction for the upcoming planning period.

III. Draft Strategic Plan

The NRC is an independent agency established by the Energy Reorganization Act of 1974 that began operations in 1975 as a successor to the Atomic Energy Commission. The NRC's mission is to license and regulate the Nation's civilian use of radioactive materials to provide reasonable assurance of adequate protection of public health and safety and to promote the common defense and security and to protect the environment. The draft Strategic Plan, covering the period Fiscal Years 2018–2022, describes how the NRC plans to achieve its two strategic goals: (1) Ensure the safe use of radioactive materials, and (2) ensure the secure use of radioactive materials. The draft Strategic Plan provides an overview of the NRC's responsibilities and lays out the objectives, strategies, and key activities that will be used to achieve the agency's strategic goals.

The NRC encourages all interested parties to comment on the draft Strategic Plan, particularly on the plan's goals, objectives, and strategies. Stakeholder feedback will be valuable in helping the Commission develop a final Strategic Plan that has the benefit of the many views of the public and the regulated civilian nuclear industry. The NRC will consider the comments submitted and may use them, as appropriate, in the preparation of the final Strategic Plan; however, the NRC does not anticipate preparing explicit responses to each comment.
