

respondents, proposed frequency of response, and estimated total burden may be obtained free of charge from the *RegInfo.gov* Web site at http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201708-1219-005 or by contacting Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Submit comments about this request by mail to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL-MSHA, Office of Management and Budget, Room 10235, 725 17th Street NW., Washington, DC 20503; by Fax: 202-395-5806 (this is not a toll-free number); or by email: OIRA_submission@omb.eop.gov. Commenters are encouraged, but not required, to send a courtesy copy of any comments by mail or courier to the U.S. Department of Labor-OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW., Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT: Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Mine Accident, Injury, and Illness Report and Quarterly Mine Employment and Coal Production Report information collection. The reporting and recordkeeping provisions in regulations 30 CFR part 50, Notification, Investigation, Reports and Records of Accidents, Injuries and Illnesses, Employment and Coal Production in Mines, are essential elements in the MSHA's Congressional mandate to reduce work-related injuries and illnesses among the nation's miners. Accident, injury, and illness data, when correlated with employment and production data, provide information that allows the MSHA to improve its safety and health enforcement programs, focus its education and training efforts, and establish priorities for its technical assistance activities in mine safety and health. Maintaining a current database allows the MSHA to identify and direct increased attention to those mines, industry segments, and geographical areas where hazardous trends are developing. This could not be done effectively using historical data. The information collected under part 50 is the most comprehensive and reliable occupational data available concerning

the mining industry. The Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 813(h), 30 U.S.C. 811(a).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0007.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the *Federal Register* on June 16, 2017 (82 FR 27727).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the *Federal Register*. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0007. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL-MSHA.

Title of Collection: Mine Accident, Injury, and Illness Report and Quarterly Mine Employment and Coal Production Report.

OMB Control Number: 1219-0007.

Affected Public: Private Sector—businesses or other for-profits.

Total Estimated Number of Respondents: 24,958.

Total Estimated Number of Responses: 118,417.

Total Estimated Annual Time Burden: 162,326 hours.

Total Estimated Annual Other Costs Burden: \$2,847.

Authority: 44 U.S.C. 3507(a)(1)(D).

Dated: September 28, 2017.

Michel Smyth,

Departmental Clearance Officer.

MILLENNIUM CHALLENGE CORPORATION

[MCC FR 17-06]

Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance in Fiscal Year 2018

AGENCY: Millennium Challenge Corporation.

ACTION: Notice.

SUMMARY: This report to Congress is provided in accordance with Section 608(b) of the Millennium Challenge Act of 2003, as amended, (the "Act").

Dated: September 29, 2017.

Jeanne M. Hauch,

VP/General Counsel and Corporate Secretary, Millennium Challenge Corporation.

Report on the Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance for Fiscal Year 2018

Summary

In accordance with section 608(b)(2) of the Millennium Challenge Act of 2003 (the "Act," 22 U.S.C. 7707(b)(1)), the Millennium Challenge Corporation (MCC) is submitting the enclosed report. This report identifies the criteria and methodology that MCC intends to use to determine which candidate countries may be eligible to be considered for

assistance under the Act for fiscal year 2018.

Under section 608 (c)(1) of the Act, MCC will, for a thirty-day period following publication, accept and consider public comment for purposes of determining eligible countries under section 607 of the Act (22 U.S.C. 7706).

Criteria and Methodology for FY 2018

This document explains how the Board of Directors (Board) of the Millennium Challenge Corporation (MCC) will identify, evaluate, and select eligible countries for fiscal year (FY) 2018. The statutory basis for this report is set forth in Appendix A. Specifically, this document discusses:

- I. Which countries MCC will evaluate
- II. How the Board evaluates these countries
 - A. Overall
 - B. For Selection for First Compact Eligibility
 - C. For Selection for Second/ Subsequent Compact Eligibility
 - D. For Threshold Program Assistance
 - E. A Note on Potential Regional Investments
 - F. A Note on Potential Transition to Upper Middle Income Country (UMIC) Status After Initial Selection

I. Which countries are evaluated?

MCC evaluates all low-income countries (LICs) and lower-middle income countries (LMICs) as follows:

- For scorecard evaluation purposes for FY 2018, MCC defines LICs as those countries between \$0 and \$1,905 GNI per capita, and LMICs as those countries between \$1,906 and \$3,955 GNI per capita.¹
- For funding purposes for FY 2018, MCC defines the poorest 75 countries as LICs, and the remaining countries up to the UMIC threshold of \$3,955 as LMICs.²

In Appendix B, lists of all LICs, LMICs and statutorily prohibited countries for scorecard evaluation purposes are provided. The list using the “funding” definition was outlined in the August 2017 Report on Countries that are Candidates for Millennium Challenge Account Eligibility for Fiscal Year 2018 and Countries that Would be Candidates but for Legal Prohibitions (the “Candidate Country Report”), and describes how funding categories work.

¹ This corresponds to LIC and LMIC definitions using the historic International Development Association (IDA) thresholds published by the World Bank.

² By law, no more than 25 percent of all compact funds for a given fiscal year may be provided to LMIC countries (using this “funding” definition).

II. How does the Board evaluate these countries?

A. Overall Evaluation

The Board looks at three legislatively-mandated factors in its evaluation of any candidate country for compact eligibility: (1) Policy performance; (2) the opportunity to reduce poverty and generate economic growth; and (3) the availability of MCC funds.

