

Title 49 of the United States Code, Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace at Forrest General Hospital Heliport, Hattiesburg, MS, to support IFR operations under standard instrument approach procedures at the heliport.

History

The FAA published a notice of proposed rulemaking (NPRM) in the **Federal Register** (82 FR 27448, June 15, 2017) Docket No. FAA-2017-0321 to establish Class E airspace extending upward from 700 feet above the surface at Forrest General Hospital Heliport, Hattiesburg, MS, due to the new RNAV (GPS) standard instrument approach procedures for IFR operations at the heliport. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by establishing Class E airspace extending upward from 700 feet above the surface within a 6 mile radius of Forrest General Hospital Heliport, Hattiesburg, MS. This

action provides the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedures for IFR operations at the Heliport.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Adoption of the Amendment

In consideration of the foregoing, the FAA amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

- 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

- 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, effective September 15, 2017, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

Updated Statements of Legal Authority for the Export Administration Regulations

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: This rule updates the Code of Federal Regulations (CFR) legal authority paragraphs in the Export Administration Regulations (EAR) to cite the most recent Presidential notice continuing a national emergency declared pursuant to the International Emergency Economic Powers Act. This is a procedural, non-substantive rule that only updates authority paragraphs of the EAR. It does not alter any right, obligation or prohibition that applies to any person under the EAR.

DATES: The rule is effective October 3, 2017.

FOR FURTHER INFORMATION CONTACT:

Nancy Kook, Regulatory Policy Division, Bureau of Industry and Security, Telephone: (202) 482-2440.

SUPPLEMENTARY INFORMATION:

Background

The authority for all parts of the EAR (15 CFR parts 730-774) other than part 745 rests, in part, on Executive Order 13222 of August 17, 2001—National Emergency with Respect to Export Control Regulations, 66 FR 44025, 3

CFR, 2001 Comp., p. 783 and on annual presidential notices continuing the national emergency which was declared in that executive order pursuant to the International Emergency Economic Powers Act. This rule revises the authority paragraphs for the 23 affected parts of the EAR to remove references to the previous notice and add references to the most recent such notice, which the President signed on August 15, 2017.

This rule is purely procedural and makes no changes other than to revise CFR authority paragraphs for the purpose of making the authority citations current. It does not change the text of any section of the EAR, nor does it alter any right, obligation or prohibition that applies to any person under the EAR.

Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). This rule does not impose any regulatory burden on the public and is consistent with the goals of Executive Order 13563. This rule has been determined to be not significant for purposes of Executive Order 12866. This rule is not an Executive Order 13771 regulatory action because this rule is not significant under Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This rule does not involve any collection of information.

3. This rule does not contain policies with Federalism implications as that term is defined under Executive Order 13132.

4. The Department finds that there is good cause under 5 U.S.C. 553(b)(B) to waive the provisions of the Administrative Procedure Act requiring prior notice and the opportunity for public comment because they are unnecessary. This rule only updates legal authority citations. It clarifies information and is non-discretionary. This rule does not alter any right,

obligation or prohibition that applies to any person under the EAR. Because these revisions are not substantive changes, it is unnecessary to provide notice and opportunity for public comment. In addition, the 30-day delay in effectiveness otherwise required by 5 U.S.C. 553(d) is not applicable because this rule is not a substantive rule. Because neither the Administrative Procedure Act nor any other law requires that notice of proposed rulemaking and an opportunity for public comment be given for this rule, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Accordingly, no Final Regulatory Flexibility Analysis is required and none has been prepared.

[Docket ID: BOEM-2010-0041; MMAA104000]

RIN 1010-AD90

Negotiated Noncompetitive Agreements for the Use of Sand, Gravel, and/or Shell Resources on the Outer Continental Shelf

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Final rule.

SUMMARY: This final rule establishes new regulations to address the use of Outer Continental Shelf (OCS) sand, gravel, and/or shell resources for shore protection, beach restoration, or coastal wetlands restoration projects by Federal, state, or local government agencies, and for use in construction projects authorized by or funded in whole or in part by the Federal Government. The final rule describes the negotiated noncompetitive agreement process for qualifying projects and codifies new and existing procedures.

DATES: This rule is effective December 4, 2017.

FOR FURTHER INFORMATION CONTACT: Deanna Meyer-Pietruszka, Chief, Office of Policy, Regulations, and Analysis, Bureau of Ocean Energy Management, at: deanna.meyer-pietruszka@boem.gov or 202-208-6352.

SUPPLEMENTARY INFORMATION: On March 22, 2016, the Bureau of Ocean Energy Management (BOEM) published in the **Federal Register** (81 FR 15190) a proposed rule entitled “Negotiated Noncompetitive Leasing for the Use of Sand, Gravel, and Shell Resources on the Outer Continental Shelf.” BOEM received comments from 8 individuals and organizations. BOEM reviewed these comments, categorized and organized them by subject, and has provided responses to those substantive comments in Section III below. These comments are available for viewing in their original form on www.regulations.gov by searching for the term: “BOEM AD90.” BOEM also renumbered the sections contained in the proposed rule to facilitate any later amendments that may be necessary. Finally, BOEM altered the title of the proposed rule by replacing “Leasing” with “Agreements” to more accurately reflect the types of instruments BOEM uses to convey offshore sand, gravel, and/or shell resources (*i.e.* leases or

memoranda of agreement, as described below).

I. Background

Congress amended the Outer Continental Shelf Lands Act, 43 U.S.C. 1331–1356 (OCSLA), in 1994 to authorize the Secretary of the Interior to negotiate noncompetitive agreements with any person for the use of OCS sand, gravel, and/or shell resources in a program of, or project for, shore protection, beach restoration, or coastal wetlands restoration undertaken by a Federal, state, or local government agency, or in a construction project either authorized by, or funded in whole or in part by the Federal Government. See 43 U.S.C. 1337(k)(2). In negotiating an agreement for use of the OCS sand, gravel, and/or shell resources, OCSLA provides that “the Secretary may assess a fee based on an assessment of the value of the resources and the public interest served by promoting development of the resources.” However, the same provision of OCSLA also states that no fee will be assessed directly or indirectly against a Federal, state, or local government agency. See 43 U.S.C. 1337(k)(2)(B).

A. Program Description

Generally, shore protection and beach and coastal wetlands restoration projects are initiated to rebuild eroding shoreline segments, such as beaches and dunes, barrier islands, and wetlands. In sensitive wetland areas, these projects are intended to forestall further erosion, restore habitat and/or to provide protection from hurricanes and storms. These projects are typically accomplished by placing sand, gravel, or shell resources directly on the beach, in open water areas that are the location of an eroded beach, and/or within breaches in the shoreline that compromise the integrity of the beach or barrier island system or its capacity to form, and subsequently maintain, a beach. Material may also be placed updrift from the beach, allowing longshore processes to redistribute the
