

on the port and starboard sides of the deckhouse or hull, and weather deck. In addition, certain fisheries are required to display their assigned color code. The official number and color code identify each vessel and should be visible at distance from the sea and in the air. These markings provide law enforcement personnel with a means to monitor fishing, at-sea processing, and other related activities, to ascertain whether the vessel's observed activities are in accordance with those authorized for that vessel. The identifying official number is used by NMFS, the United States Coast Guard, and other marine agencies in issuing violations, prosecutions, and other enforcement actions. Vessels that are authorized for particular fisheries are readily identified, gear violations are more readily prosecuted, and this allows for more cost-effective enforcement.

In addition to vessel marking, requirements that fishing gear be marked are essential to facilitate enforcement. The ability to link fishing gear to the vessel owner is crucial to enforcement of regulations issued under the authority of the Magnuson-Stevens Act. The marking of fishing gear is also valuable in actions concerning damage, loss, and civil proceedings. The requirements imposed in the Southeast Region are for coral aquacultured live rock; golden crab traps; mackerel gillnet floats; spiny lobster traps; black sea bass pots; and buoy gear.

II. Method of Collection

Markings, such as numbers, are placed directly on the vessels and gear.

III. Data

OMB Control Number: 0648-0358.

Form Number(s): None.

Type of Review: Regular submission (extension of a currently approved information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 7,825.

Estimated Time per Response: Vessel marking: 45 minutes. Gear marking: aquacultured live rocks, 10 seconds each; golden crab traps, 2 minutes each; spiny lobster traps, 7 minutes each; sea bass pots, 16 minutes each; and mackerel gillnets, and buoy gear, 20 minutes each.

Estimated Total Annual Burden Hours: 50,687.

Estimated Total Annual Cost to Public: \$670,901 in recordkeeping and reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

National Oceanic and Atmospheric Administration

RIN 0648-XF746

Marine Mammals; File No. 21315

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the Alaska Department of Fish and Game (Lori Quakenbush, Responsible Party) P.O. Box 25526, Juneau, AK 99802, has applied in due form for a permit to collect, receive, import, and export marine mammal parts for scientific research.

DATES: Written, telefaxed, or email comments must be received on or before November 17, 2017.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 21315 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation

Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. 21315 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Lisa Lierheimer or Jennifer Skidmore, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The objectives of the proposed research are to obtain information on population status and distribution, stock structure, age distribution, mortality rates, productivity, feeding habits, and health that would be used for conservation and management purposes. The applicant proposes to collect, receive, import, and export biological samples from up to 500 cetaceans and 1,000 pinnipeds (excluding walrus) annually from legal, foreign and domestic subsistence-hunts; scientists in academic, Federal, and state institutions involved in legally authorized marine mammal research; dead beach-cast species; and incidental commercial fisheries bycatch. Import/export activities would occur world-wide. No live animal takes are being requested under this permit. The requested duration of the permit is five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to

prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: October 13, 2017.

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection includes the information necessary to submit a request to grant or revoke power of

attorney for an application, patent, or reexamination proceeding, and for a registered practitioner to withdraw as attorney or agent of record. This collection also includes the information necessary to change the correspondence address for an application, patent, or reexamination proceeding, to request a Customer Number and manage the correspondence address and list of practitioners associated with a Customer Number, and to designate or change the correspondence address or fee address for one or more patents or applications by using a Customer Number.

Under 35 U.S.C. 2 and 37 CFR 1.31-1.32, power of attorney may be granted to one or more joint inventors or a person who is registered to practice before the USPTO to act in an application or a patent. In particular, for an application filed before September 16, 2012, or for a patent which issued from an application filed before September 16, 2012, power of attorney may be granted by the applicant for patent (as set forth in 37 CFR 1.41(b) (pre-AIA)) or the assignee of the entire interest of the applicant. For an application filed on or after September 16, 2012, or for a patent which issued from an application filed on or after September 16, 2012, power of attorney may be granted by the applicant for patent (as set forth in 37 CFR 1.42) or the patent owner.

The rules of practice (37 CFR 1.33) also provide for a correspondence address and daytime telephone number to be supplied for receiving notices, official letters, and other communications from the USPTO. For an application filed before September 16, 2012, the address and number may be supplied by a practitioner of record, all of the applicants, or an assignee. In addition, a practitioner not of record may supply the address and number for an application filed before September 16, 2012, if the practitioner is named in the transmittal papers accompanying the original application and if an oath or declaration by any of the inventors has yet to be filed. For an application filed on or after September 16, 2012, the address and number may be supplied by a practitioner of record or the applicant. A practitioner not of record who acts in a representative capacity may supply the address and number for an application filed on or after September 16, 2012, if the practitioner is named in the application transmittal papers and if any power of attorney has yet to be appointed.

37 CFR 1.36 provides for the revocation of a power of attorney at any stage in the proceedings of a case. 37 CFR 1.36 also provides a path by which

a registered patent attorney or patent agent who has been given a power of attorney may withdraw as attorney or agent of record.

The USPTO's Customer Number practice permits applicants, patent owners, assignees, and practitioners of record, or the representatives of record for a number of applications or patents, to change the correspondence address of a patent application or patent with one change request instead of filing separate requests for each patent or application. Customers may request a Customer Number from the USPTO and associate this Customer Number with a correspondence list or a list of registered practitioners. Any changes to the address or practitioner information associated with a Customer Number will be applied to all patents and applications associated with said Customer Number.

The Customer Number practice is optional, in that changes of correspondence address or power of attorney may be filed separately for each patent or application without using a Customer Number. However, a Customer Number associated with the correspondence address for a patent application is required in order to access private information about the application using the Patent Application Information Retrieval (PAIR) system, which is available through the USPTO Web site. The PAIR system gives authorized individuals secure online access to application status information, but only for patent applications that are linked to a Customer Number. Customer Numbers may be associated with U.S. patent applications as well as international Patent Cooperation Treaty (PCT) applications. The use of a Customer Number also is required in order to grant power of attorney to more than ten practitioners or to establish a separate "fee address" for maintenance fee purposes that is different from the correspondence address for a patent or application.

Customers may use a Customer Number Upload Spreadsheet to designate or change the correspondence address or fee address for a list of patents or applications by associating them with a Customer Number. The Customer Number Upload Spreadsheet may not be used to change the power of attorney for patents or applications. Customers may download a Microsoft Excel template with instructions from the USPTO Web site to assist them in preparing the spreadsheet in the proper format.