1. Policy Performance

Because of the importance of needing to evaluate a country’s policy performance and needing to do so in a comparable, cross-country way, the Board relies to the maximum extent possible upon the best-available objective and quantifiable indicators of policy performance. These indicators act as proxies of the country’s commitment to just and democratic governance, economic freedom, and investing in its people, as laid out in MCC’s founding legislation. Comprised of 20 third-party indicators in the categories of “encouraging economic freedom,” “investing in people,” and “ruling justly,” MCC “scorecards” are created for all LICs and LMICs. To “pass” the indicators on the scorecard, the country must perform above the median among its income group (as defined above for scorecard evaluation purposes), except in the cases of inflation, political rights, civil liberties, and immunization rates (LMICs only), where threshold scores have been established. In particular, the Board considers whether the country:

- Passed at least 10 of the 20 indicators, with at least one in each category,
- Passed either the Political Rights or Civil Liberties indicator, and
- Passed the Control of Corruption indicator.

While satisfaction of all three aspects means a country is termed to have “passed” the scorecard, the Board also considers whether the country performed “substantially worse” in any one policy category than it does on the scorecard overall. Appendix C describes all 20 indicators, their definitions, what is required to “pass,” their source, and their relationship to the legislative criteria.

The mandatory passing of either the Political Rights or Civil Liberties indicators is called the Democratic Rights “hard hurdle” on the scorecard, while the mandatory passing of the Control of Corruption indicator is called the Control of Corruption “hard hurdle.” Not passing either “hard hurdle” results in not passing the scorecard overall, regardless of whether

at least 10 of the 20 other indicators are passed.

- Democratic Rights “hard hurdle:” This hurdle sets a minimum bar for democratic rights below which the Board will not consider a country for eligibility. Requiring that a country pass either the Political Rights or Civil Liberties indicator creates a democratic incentive for countries, recognizes the importance democracy plays in driving poverty-reducing economic growth, and holds MCC accountable to working with the best governed, poorest countries. When a candidate country is only passing one of the two indicators comprising the hurdle (instead of both), the Board will also closely examine why it is not passing the other indicator to understand what the score implies for the broader democratic environment and trajectory of the country. This examination will include consultation with both local and international civil society experts, among others.

- Control of Corruption “hard hurdle:” Corruption in any country is an unacceptable tax on economic growth and an obstacle to the private sector investment needed to reduce poverty. Accordingly, MCC seeks out partner countries that are committed to combatting corruption. It is for this reason that MCC also has the Control of Corruption “hard hurdle,” which helps ensure that MCC is working with countries where there is relatively strong performance in controlling corruption. Requiring the passage of the indicator provides an incentive for countries to demonstrate a clear commitment to controlling corruption, and allows MCC to better understand the issue by seeing how the country performs relative to its peers and over time.

Together, the 20 policy performance indicators are the predominant basis for determining which eligible countries will be selected for MCC assistance, and the Board expects a country to be passing its scorecard at the point the Board decides to select the country for either a first or second/subsequent compact. However, the Board also recognizes that even the best-available data has inherent challenges. For example, data gaps, real-time events versus data lags, the absence of narratives and nuanced detail, and other similar weaknesses affect each of these indicators. In such instances, the Board uses its judgment to interpret policy performance as measured by the scorecards. The Board may also consult other sources of information to further enhance its understanding of a given country’s policy performance beyond the issues on the scorecard, which is

especially useful given the unique perspective of each Board member (*e.g.*, specific policy issues related to trade, civil society, other U.S. aid programs, financial sector performance, and security/foreign policy issues). The Board uses its judgment on how best to weigh such information in assessing overall policy performance.

2. The Opportunity To Reduce Poverty and Generate Economic Growth

The Board also consults other sources of qualitative and quantitative information to have a more detailed view of the opportunity to reduce poverty and generate economic growth in a country.

While the Board considers a range of other information sources depending on the country, specific areas of attention typically include better understanding the issues on, trends in, and trajectory of:

- The state of democratic and human rights (especially of vulnerable groups³);
- The perspective of civil society on salient governance issues;
- The control of corruption and rule of law;
- The potential for the private sector (both local and foreign) to lead investment and growth;
- The levels of poverty within a country; and
- The country's institutional capacity.

Where applicable, the Board also considers MCC's own experience and ability to reduce poverty and generate economic growth in a given country—such as considering MCC's core skills versus the country's needs, capacity within MCC to work with a country, and the likelihood that MCC is seen by the country as a credible partner.

This information provides greater clarity on the likelihood that MCC investments will have an appreciable impact on reducing poverty and generating economic growth in a given country. The Board has used such information both to *not* select countries that are otherwise passing their scorecards, as well as to better understand when a country's performance on a particular indicator may not be up to date or is about to change. More details on this subject (sometimes referred to as “supplemental information”) can be found on MCC's Web site.

3. The Availability of MCC Funds

The final factor that the Board must consider when evaluating countries is

the funding available. The agency's allocation of its budget is constrained, and often specifically limited, by provisions in the authorizing legislation and appropriations acts. MCC has a continuous pipeline of countries in compact development, compact implementation, and compact closeout, as well as threshold programs. Consequently, the Board factors in the overall portfolio picture when making its selection decisions given the funding available for each of the agency's planned or existing programs.

* * * * *

The following subsections describe how each of these three legislatively-mandated factors are applied with regard to the selection situations the Board encounters each December: selection of countries for first compact eligibility, selection of countries for second/subsequent compact eligibility, and selection of countries for the threshold program. Thereafter, notes are included on consideration of countries for potential regional investments, and issues for consideration for countries that might graduate to upper middle income country status after initial selection.

