SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Blueberry Fruit from Morocco Into the Continental United States.

OMB Control Number: 0579–0421.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service regulates the importation of fruits and vegetables into the United States from certain parts of the world as provided in “Subpart—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–80).

In accordance with § 319.56–69, blueberries from Morocco may be imported into the continental United States under certain conditions to prevent the introduction of plant pests into the United States. These conditions require the use of certain information collection activities, including application for permits to import plants and plant products, appeal of denial or revocation of permit, emergency action notification, notice of arrival, registration of production sites, inspections of crops, and remedial actions by production sites. Also, each consignment of blueberries must be accompanied by a phytosanitary certificate issued by the national plant protection organization (NPPO) of Morocco with an additional declaration stating that the provisions of § 319.56–69 have been met, and that the consignment was inspected prior to export and found free of *Monilinia fructigena*. These actions allow the importation of blueberries from Morocco while continuing to protect the United States against the introduction of plant pests.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as

affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.63 hours per response.

Respondents: Growers and importers of blueberry fruit from Morocco and the NPPO of Morocco.

Estimated annual number of respondents: 15.

Estimated annual number of responses per respondent: 9.

Estimated annual number of responses: 130.

Estimated total annual burden on respondents: 82 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of October 2017.

Michael C. Gregoire,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2017–0079]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Importation of Pine Shoot Beetle Host Material From Canada

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the regulations for the importation of pine nursery stock and various pine products from Canada to prevent the spread of pine shoot beetle into noninfested areas of the United States.

DATES: We will consider all comments that we receive on or before December 12, 2017.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#/docketDetail;D=APHIS-2017-0079>.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2017–0079, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#/docketDetail;D=APHIS-2017-0079> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations for the importation of pine shoot beetle host material from Canada, contact Mr. Tyrone Jones, Trade Director, PHP, PPQ, APHIS, 4700 River Road Unit 137, Riverdale, MD 20737; (301) 851–2128. For copies of more detailed information on the information collection, contact Ms. Kimberly Hardy, APHIS' Information Collection Coordinator, at (301) 851–2483.

SUPPLEMENTARY INFORMATION:

Title: Importation of Pine Shoot Beetle Host Material From Canada.

OMB Control Number: 0579–0257.

Type of request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and

other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States.

As authorized by the PPA, the Animal and Plant Health Inspection Service (APHIS) regulates the importation of plants for planting into the United States from certain parts of the world as provided in "Subpart—Plants for Planting" (7 CFR 319.37 through 319.37–14). This subpart restricts, among other things, the importation of living plants, plant parts, and seeds for propagation. In addition, APHIS regulates the importation of lumber and other wood articles as provided in "Subpart—Logs, Lumber, and Other Wood Articles" (7 CFR 319.40–1 through 319.40–11). This subpart lists requirements for the importation of various logs, lumber, and other unmanufactured wood products into the United States. Both subparts contain regulations that help prevent the introduction and spread of pine shoot beetle (*Tomicus piniperda*), a pest of pine trees, into noninfested areas of the United States and contain several information collection requirements including phytosanitary certificates with an additional declaration, statements of origin and movement, compliance agreements, and processes of appeal.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.04 hours per response.

Respondents: Christmas tree industry, nursery industry, and foreign government.

Estimated annual number of respondents: 20.

Estimated annual number of responses per respondent: 120.

Estimated annual number of responses: 2,402.

Estimated total annual burden on respondents: 94 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of October 2017.

Michael C. Gregoire,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Importation of Mangoes From Jamaica Into the Continental United States.

OMB Control Number: 0579–0419.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service regulates the importation of fruits and vegetables into the United States from certain parts of the world as provided in "Subpart—Fruits and Vegetables" (7 CFR 319.56–1 through 319.56–80).

In accordance with § 319.56–71, mangoes may be imported from Jamaica into the continental United States under certain conditions to prevent the introduction of plant pests into the United States. As a condition of entry, mangoes have to be produced in accordance with a systems approach employing a combination of mitigation measures for the pests listed in § 319.56–71 and be inspected prior to export from Jamaica and found free of these pests and diseases. Mangoes must be accompanied by a phytosanitary certificate with an additional declaration that the conditions for importation have been met. These regulations also require the use of
