

minimum stock size threshold (MSST). NMFS informed the South Atlantic Fishery Management Council that they must take action to end overfishing immediately on this stock and implement conservation and management measures to rebuild it.

NMFS has determined that the Gulf of Mexico greater amberjack is subject to overfishing. This determination is based on the most recent assessment (SEDAR 33 Update), finalized in 2016, using data through 2015. This assessment supports a finding of subject to overfishing because the current estimate of F is above the MFMT. This stock remains overfished because the spawning stock biomass estimate is less than the MSST. NMFS informed the Gulf of Mexico Fishery Management Council that they must take action to end overfishing immediately on this stock and implement conservation and management measures to rebuild it.

NMFS has determined that Northwestern Atlantic witch flounder is still overfished and the overfishing status is unknown. The assessment peer review panel for this stock rejected the most recent benchmark assessment, finalized in 2017, using data through 2015. However, this stock is at historical low levels and other signs of poor stock condition support this stock remaining listed as overfished. Lack of similar reliable indicators for overfishing status support changing the overfishing status of this stock to unknown. NMFS has notified the New England Fishery Management Council that they must implement conservation and management measures to rebuild this stock.

Dated: September 22, 2017.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Non-Commercial Permit and Reporting Requirements in the Main Hawaiian Islands Bottomfish Fishery

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing

effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before November 27, 2017.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at pracomments@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Walter Ikehara, (808) 725-5175 or Walter.Ikehara@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

Regulations at 50 CFR 665, Subpart C, require that all participants (including vessel owners, operators, and crew) in the boat-based non-commercial bottomfish fishery in the Exclusive Economic Zone around the main Hawaiian Islands obtain a federal bottomfish permit. This collection of information is needed for permit issuance, to identify actual or potential participants in the fishery, determine qualifications for permits, and to help measure the impacts of management controls on the participants in the fishery. The permit program is also an effective tool in the enforcement of fishery regulations and serves as a link between the National Marine Fisheries Service (NMFS) and fishermen.

Regulations at 50 CFR 665 require that all vessel owners or operators in this fishery submit a completed logbook form at the completion of each fishing trip. These logbook reporting sheets document the species and amount of species caught during the trip. The reporting requirements are crucial to ensure that NMFS and the Western Pacific Fishery Management Council (Council) will be able to monitor the fishery and have fishery-dependent information to develop an Annual Catch Limit for the fishery, evaluate the effectiveness of management measures, determine whether changes in fishery management programs are necessary, and estimate the impacts and implications of alternative management measures.

II. Method of Collection

Respondents have a choice of either electronic or paper forms. Methods of submittal include email of electronic forms, and mail and facsimile transmission of paper forms.

III. Data

OMB Control Number: 0648-0577.

Form Number: None.

Type of Review: Regular submission (extension of a currently approved collection).

Affected Public: Individuals or small businesses.

Estimated Number of Respondents: 100.

Estimated Time per Response: 10 minutes per paper permit application; 5 minutes per online permit application; 2 hours per appeal of denied permit; 20 minutes per trip report logsheet.

Estimated Total Annual Burden Hours: 98.

Estimated Total Annual Cost to Public: \$3,850 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: September 22, 2017.

Sarah Brabson,

NOAA PRA Clearance Officer.