B. Evaluation for Selection of Countries for First Compact Eligibility

When selecting eligible countries, the Board looks at all three legislatively-mandated aspects described in the previous section: (1) Policy performance, first and foremost as measured by the scorecards and bolstered through additional information (as described in the previous section); (2) the opportunity to reduce poverty and generate economic growth, examined through the use of other supporting information (as described in the previous section); and (3) the funding available.

At a minimum, the Board looks to see that the country passes its scorecard. It also examines supporting evidence that the country's commitment to just and democratic governance, economic freedom, and investing in its people is on a sound footing and performance is on a positive trajectory (especially on the ‘hard hurdles’ of Democratic Rights and Control of Corruption, as described in the previous section), and that MCC has funding to support a meaningful compact with that country. Where applicable, previous threshold program information is also considered. The Board then weighs the information described above across each of the three dimensions.

The approach described above is then applied in any additional years of selection of a country to continue to

develop a first compact, with the added benefit of having cumulative scorecards, cumulative records of policy performance, and other accumulated supporting information to determine the overall pattern of performance over the emerging multi-year trajectory.

C. Evaluation for Selection of Countries for Second/Subsequent Compact Eligibility

Section 609(k) of the Millennium Challenge Act of 2003, as amended, specifically authorizes MCC to enter into “one or more subsequent Compacts.” MCC does not consider subsequent compact eligibility, however, before countries have completed their compact or are within 18 months of completion, (*e.g.*, a second compact if they have completed or are within 18 months of completing their first compact). Selection for subsequent compacts is not automatic and is intended only for countries that (1) exhibit successful performance on their previous compact; (2) exhibit improved scorecard policy performance during the partnership; and (3) exhibit a continued commitment to further their sector reform efforts in any subsequent partnership. As a result, the Board has an even higher standard when selecting countries for subsequent compacts.

1. Successful Implementation of the Previous Compact

To evaluate the degree of success of the previous compact, the Board looks to see if there is a clear evidence base of success within the budget and time limits of the compact, in particular by looking at three aspects:

- The degree to which there is evidence of strong political will and management capacity: Is the partnership characterized by the country ensuring that both policy reforms and the compact program itself are both being implemented to the best ability that the country can deliver;
- The degree to which the country has exhibited commitment and capacity to achieve program results: Are the financial and project results being achieved; to what degree is the country committing its own resources to ensure the compact is a success; to what extent is the private sector engaged (if relevant); and other compact-specific issues; and
- The degree to which the country has implemented the compact in accordance with MCC's core policies and standards: That is, is the country adhering to MCC's policies and procedures, including in critical areas such as remediating unresolved fraud and corruption and abuse or misuse of

³ For example, women; children; lesbian, gay, bisexual, and transgender individuals; people with disabilities; and workers.

funds issues; procurement; and monitoring and evaluation.

Details on the specific types of information examined (and sources used) in each of the three areas are provided in Appendix D. Overall, the Board is looking for evidence that the previous compact will be completed or has been completed successfully, on time and on budget, and that there is a commitment to continued, robust reform going forward.

2. Improved Scorecard Policy Performance

Beyond successful implementation of the previous compact, the Board expects the country to have improved its overall scorecard policy performance during the partnership, and to pass the scorecard in the year of selection for the subsequent compact. The Board focuses on:

- The overall scorecard pass/fail rate over time, what this suggests about underlying policy performance, as well as an examination of the underlying reasons;

- The progress over time on policy areas measured by both hard-hurdle indicators—Democratic Rights and Control of Corruption—including an examination of the underlying reasons; and

- Other indicator trajectories as deemed relevant by the Board.

In all cases, while the Board expects the country to be passing its scorecard, other sources of information are examined to understand the nuance and reasons behind scorecard or indicator performance over time, including any real-time updates, methodological changes within the indicators themselves, shifts in the relevant candidate pool, or alternative policy performance perspectives (such as gleaned through consultations with civil society and related stakeholders). Other sources of information are also consulted to look at policy performance over time in areas not covered by the scorecard, but that are deemed important by the Board (such as trade, foreign policy concerns, etc.).

3. A Commitment To Further Sector Reform

The Board expects that subsequent compacts will endeavor to tackle deeper policy reforms necessary to unlock an identified constraint to growth. Consequently, the Board considers its own experience during the previous compact in considering how committed the country is to reducing poverty and increasing economic growth, and therefore tries to gauge the country's commitment for further sector reform

should it be selected for a subsequent compact. This includes:

- Assessing the country's delivery of policy reform during the previous compact (as described above);

- Assessing expectations of the country's ability and willingness to continue embarking on sector policy reform in a subsequent compact;

- Examining both other sources of information that describe the nature of the opportunity to reduce poverty and generate growth (as outlined in A.2 above), and the relative success of the previous compact overall, as already discussed; and

- Finally, considering how well funding can be leveraged for impact, given the country's experience in the previous compact.

* * * * *

Through this overall approach to subsequent compact selection, the Board applies the three legislatively mandated evaluation criteria (policy performance, the opportunity to reduce poverty and generate economic growth, and the funding available) in a way that rests critically on deeply assessing the previous partnership: From a compact success standpoint, a commitment to improved scorecard policy performance standpoint, and a commitment to continued sector policy reform standpoint. The Board then weighs all of the information described above in making its decision.

The approach described above is then applied in any additional years of selection necessary as the country continues to develop the subsequent compact, with the added benefit of having further detail on previous compact implementation, cumulative scorecards, records of policy performance, and other accumulated supporting information to determine the overall pattern of performance over the resulting multi-year trajectory.

D. Evaluation for Threshold Program Assistance

The Board may also evaluate countries for participation in the Threshold Program. The Threshold Program provides assistance to candidate countries that exhibit a significant commitment to meeting the criteria described in the previous subsections, but fail to meet such requirements. Specifically, in examining the policy performance, the opportunity to reduce poverty and generate economic growth, and the funding available, the Board will consider whether a country that potentially qualifies for threshold program assistance appears to be on a trajectory

to becoming viable for compact eligibility in the medium term.

E. A Note on Potential Regional Investments

FY 2018 marks the third year that the Board may consider selecting countries where potential regional investments (*i.e.*, complementary assistance by MCC to two or more countries in a region) may be developed.

With respect to regional investments, the fundamental criteria and process for selection will remain unchanged: Countries will continue to be evaluated and selected individually, as described in sections A, B, and C above. However, for countries where regional investments might be contemplated, the Board will also examine additional supplemental information looking at the policy environment from a regional dimension.

Specifically, the Board will examine additional data and information related to:

- The current state of the country's political and economic integration with its region and neighbors;
- Impediments to further integration with its region and neighbors; and
- The potential gains from investing at a regional level, including illustrative potential sector opportunities.

The Board will weigh this additional regional information in tandem with the other supplemental factors described earlier in sections A, B, and C. The Board will then decide whether or not it will direct MCC to explore some form of a regional investment with the country.

F. A Note on Potential Transition to Upper Middle Income Country (UMIC) Status After Initial Selection

Some candidate countries may have a high LMIC per capita income and/or a high growth rate that implies there is a chance they could transition to UMIC status during the life of an MCC partnership. In such cases, it is not possible to accurately predict when such a country may or may not transition to UMIC status.

Nonetheless, such countries may have more resources at their disposal for funding their own growth and poverty reduction strategies. As a result, in addition to using the regular selection criteria described in the previous sections, the Board will also use its discretion to assess both the need and the opportunity presented by partnering with such a country, in order to ensure that there is a higher bar for possible selection.

Specifically, if a candidate country with a high probability of transitioning

to UMIC status is under consideration for selection, the Board will examine additional data and information related to:

- Whether the country faces significant challenges accessing other sources of development financing (such as international capital, domestic resources, and other donor assistance) and, if so, examining if MCC grant financing would be an appropriate tool.
- Whether the nature of poverty in the country (for example, high inequality or poverty headcount ratios relative to peer countries) presents a clear and strategic opportunity for MCC to assist the country in reducing such poverty through investments that spur economic growth.

- Whether the country demonstrates particularly strong policy performance, including policies and actions that demonstrate a clear priority on poverty reduction.

- Whether MCC can reasonably expect that the country would contribute a significant amount of funding to the compact.

These additional criteria would then be applied in any additional years of selection as the country continues to develop its compact. Should the country eventually transition to UMIC status during compact development, the country would no longer be a candidate country for that fiscal year. Consequently, continuing the partnership beyond that point would then be at the Board's discretion, and would rely on funding from previous fiscal years from when the country was a candidate country.

Appendix A: Statutory Basis for This Report

This report to Congress is provided in accordance with section 608(b) of the Millennium Challenge Act of 2003, as amended, 22 U.S.C. 7707(b) (the Act).

Section 605 of the Act authorizes the provision of assistance to countries that enter into a Millennium Challenge Compact with the United States to support policies and programs that advance the progress of such countries in achieving lasting economic growth and poverty reduction. The Act requires MCC to take a number of steps in selecting countries for compact assistance for FY 2018 based on the countries' demonstrated commitment to just and democratic governance, economic freedom, and investing in their people, MCC's opportunity to reduce poverty and generate economic growth in the country, and the availability of funds. These steps include the submission of reports to the congressional committees specified in

the Act and publication of information in the **Federal Register** that identify:

1. The countries that are "candidate countries" for assistance for FY 2018 based on per capita income levels and eligibility to receive assistance under U.S. law. (section 608(a) of the Act; 22 U.S.C. 7707(a));

2. The criteria and methodology that MCC's Board of Directors (Board) will use to measure and evaluate policy performance of the candidate countries consistent with the requirements of section 607 of the Act (22 U.S.C. 7706) in order to determine "eligible countries" from among the "candidate countries" (section 608(b) of the Act; 22 U.S.C. 7707(b)); and

3. The list of countries determined by the Board to be "eligible countries" for FY 2018, with justification for eligibility determination and selection for compact negotiation, including those eligible countries with which MCC will seek to enter into compacts (section 608(d) of the Act; 22 U.S.C. 7707(d)).

This report satisfies item 2 above.

Appendix B: Lists of all LICs, LMICs, and Statutorily Prohibited Countries for Evaluation Purposes

Income Classification for Scorecards

Since MCC was created, it has relied on the World Bank's gross national income (GNI) per capita income data (Atlas method) and the historical ceiling for eligibility as set by the World Bank's International Development Association (IDA) to divide countries into two income categories for purposes of creating scorecards: LICs and LMICs. These categories are used to account for the income bias that occurs when countries with more per capita resources perform better than countries with fewer. Using the historical IDA eligibility ceiling for the scorecards ensures that the poorest countries compete with their income level peers and are not compared against countries with more resources to mobilize.

MCC will continue to use the traditional income categories for eligibility to categorize countries in two groups for purposes of FY 2018 scorecard comparisons:

- LICs are countries with GNI per capita below IDA's historical ceiling for eligibility (\$1,905 for FY 2018); and
- LMICs are countries with GNI per capita above IDA's historical ceiling for eligibility but below the World Bank's upper middle income country threshold (\$1,906–\$3,955 for FY 2018).

The list of countries categorized as LICs and LMICs for the purpose of FY

2018 scorecard assessments can be found below.⁴

Low Income Countries (FY 2018 Scorecard)

1. Afghanistan
2. Bangladesh
3. Benin
4. Burkina Faso
5. Burma
6. Burundi
7. Cambodia
8. Cameroon
9. Central African Republic
10. Chad
11. Comoros
12. Democratic Republic of Congo
13. Republic of Congo
14. Côte d'Ivoire
15. Djibouti
16. Eritrea
17. Ethiopia
18. Gambia
19. Ghana
20. Guinea
21. Guinea-Bissau
22. Haiti
23. India
24. Kenya
25. Kyrgyz Republic
26. Lesotho
27. Liberia
28. Madagascar
29. Malawi
30. Mali
31. Mauritania
32. Mozambique
33. Nepal
34. Niger
35. North Korea
36. Pakistan
37. Rwanda
38. São Tomé and Príncipe
39. Senegal
40. Sierra Leone
41. Solomon Islands
42. Somalia
43. South Sudan
44. Syria

⁴ In December 2011, a statutory change requested by MCC altered the way MCC must group countries for the purposes of applying MCC's 25 percent LMIC funding cap. This change, designed to bring stability to the funding stream, affects how MCC funds countries selected for compacts and does not affect the way scorecards are created. For determining whether a country can be funded as an LMIC or LIC:

- The poorest 75 countries are now considered LICs for the purposes of MCC funding. They are not limited by the 25 percent funding cap on LMICs.
- Countries with a GNI per capita above the poorest 75 but below the World Bank's upper middle income country threshold (\$3,955 for FY 2018) are considered LMICs for the purposes of MCC funding. By law, no more than 25 percent of all compact funds for a given fiscal year can be provided to these countries.

The FY 2018 Candidate Country Report lists LICs and LMICs based on this definition and outlines which countries are subject to the 25 percent funding cap.

45. Tajikistan
46. Tanzania
47. Timor-Leste
48. Togo
49. Uganda
50. Yemen
51. Zambia
52. Zimbabwe

Lower Middle Income Countries (FY 2018 Scorecard)

1. Angola
2. Armenia

5. South Sudan
6. Sudan
7. Syria
8. Zimbabwe

Appendix C: Indicator Definitions

The following indicators will be used to measure candidate countries'

⁵ This list is current as of August 1, 2017. Between such date and the December 2017 selection Board meeting, other countries may also be the subject of future statutory restrictions or determinations, or changed country circumstances, that affect their legal eligibility for assistance under part I of the Foreign Assistance Act by reason of application of the Foreign Assistance Act or any other provision of law for FY2018. Even though these countries are prohibited from received assistance, scorecards are still created for them to ensure all countries are included in an income group in order to determine the global medians/scores for that income group.

demonstrated commitment to the criteria found in section 607(b) of the Act. The indicators are intended to assess the degree to which the political and economic conditions in a country serve to promote broad-based sustainable economic growth and reduction of poverty and thus provide a sound environment for the use of MCC funds. The indicators are not goals in themselves; rather, they are proxy measures of policies that are linked to broad-based sustainable economic growth. The indicators were selected based on (i) their relationship to economic growth and poverty reduction; (ii) the number of countries they cover; (iii) transparency and availability; and (iv) relative soundness and objectivity. Where possible, the indicators are developed by independent sources.⁶ Listed below is a brief summary of the indicators (a detailed rationale for the adoption of these indicators can be found in the Public Guide to the Indicators on MCC's public website at www.mcc.gov).

Ruling Justly

1. Political Rights: Independent experts rate countries on the prevalence of free and fair electoral processes; political pluralism and participation of all stakeholders; government accountability and transparency; freedom from domination by the military, foreign powers, totalitarian parties, religious hierarchies and economic oligarchies; and the political rights of minority groups, among other things. Pass: Score must be above the minimum score of 17 out of 40. Source: Freedom House

2. Civil Liberties: Independent experts rate countries on freedom of expression and belief; association and organizational rights; rule of law and human rights; and personal autonomy and economic rights, among other things. Pass: Score must be above the minimum score of 25 out of 60. Source: Freedom House

3. Freedom of Information: Measures the legal and practical steps taken by a government to enable or allow information to move freely through society; this includes measures of press

⁶ Special note on Kosovo: Since UN agencies do not currently publish data for Kosovo due to non-recognition status, MCC is unable to source data directly from the UN for the six indicators that are constructed in all or in part from this data: Land Rights and Access, Health Expenditures, Primary Education Expenditures, Immunization Rates, Girls' Secondary Education Enrollment Rate, and Child Health. As result, MCC publishes data from UNKT (the UN Kosovo Team) in cases where UNKT uses comparable methodologies to their UN sister organizations. See <http://www.unkt.org/> for more information.

freedom, national freedom of information laws, and the extent to which a country is filtering internet content or tools. Pass: Score must be above the median score for the income group. Source: Freedom House/Centre for Law and Democracy.

4. Government Effectiveness: An index of surveys and expert assessments that rate countries on the quality of public service provision; civil servants' competency and independence from political pressures; and the government's ability to plan and implement sound policies, among other things. Pass: Score must be above the median score for the income group. Source: Worldwide Governance Indicators (World Bank/Brookings)

5. Rule of Law: An index of surveys and expert assessments that rate countries on the extent to which the public has confidence in and abides by the rules of society; the incidence and impact of violent and nonviolent crime; the effectiveness, independence, and predictability of the judiciary; the protection of property rights; and the enforceability of contracts, among other things. Pass: Score must be above the median score for the income group. Source: Worldwide Governance Indicators (World Bank/Brookings)

6. Control of Corruption: An index of surveys and expert assessments that rate countries on: "grand corruption" in the political arena; the frequency of petty corruption; the effects of corruption on the business environment; and the tendency of elites to engage in "state capture," among other things. Pass: Score must be above the median score for the income group. Source: Worldwide Governance Indicators (World Bank/Brookings)

Encouraging Economic Freedom

1. Fiscal Policy: General government net lending/borrowing as a percent of gross domestic product (GDP), averaged over a three year period. Net lending/borrowing is calculated as revenue minus total expenditure. The data for this measure comes from the IMF's World Economic Outlook. Pass: Score must be above the median score for the income group. Source: The International Monetary Fund's World Economic Outlook Database

2. Inflation: The most recent average annual change in consumer prices. Pass: Score must be 15% or less. Source: The International Monetary Fund's World Economic Outlook Database

3. Regulatory Quality: An index of surveys and expert assessments that rate countries on the burden of regulations on business; price controls; the government's role in the economy; and

foreign investment regulation, among other areas. Pass: Score must be above the median score for the income group. Source: Worldwide Governance Indicators (World Bank/Brookings)

4. Trade Policy: A measure of a country's openness to international trade based on weighted average tariff rates and non-tariff barriers to trade. Pass: Score must be above the median score for the income group. Source: The Heritage Foundation

5. Gender in the Economy: An index that measures the extent to which laws provide men and women equal capacity to generate income or participate in the economy, including factors such as the capacity to access institutions, get a job, register a business, sign a contract, open a bank account, choose where to live, and to travel freely. Pass: Score must be above the median score for the income group. Source: International Finance Corporation

a. Due to an expansion in the number of areas examined by the indicator institution since this indicator's conception in FY 2012, from FY 2019 the Gender in the Economy indicator will be expanded, and incorporate new areas such as property rights protections, protections against domestic violence, and child marriage (among others). Expanded details regarding these changes are provided in the annual Guide to the Indicators and Selection Process, and annual Data Notes, available on MCC's website.

b. To phase in this new construction of the indicator, the original version of the indicator will be used on the FY 2018 scorecards. However, an appendix to the scorecards will be published that will show how countries would perform under the new construction of the indicator. From FY 2019, the new construction of the indicator will then fully replace the current version on the scorecard.

6. Land Rights and Access: An index that rates countries on the extent to which the institutional, legal, and market framework provide secure land tenure and equitable access to land in rural areas and the time and cost of property registration in urban and peri-urban areas. Pass: Score must be above the median score for the income group. Source: The International Fund for Agricultural Development and the International Finance Corporation

7. Access to Credit: An index that rates countries on rules and practices affecting the coverage, scope, and accessibility of credit information available through either a public credit registry or a private credit bureau; as well as legal rights in collateral laws and bankruptcy laws. Pass: Score must

be above the median score for the income group. Source: International Finance Corporation

8. Business Start-Up: An index that rates countries on the time and cost of complying with all procedures officially required for an entrepreneur to start up and formally operate an industrial or commercial business. Pass: Score must be above the median score for the income group. Source: International Finance Corporation

Investing in People

1. Public Expenditure on Health: Total expenditures on health by government at all levels divided by GDP. Pass: Score must be above the median score for the income group. Source: The World Health Organization

2. Total Public Expenditure on Primary Education: Total expenditures on primary education by government at all levels divided by GDP. Pass: Score must be above the median score for the income group. Source: The United Nations Educational, Scientific and Cultural Organization and National Governments

3. Natural Resource Protection: Assesses whether countries are protecting up to 17 percent of all their biomes (e.g., deserts, tropical rainforests, grasslands, savannas and tundra). Pass: Score must be above the median score for the income group. Source: The Center for International Earth Science Information Network and the Yale Center for Environmental Law and Policy

4. Immunization Rates: The average of DPT3 and measles immunization coverage rates for the most recent year available. Pass: Score must be above the median score for LICs, and 90% or higher for LMICs. Source: The World Health Organization and the United Nations Children's Fund

5. Girls Education:

a. Girls' Primary Completion Rate: The number of female students enrolled in the last grade of primary education minus repeaters divided by the population in the relevant age cohort (gross intake ratio in the last grade of primary). LICs are assessed on this indicator. Pass: Score must be above the median score for the income group. Source: United Nations Educational, Scientific and Cultural Organization

b. Girls Secondary Enrollment Education: The number of female pupils enrolled in lower secondary school, regardless of age, expressed as a percentage of the population of females in the theoretical age group for lower secondary education. LMICs are assessed on this indicator instead of Girls Primary Completion Rates. Pass:

Score must be above the median score for the income group. Source: United Nations Educational, Scientific and Cultural Organization

6. Child Health: An index made up of three indicators: (i) access to improved water, (ii) access to improved sanitation, and (iii) child (ages 1–4) mortality. Pass: Score must be above the median score for the income group. Source: The Center for International Earth Science Information Network and the Yale Center for Environmental Law and Policy

Relationship to Legislative Criteria

Within each policy category, the Act sets out a number of specific selection criteria. A set of objective and quantifiable policy indicators is used to inform eligibility decisions for assistance and to measure the relative performance by candidate countries against these criteria. The Board's approach to determining eligibility ensures that performance against each of these criteria is assessed by at least one of the objective indicators. Most are addressed by multiple indicators. The specific indicators appear in parentheses next to the corresponding criterion set out in the Act.

Section 607(b)(1): Just and democratic governance, including a demonstrated commitment to—

(A) promote political pluralism, equality and the rule of law (Political Rights, Civil Liberties, Rule of Law, and Gender in the Economy);

(B) respect human and civil rights, including the rights of people with disabilities (Political Rights, Civil Liberties, and Freedom of Information);

(C) protect private property rights (Civil Liberties, Regulatory Quality, Rule of Law, and Land Rights and Access);

(D) encourage transparency and accountability of government (Political Rights, Civil Liberties, Freedom of Information, Control of Corruption, Rule of Law, and Government Effectiveness); and

(E) combat corruption (Political Rights, Civil Liberties, Rule of Law, Freedom of Information, and Control of Corruption);

Section 607(b)(2): Economic freedom, including a demonstrated commitment to economic policies that—

(A) encourage citizens and firms to participate in global trade and international capital markets (Fiscal Policy, Inflation, Trade Policy, and Regulatory Quality);

(B) promote private sector growth (Inflation, Business Start-Up, Fiscal Policy, Land Rights and Access, Access

to Credit, Gender in the Economy, and Regulatory Quality);

(C) strengthen market forces in the economy (Fiscal Policy, Inflation, Trade Policy, Business Start-Up, Land Rights and Access, Access to Credit, and Regulatory Quality); and

(D) respect worker rights, including the right to form labor unions (Civil Liberties and Gender in the Economy); and

Section 607(b)(3): Investments in the people of such country, particularly women and children, including programs that—

(A) promote broad-based primary education (Girls' Primary Completion Rate, Girls' Secondary Education

Enrollment Rate, and Total Public Expenditure on Primary Education);

(B) strengthen and build capacity to provide quality public health and reduce child mortality (Immunization Rates, Public Expenditure on Health, and Child Health); and

(C) promote the protection of biodiversity and the transparent and sustainable management and use of natural resources (Natural Resource Protection).

Appendix D: Subsequent Compact Considerations

MCC reporting and data in the following chart are used to assess compact performance of MCC partners

nearing the end of compact implementation (i.e., within 18-months of compact end date). Some reporting used for assessment may contain sensitive information and adversely affect implementation or MCC-partner country relations. This information is for MCC's internal use and is not made public. However, key implementation information is summarized in compact status and results reports that are published quarterly on MCC's website under MCC country programs (<https://www.mcc.gov/where-we-work>) or monitoring and evaluation (<https://www.mcc.gov/our-impact/m-and-e>) webpages.

Topic	MCC reporting/ data source	Published documents
COUNTRY PARTNERSHIP		
Political Will: • Status of major conditions precedent. • Program oversight/implementation. ○ project restructures. ○ partner response to MCA capacity issues. • Political independence of MCA. Management Capacity: • Project management capacity. • Project performance. • Level of MCC intervention/oversight. • Relative level of resources required.	• Quarterly implementation reporting. • Quarterly results reporting. • Survey of MCC staff.	• Quarterly results published as "Table of Key Performance Indicators" (available by country): https://www.mcc.gov/our-impact/m-and-e. • Survey questions to be posted: https://www.mcc.gov/resources/doc/summary-compact-survey-summary-fy18.
PROGRAM RESULTS		
Financial Results: • Commitments—including contributions to compact funding. • Disbursements. Project Results: • Output, outcome, objective targets. • MCA commitment to 'focus on results'. • MCA cooperation on impact evaluation. • Percent complete for process/outputs. • Relevant outcome data. • Details behind target delays. Target Achievements.	• Indicator tracking tables. • Quarterly financial reporting. • Quarterly implementation reporting. • Quarterly results reporting. • Survey of MCC staff. • Impact evaluations.	• Monitoring and Evaluation Plans (available by country): https://www.mcc.gov/our-impact/m-and-e. • Quarterly Status Reports (available by country): https://www.mcc.gov/our-impact/m-and-e. • Quarterly results published as "Table of Key Performance Indicators" (available by country): https://www.mcc.gov/our-impact/m-and-e. • Survey questions to be posted: https://www.mcc.gov/resources/doc/summary-compact-survey-summary-fy18.
ADHERENCE TO STANDARDS		
• Procurement. • Environmental and social. • Fraud and corruption. • Program closure. • Monitoring and evaluation. • All other legal provisions.	• Audits (GAO and OIG). • Quarterly implementation reporting. • Survey of MCC staff.	• Published OIG and GAO audits. • Survey questions to be posted: https://www.mcc.gov/resources/doc/summary-compact-survey-summary-fy18.
COUNTRY SPECIFIC		
Sustainability: • Implementation entity. • MCC investments. Role of private sector or other donors: • Other relevant investors/investments. • Other donors/programming. • Status of related reforms. • Trajectory of private sector involvement going forward.	• Quarterly implementation reporting. • Quarterly results reporting. • Survey of MCC staff.	• Quarterly results published as "Table of Key Performance Indicators" (available by country): https://www.mcc.gov/our-impact/m-and-e. • Survey questions to be posted: https://www.mcc.gov/resources/doc/summary-compact-survey-summary-fy18.

BILLING CODE 9211-03-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (17-072)]

NASA Advisory Council; Science Committee; Ad Hoc Task Force on Big Data; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, as amended, the National Aeronautics and Space Administration (NASA) announces a meeting of the Ad Hoc Big Data Task Force (BDTF). This task force reports to the NASA Advisory Council's Science Committee. The meeting will be held for the purpose of soliciting and discussing, from the scientific community and other persons, scientific and technical information relevant to big data.

DATES: Wednesday, November 1, 2017, 8:30 a.m.–5:00 p.m.; Thursday, November 2, 2017, 8:30 a.m.–5:00 p.m.; and Friday, November 3, 2017, 8:30 a.m.–5:00 p.m., Local Time.

ADDRESSES: Jet Propulsion Laboratory (JPL), Theodore von Kármán Auditorium, 4800 Oak Grove Drive, Pasadena, CA 91011.

FOR FURTHER INFORMATION CONTACT: Ms. KarShelia Henderson, Science Mission Directorate, NASA Headquarters, Washington, DC 20546, (202) 358-2355, fax (202) 358-2779, or khenderson@nasa.gov.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. The meeting will also be available telephonically and by WebEx. You must use a touch tone phone to participate in this meeting. Any interested person may dial the USA toll free conference call number 888-324-9653, or toll number 1-312-470-7273, passcode 3883300, to participate in this meeting by telephone for all three days. The WebEx link is <https://nasa.webex.com/>; the meeting number is 991 009 965 and the password is BDTFmtg#6 for all three days. The agenda for the meeting includes the following topics:

- Update on JPL/Caltech Data Science Programs and Projects
- Review of BDTF Studies
- Discussion of Draft Findings and Recommendations.

Attendees will be requested to sign a register and to comply with JPL security

requirements. It is imperative that the meeting be held on these dates to the scheduling priorities of the key participants.

Patricia D. Rausch,
Advisory Committee Management Officer,
National Aeronautics and Space Administration.

BILLING CODE 7510-13-P

NATIONAL CREDIT UNION ADMINISTRATION

Request for Comment Regarding National Credit Union Administration Draft 2018–2022 Strategic Plan

AGENCY: National Credit Union Administration (NCUA).

ACTION: Notice and request for comment.

SUMMARY: The NCUA Board (Board) is requesting comment on its 2018–2022 Draft Strategic Plan. The NCUA 2018–2022 Draft Strategic Plan summarizes our analysis of the internal and external environment impacting NCUA; evaluates NCUA programs and risks; and provides goals and objectives for the next five years. While the Board welcomes all comments from the public and stakeholders, it specifically invites comments and input on the proposed goals and objectives of the strategic plan.

DATES: Comments must be received on or before December 4, 2017 to be assured of consideration.

ADDRESSES: You may submit comments by any of the following methods (Please send comments by one method only):

- **NCUA Web site:** <https://www.ncua.gov/about/pages/board-comments.aspx>. Follow the instructions for submitting comments.
- **Email:** Address to boardcomments@ncua.gov. Include “[Your name]—Comments on NCUA 2018–2022 Draft Strategic Plan” in the email subject line.
- **Fax:** (703) 518-6319. Include your name and the following subject line: “Comments on NCUA 2018–2022 Draft Strategic Plan.”
- **Mail:** Address to Gerard Poliquin, Secretary of the Board, National Credit Union Administration, 1775 Duke Street, Alexandria, Virginia 22314–3428.
- **Hand Delivery/Courier:** Same as mail address.

Public Inspection: You can view all public comments on NCUA's Web site at <https://www.ncua.gov/about/pages/board-comments.aspx> as submitted, except for those we cannot post for technical reasons. NCUA will not edit or

remove any identifying or contact information from the public comments submitted. You may inspect paper copies of comments at NCUA's headquarters at 1775 Duke Street, Alexandria, Virginia 22314, by appointment weekdays between 9 a.m. and 3 p.m. To make an appointment, call (703) 518-6570 or send an email to boardcomments@ncua.gov.

FOR FURTHER INFORMATION CONTACT:

Melissa Lowden, Management Analyst, National Credit Union Administration, 1775 Duke Street, Alexandria, Virginia 22314–3428 or telephone: (703) 518-1182.

Authority: 5 U.S.C. 306.

SUPPLEMENTARY INFORMATION: The Government Performance and Results Act of 1993 (GPRA) requires agencies to prepare strategic plans, annual performance plans and annual performance reports with measurable performance indicators to address the policy, budgeting and oversight needs of both Congress and agency leaders, partners/stakeholders, and program managers. In 2010, Congress passed the GPRA Modernization Act of 2010, which further requires a leadership-driven governance model with emphasis on quarterly reviews and transparency. The GPRA Modernization Act requires agencies to set priority goals linked to longer-term Agency strategic goals. Part 6 of Office of Management and Budget (OMB) Circular A–11 provides additional guidance and requirements for federal agencies to implement these laws. The NCUA Draft Strategic Plan 2018–2022 is issued pursuant to the GPRA, the GPRA Modernization Act, and OMB Circular A–11.

The NCUA 2018–2022 Draft Strategic Plan outlines how the agency will continue to effectively supervise and insure a growing and evolving credit union system. As the financial services and the credit union sector evolve, NCUA must adjust to meet the challenges the changes provide. In response, we are adopting new technology and analytical tools to improve the agency's offsite monitoring capabilities. Additionally, we are recalibrating our examination approach to reflect a more stable economic environment. We also are revising the agency's operations, priorities and structure to ensure our objectives match those prescribed in the Federal Credit Union Act, while at the same time efficiently using the agency's resources.

In the years ahead, NCUA also plans to advance meaningful regulatory relief by fully reevaluating our rules and working to modify them as appropriate, improving the uniformity of
